Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-6-138, MCA, is amended to read:

“15-6-138. (Temporary) Class eight property — description — taxable percentage. (1) Class eight property includes:

- (a) all agricultural implements and equipment that are not exempt under 15-6-201(1)(bb);
- (b) all mining machinery, fixtures, equipment, tools that are not exempt under 15-6-201(1)(r), and supplies except those included in class five;

- (e) all goods and equipment that are intended for rent or lease, except goods and equipment that are specifically included and taxed in another class;
- (f) special mobile equipment as defined in 61-1-104;
- (g) furniture, fixtures, and equipment, except that specifically included in another class, used in commercial establishments as defined in this section;

(2) As used in this section, "coal and ore haulers" means nonhighway vehicles that exceed 18,000 pounds per axle and that are primarily designed and used to transport coal, ore, or other earthen material in a mining or quarrying environment.

(3) "Commercial establishment" includes any hotel; motel; office; petroleum marketing station; or service, wholesale, retail, or food-handling business.

(4) Class eight property is taxed at 3% of its market value.

(5) (a) If, in any year beginning with tax year 2004, the percentage growth in inflation-adjusted Montana wage and salary income is at least 2.85% from the year prior to the base year, then the tax rate for class eight property will be reduced by 1% each year until the tax rate reaches zero.

(b) For each tax year, the base year is the year 3 years before the applicable tax year and the target year is the year 2 years before the applicable tax year.

(c) The department shall calculate the percentage growth in subsection (5)(a) by October 30 of each target year by using the formula $(W/CPI) - 1$, where:

(i) W is the Montana wage and salary income for the calendar base year divided by the Montana wage and salary income for the calendar year prior to the base year; and

(ii) CPI is the consumer price index for the calendar base year used in subsection (5)(c)(i) divided by the consumer price index for the year prior to the most current calendar year prior to the base year used in subsection (5)(c)(i).

(d) For purposes of determining the percentage growth in subsection (5)(a), the department shall use the bureau of economic analysis of the United States department of commerce Montana wage and salary disbursements, fall SA07 SA07N (state annual) for the target year wage and salary data series. *If the fall state annual SA07N series is not available, the department shall use the most recent wage and salary data available. If the bureau of economic analysis changes the name of the SA07N series, the department shall use the series that replaces the SA07N series.*

(6) The class eight property of a person or business entity that owns an aggregate of \$5,000 or less in market value of class eight property is exempt from taxation. (Repealed on occurrence of contingency—secs. 27(2), 31(4), Ch. 285, L. 1999.)

Section 2. Effective date. [This act] is effective on passage and approval.

Section 3. Retroactive applicability. [This act] applies retroactively, within the meaning of 1-2-109, to calculations of inflation-adjusted Montana wage and salary income growth made by the department of revenue before [the effective date of this act].

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 2-18-301, MCA, is amended to read:

"2-18-301. Purpose and intent of part — rules. (1) The purpose of this part is to provide the market-based compensation necessary to attract and retain competent and qualified employees in order to perform the services that the state is required to provide to its citizens.

(2) It is the intent of the legislature that compensation plans for state employees, excluding those employees excepted under 2-18-103 or 2-18-104 ~~and excluding employees compensated under 2-18-313 and 2-18-315~~, be based on an analysis of the labor market as provided by the department in a salary survey. The salary survey must be submitted to the office of budget and program planning as a part of the information required by 17-7-111.

(3) Except as provided in 2-18-110, pay adjustments and pay schedules provided for in 2-18-303 and in 2-18-312, ~~2-18-313, and 2-18-315~~ supersede any other plan or systems established through collective bargaining after the adjournment of the ~~58th~~ 59th legislature.

(4) Pay levels provided for in 2-18-312, ~~2-18-313, and 2-18-315~~ may not be increased through collective bargaining after adjournment of the ~~58th~~ 59th legislature.

(6) The department shall administer the pay program established by the legislature on the basis of merit, internal equity, and competitiveness to external labor markets when fiscally able.

(7) The department may promulgate rules not inconsistent with the provisions of this part, collective bargaining statutes, or negotiated contracts to carry out the purposes of this part.

(8) Nothing in this part prohibits the board of regents from engaging in negotiations with the collective bargaining units representing the classified staff of the university system.”

Section 2. Section 2-18-303, MCA, is amended to read:

“2-18-303. Procedures for using pay schedules. (1) The pay schedule provided in 2-18-312 must be implemented as follows:

(a) The pay schedule provided in 2-18-312 indicates the entry salary and market salary for each grade for positions classified under the provisions of part 2 of this chapter.

(b) Each employee newly hired by the state of Montana must be hired at the entry rate, except as provided in subsections ~~(6) through (9)~~ (5) through (8).

(c) On the first day of the first complete pay period in fiscal year ~~2004~~ 2006, each employee is entitled to the amount of the employee’s base salary as it was on June 30, ~~2003~~ 2005.

(d) Effective on the first day of the first complete pay period that includes ~~January 1, 2005 an employee’s anniversary date during the fiscal year ending June 30, 2006,~~ the base salary of each employee must be increased by ~~an amount equal to 25 cents an hour or by a lesser amount so that the employee’s base salary after the increase does not exceed the maximum salary of the pay grade as provided in subsection (1)(f) 3.5% or \$1,005, based upon 2,080 annual hours in a pay status, whichever is greater.~~ Effective on the first day of the first complete pay period that includes an employee’s anniversary date during the fiscal year ending June 30, 2007, the base salary of each employee must be increased by 4% or \$1,188, based upon 2,080 annual hours in a pay status, whichever is greater. For employees hired on or before September 30, 2005, the anniversary date is October 1.

(e) An employee’s base salary may be no less than the entry salary for the employee’s assigned grade.

~~(f) The maximum salary for each grade is determined by subtracting the entry salary from the market salary and adding that amount to the market salary.~~

(2) The pay schedule provided in 2-18-312 and the provisions of subsections (1)(a) through (1)(d) of this section do not apply to those ~~teachers or blue-collar occupations compensated under the pay schedules provided in 2-18-313 and 2-18-315 employees who are members of collective bargaining units that have collectively bargained separate classification and pay plans or employees covered under subsections (5) and (6) of this section.~~

~~(3) The pay schedules provided in 2-18-313 and 2-18-315 must be implemented as follows:~~

~~(a) (i) The pay schedules provided for in 2-18-313 indicate the annual compensation for teachers employed under the authority of the department of corrections or the department of public health and human services for fiscal years 2004 and 2005.~~

~~(iii) Effective on the first day of the first complete pay period that includes January 1, 2005, the base salary of each teacher employed in the department of public health and human services and the department of corrections is the~~

amount provided for the teacher's step and education level under 2-18-313(2). This subsection (3)(a)(iii) does not provide for a step advancement.

~~(b) The pay schedules provided in 2-18-315 indicate the maximum hourly compensation for fiscal years ending June 30, 2004, and June 30, 2005, for employees in apprentice trades and crafts and other blue collar occupations recognized in the state blue collar classification plan who are members of units that have collectively bargained separate classification and pay plans.~~

~~(c) The compensation of each employee on the first day of the first pay period in each fiscal year is that amount corresponding to the grade occupied on the last day of the preceding fiscal year.~~

~~(4)(3) (a) (i)~~ If the legislature authorizes a pay increase for state employees, a member of a bargaining unit may not receive a pay increase until the employer's collective bargaining representative receives written notice that the employee's bargaining unit has ratified a completely integrated collective bargaining agreement.

~~(ii) If ratification of a completely integrated collective bargaining agreement, as required by subsection (4)(a)(i), is not completed by the date on which a legislatively authorized pay increase is implemented, retroactivity to that date may be negotiated.~~

~~(iii)(ii)~~ If ratification of a completely integrated collective bargaining agreement, as required by subsection ~~(4)(a)(i)~~ (3)(a)(i), is not completed by the date on which a legislatively authorized pay increase is implemented, members of the bargaining unit must continue to receive the compensation that they were receiving until an agreement is ratified.

(b) Methods of administration not inconsistent with the purpose of this part and necessary to properly implement the pay schedules and adjustments provided in 2-18-312, ~~2-18-313, 2-18-315,~~ and this section may be provided for in collective bargaining agreements.

~~(5)(4)~~ The current wage or salary of an employee may not be reduced by the implementation of the pay schedules provided for in 2-18-312, ~~2-18-313, and 2-18-315.~~

(6)(5) The department may authorize a separate pay schedule for classes of medical professionals if the rates provided in 2-18-312 are not sufficient to attract and retain fully licensed and qualified professionals.

~~(7)(6)~~ (a) The department may develop and implement an alternative pay and classification plan for certain classes, occupations, and work units. Pay for employees in the alternative pay and classification plan may be established and changed based on demonstrated competencies and accomplishments, on the labor market, and on other situations defined by the department.

(b) To the extent that the plan applies to employees within a collective bargaining unit, the implementation of the plan is a negotiable subject under 39-31-305.

~~(8)(7)~~ The department may develop programs that enable the department to mitigate problems associated with difficult recruitment, retention, transfer, or other exceptional circumstances. To the extent that the program applies to employees within a collective bargaining unit, it is a negotiable subject under 39-31-305.

~~(9)(8)~~ The department shall review the competitiveness of the compensation provided to all occupations under this part. If the department finds that

substantial problems exist with recruitment and retention because of inadequate salaries when compared to competing employers, the department may establish criteria allowing an adjustment in pay or classification to mitigate the problems. To the extent that these adjustments apply to employees within a collective bargaining unit, the implementation of these adjustments is a negotiable subject under 39-31-305.”

Section 3. Section 2-18-304, MCA, is amended to read:

“2-18-304. Longevity allowance. (1) (a) In addition to the compensation provided for in 2-18-303, ~~or 2-18-312, 2-18-313, or 2-18-315,~~ each employee who has completed 5 years of uninterrupted state service must receive 1.5% of the employee’s base salary multiplied by the number of completed, contiguous 5-year periods of uninterrupted state service.

(b) *A resulting bank that intends to establish, acquire, or operate a branch bank pursuant to subsection (4)(a) that is organized under the laws of this state must receive prior approval from the department as provided for in 32-1-372, whether or not the branch bank is to be located within or outside this state.*

(c) *A resulting bank organized under federal law or the laws of another state shall provide the department with copies of all applications or notices filed with any federal or other state regulatory agency seeking to establish, acquire, or operate a branch bank pursuant to subsection (4)(a) within this state. The copies must be filed with the department within 5 days of their filing with the federal or other state agency.*

(6) ~~This~~ *A bank may establish and maintain branch banks, as provided in 32-1-371 and this section. CHAPTER NO. 17

[SB 20]

AN ACT REMOVING THE REQUIREMENT THAT A MUNICIPALITY DIVERT ITS WATER FROM AN A-CLOSED WATER BODY IN ORDER TO QUALIFY FOR THE CONSIDERATION FOR NONABANDONMENT OF A MUNICIPAL WATER RIGHT; INCLUDING A MUNICIPAL WATER SUPPLY THAT IS GOING TO BE USED AS APPROVED BY THE DEPARTMENT OF NATURAL RESOURCES AND CONSERVATION AS A CRITERION FOR DETERMINING NONABANDONMENT; AND AMENDING SECTION 85-2-227, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 85-2-227, MCA, is amended to read:

“85-2-227. Claim to constitute prima facie evidence — relevant evidence — abandonment — criteria for presumption of municipal nonabandonment. (1) For purposes of adjudicating rights pursuant to this part, a claim of an existing right filed in accordance with 85-2-221 or an amended claim of existing right constitutes prima facie proof of its content until the issuance of a final decree. For purposes of administering water rights, the provisions of a temporary preliminary decree or a preliminary decree, as modified after objections and hearings, supersede a claim of existing right until a final decree is issued.

(2) A water judge may consider all relevant evidence in the determination and interpretation of existing water rights. Relevant evidence under this part may include admissible evidence arising before or after July 1, 1973.

(3) Subject to the provisions of subsection (4), a water judge may determine all or part of an existing water right to be abandoned based on a consideration of all admissible evidence that is relevant, including, without limitation, evidence relating to acts or intent occurring in whole or in part after July 1, 1973.

(4) In a determination of abandonment made under subsection (3), the legislature finds that a water right that is claimed for municipal use ~~from a water classified by the board of environmental review before January 1, 1999, as A-Closed under administrative rule is a unique water suited to municipal water use and that such a claim~~ by a city, town, or other public or private entity that operates a public water supply system, as defined in 75-6-102, is presumed to not be abandoned if the city, town, or other private or public entity has used any part of the water right or municipal water supply and there is admissible evidence that the city, town, or other public or private entity also has:

(a) obtained a filtration waiver under the federal Safe Drinking Water Act, 42 U.S.C. 300(f), et seq.;

(b) acquired, constructed, or regularly maintained diversion or conveyance structures for the future municipal use of the water right;

(c) conducted a formal study, prepared by a registered professional engineer or qualified consulting firm, that includes a specific assessment that using the water right for municipal supply is feasible and that the amount of the water right is reasonable for foreseeable future needs; or

(d) maintained facilities connected to the municipal water supply system to apply the water right to:

(i) an emergency *municipal water supply*; ~~or~~

(ii) a supplemental municipal water supply; or

(iii) *any other use approved by the department under Title 85, chapter 2, part 4.*"

AN ACT ELIMINATING THE REQUIREMENT THAT PRIOR TO ISSUING OR RENEWING A PERMIT TO OPERATE AN UNDERGROUND STORAGE TANK, THE DEPARTMENT OF ENVIRONMENTAL QUALITY SHALL MAKE A DETERMINATION OF FULL COMPLIANCE OR ISSUE A COMPLIANCE ORDER; AMENDING SECTION 75-11-509, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 75-11-509, MCA, is amended to read:

“75-11-509. Inspections — permits. (1) The owner or operator of an active underground storage tank must have the tank inspected for compliance with this part by January 1, 2002, and at least once every 3 years thereafter by an inspector who is licensed pursuant to Title 75, chapter 11, part 2, to perform underground storage tank inspections. The inspector may not be:

- (a) the owner or operator of the tank;
- (b) an employee of the owner or operator; or

(c) for the first inspection required by this subsection (1) and for a period of 3 years after the installation or modification of the tank was completed, the installer who installed or modified the tank and whose name or signature was on the permit required by 75-11-212.

(2) The owner or operator of an inactive underground storage tank shall comply with requirements for testing, inspection, recordkeeping, and reporting provided in rules adopted pursuant to this part.

(3) The department may by rule authorize temporary permits for the installation, testing, and operation of underground storage tanks. The requirements in subsection (8) for a 3-year permit term and for permit issuance only after inspection by a licensed inspector do not apply to temporary permits.

(4) The department shall by rule provide:

- (a) requirements for the scope and timing of inspections; and
- (b) requirements for testing, inspection, recordkeeping, and reporting for inactive tanks to ensure that these tanks do not pose a threat to public health, safety, or the environment while inactive or upon their return to active status.

(5) The inspector shall provide the owner or operator with an inspection report that meets the requirements of rules adopted by the department to ensure compliance with this part and rules adopted pursuant to this part.

(6) The owner or operator shall retain the original inspection report and mail a copy to the department.

(7) If the inspection report indicates violations, the owner or operator shall correct the violations and obtain a followup inspection. Followup inspection reports must be provided to the owner or operator and to the department.

(8) A person may not place a regulated substance in an underground storage tank unless the owner or operator has been issued a valid permit from the department for the tank. Permits must be issued for a term of 3 years. The department may not issue or renew a permit unless the owner or operator has filed with the department an inspection report by a licensed inspector. ~~Except as provided in subsection (9), prior to issuing or renewing a permit, the department shall determine, on the basis of the inspection report and other relevant information, that the operation and maintenance of the tank was in compliance with this part and rules adopted pursuant to this part on the date of inspection.~~

~~(9) The department may issue and renew permits for tanks that are not in full compliance with the operation and maintenance requirements of this part and rules adopted pursuant to this part only if the department requires, in a compliance order issued pursuant to 75-11-512 or 75-11-525, that the noncompliance be corrected at the earliest practicable time. The department may also take other enforcement actions, including actions for penalties under this chapter, and may pursue any other remedy available to the department to address noncompliance with this part or with rules, permits, or orders issued~~

~~pursuant to this part. Prior to issuing or renewing a permit, the department shall determine, on the basis of the inspection report and other relevant information, whether the operation and maintenance of the tank were in compliance with this part and rules adopted pursuant to this part on the date of inspection.~~

(10)(9) The department may determine to not issue or not renew a permit for a tank if the department finds that there has been significant noncompliance with this part or with rules, permits, or orders issued pursuant to this part. If the department proposes to not issue or not renew a permit, it ~~shall~~ *must* have a written notice letter served personally or by certified mail on the owner or operator informing the owner or operator of the reason for the action. The owner or operator may request a hearing before the board. The hearing request must be in writing and must be filed with the board no later than 30 days after the service of the notice letter. The contested case provisions of the Montana Administrative Procedure Act, provided for in Title 2, chapter 4, part 6, apply to a hearing conducted under this section.”

(b) The term may not be construed to limit the ability of the department to enforce a support order according to its terms when the order provides for support to extend beyond the child's 18th birthday.

(3) "Department" means the department of public health and human services.

(4) "Director" means the director of the department of public health and human services or the director's authorized representative.

(10) "Parent" means the natural or adoptive parent of a child.

(11) "Paternity blood test" means a test that demonstrates through examination of genetic markers either that an alleged father is not the natural father of a child or that there is a probability that an alleged father is the natural father of a child. The genetic markers may be identified from a person's blood or tissue sample. The blood or tissue sample may be taken by blood drawing, buccal swab, or any other method approved by the American association of blood banks. Paternity blood tests may include but are not limited to the human leukocyte antigen test and DNA probe technology.

(12) "Public assistance" means any type of monetary or other assistance for a child, including medical and foster care benefits. (14) "Support order" means an order, whether temporary or final, that:

(a) provides for the payment of a specific amount of money, expressed in periodic increments or as a lump-sum amount, for the support of the child, including an amount expressed in dollars for medical and health needs, child care, education, recreation, clothing, transportation, and other related expenses and costs specific to the needs of the child;

(15) "IV-D" means the provisions of Title IV-D of the Social Security Act and the regulations promulgated under the act."

Section 2. Section 40-5-202, MCA, is amended to read:

"40-5-202. Department of public health and human services — powers and duties regarding collection of support debt. (1) The department may take action under the provisions of this chapter, the abandonment or nonsupport statutes, the Uniform Parentage Act established in Title 40, chapter 6, part 1, and other appropriate state and federal statutes to provide IV-D services if the department:

(a) receives a referral on behalf of the child from an agency providing services to the child under the provisions of Title 41, Title 52, or Title 53;

(b) is providing services under 40-5-203; or

(c) receives ~~an interstate~~ a referral, whether under the Revised Uniform Reciprocal Enforcement of Support Act, the Uniform Interstate Family Support Act, or an ~~interstate~~ action by a Title IV-D agency of ~~another state~~.

(2) A verified statement, filed by the department, that it is providing services is prima facie evidence of its authority to act. Upon filing, the department may, on behalf of itself or on behalf of the obligee, obligor, or child, initiate, participate in, intervene in, or exercise any remedy available in a judicial or an administrative action on the same basis as any other party.

(3) Whether acting on its own behalf or on behalf of the obligee, obligor, or child, the department and its attorneys serve the public interest in ensuring that children are supported by their parents, rather than maintained by public

assistance. The department does not represent the interests of any individual person, and its attorneys represent only the department. An attorney-client relationship is not created between department attorneys and any person or entity other than the department. The obligee, obligor, and child may obtain the services of a private attorney to represent their interests. The existence or appearance of a private attorney as counsel of record for the obligee, obligor, or child does not affect the department's right to act or provide services under this chapter. This chapter does not require the department to provide a private attorney for, or to pay for a private attorney for, an obligee, obligor, or child.

(4) The department has the power of attorney to act in the name of any obligee to endorse and cash any drafts, checks, money orders, or other negotiable instruments received by the department on behalf of a child.

(5) (a) If the department is providing IV-D services, the department must be afforded notice and an opportunity to participate as an independent party in any proceeding relating to paternity, to termination of parental rights, or to the establishment, enforcement, or modification of a support obligation, whether initiated by the obligee, the obligor, or the child.

(b) The notice must reasonably inform the department of the issues to be determined in the proceeding, the names of the parties and the child, and the identity and location of the tribunal in which the issues will be determined. The notice is for informational purposes only and is not intended as a substitute for procedures necessary under the Montana Rules of Civil Procedure to establish personal jurisdiction over the department. Whether or not the department is given notice, an agreement, judgment, decree, or order is void as to any interest of the department that is or may be affected by the agreement, judgment, decree, or order if the department was not joined as a party in the manner provided in the Montana Rules of Civil Procedure.

(c) The notice must be personally served on the department. Within 20 days after service of the notice, the department may:

(i) decline to enter the proceeding as a party, in which case the proceeding may continue without the department's participation;

(ii) inform the tribunal that a substantial interest of the department could be adversely affected by the proceeding, in which case the proceeding may not continue without joining the department as a necessary party in the manner provided in the Montana Rules of Civil Procedure; or

(iii) inform the tribunal that prior to the filing of the proceeding, the department initiated an administrative proceeding under this chapter in which the parties and some or all of the issues are the same as those in the proceeding before the tribunal. The tribunal shall then discontinue the proceeding as to the common issues until administrative remedies have been exhausted.

(6) (a) When the department is providing services, a recipient or former recipient of public assistance who assigned support rights under 42 U.S.C. 602(a)(26) or 42 U.S.C. 608(a)(3) or a collection agency acting on behalf of the recipient or former recipient may collect only that part of a delinquent support amount that accrued after termination of public assistance. The recipient, former recipient, or collection agency may not commence or maintain an action against or make an agreement with the obligor to recover an assigned delinquent support amount unless the department, in writing:

(i) releases or relinquishes its assigned interest;

(ii) declares the support debt owed the department to be satisfied, in which case the balance of the delinquent amount is released; or

(iii) consents to the action or agreement.

(b) If a recipient, former recipient, or collection agency collects or receives value for any part of an assigned delinquent support amount and the department has not given its consent or released or relinquished its assigned interest, the recipient, former recipient, or collection agency shall make prompt and full restitution to the department. If prompt and full restitution is not made, the department may send a written demand to the recipient, former recipient, or collection agency, and if prompt and full restitution is not made within 20 days of the date of the written demand, the recipient, former recipient, or collection agency is liable for damages equal to double the amount collected or value received. The amount of damages may be determined and assessed by the department under the contested case provisions of the Montana Administrative Procedure Act. The damages may be collected by the department by any method or remedy available for the enforcement of child support owed by an obligor parent.

(c) This subsection (6) does not limit the right of a person to recover money not assigned. If there are competing proceedings against an obligor for collection of delinquent support, the collection of support assigned to the department takes priority over the obligor's income and assets.

(7) An applicant for or recipient of services may not act to the prejudice of the department's rights while the services are being provided.

(8) Unless the department has consented to the agreement in writing, if public assistance is being or has been paid for a child, an agreement between an obligee and an obligor or a judgment, decree, or order adopting the agreement does not act to reduce or terminate any rights of the department to establish a support order or to recover a support debt from the obligor, even if the agreement, judgment, decree, or order purports to:

(a) relieve or terminate the obligor's support duty;

(b) waive, modify, compromise, or discharge the support debt;

(c) prepay future support obligations or settle past, present, or future support obligations; or

(d) permit the obligor to pay past, present, or future support obligations:

(i) with noncash contributions;

(ii) by the payment of other debts or obligations, such as vehicle, rent, and mortgage payments; or

(iii) by making contributions to a trust or other account or payments toward an asset if the contributed amounts are unavailable to the department.

(9) The department may petition a court or an administrative agency for modification of any order on the same basis as a party to that action is entitled to do.

(10) The department is subrogated to the right of the child or obligee to maintain any civil action or execute any administrative remedy available under the laws of this or any other state to collect a support debt. This right of subrogation is in addition to and independent of the assignment under 42 U.S.C. 602(a)(26) and the support debt created by 40-5-221.

(11) If public assistance is being or has been paid, the department is subrogated to the debt created by a support order and any money judgment is considered to be in favor of the department. This subrogation is an addition to any assignment made under 42 U.S.C. 602(a)(26) and applies to the lesser of:

- (a) the amount of public assistance paid; or
- (b) the amount due under the support order.

(12) The department may adopt and enforce the rules necessary to carry out the provisions of this part.

(13) While providing services under this chapter and in order to carry out the purposes mentioned in this chapter, the department, through its director or the director's authorized representatives, may:

- (a) administer oaths;
- (b) certify official acts and records;
- (c) issue investigative and hearing subpoenas;
- (d) order discovery before and after a hearing;
- (e) hold prehearing and settlement conferences;
- (f) compel the attendance of witnesses and the production of books, accounts, documents, and evidence;
- (g) conduct proceedings supplementary to and in aid of a writ of execution or warrant for distraint, including a hearing on a claim that property is exempt from execution and the examination of an obligor or other person in the manner provided for the taking of a deposition in a civil action; and
- (h) perfect service of investigative and hearing subpoenas by certified mail or in the manner prescribed for service of a summons in a civil action in accordance with the Montana Rules of Civil Procedure.

(14) In addition to any other requirement for service provided by the Montana Rules of Civil Procedure, if a person is required to give notice to, serve, or provide a written response to the department under this chapter, the notice, service, or response must be made to the department's child support enforcement division.

(15) The department may collect any funds received under this chapter, and wrongfully retained, by the obligor through any remedy available for collection of child support.

(16) A hearing on a claim that property is exempt from execution must initially be conducted by teleconference methods and is subject to the Montana Administrative Procedure Act. At the request of a party or upon a showing that a party's case is substantially prejudiced by the lack of an in-person hearing, the hearings officer shall grant a de novo in-person hearing."

Section 3. Section 40-5-203, MCA, is amended to read:

"40-5-203. Child support enforcement services. (1) The department may accept applications for child support enforcement services on behalf of persons who are not recipients of public assistance and may take appropriate action to establish or enforce support obligations against persons owing a duty to pay support.

(2) The department may establish by rule the terms and conditions by which services are provided under this section.

(3) If child support enforcement services are provided under this part to or for a child as a result of the payment of public assistance, the department shall continue to provide services after public assistance is no longer being paid, subject to the same conditions and on the same basis as in the case of other individuals to whom services are furnished under this section, without requiring an application, application fee, or other request for services. Acceptance of continued services constitutes agreement to the terms and conditions set for applicants by the department under this section.

(4) Services under this section, including information requests, are available to ~~obligors, obligees, and residents of other states~~ *nonresidents* on the same terms as residents of this state.

(5) The department may terminate services under this section if it:

(a) receives a written request for termination of services from the person to whom services are being provided;

(b) receives notice that the child is receiving public assistance; or

(c) determines that the person receiving services has violated any term or condition set by the department for an applicant under this section.

(6) For purposes of credit rating reports by the department, the department shall indicate if the withholding is for delinquent support or for regular monthly support obligations."

Section 4. Section 40-5-206, MCA, is amended to read:

"40-5-206. Central unit for information and administration — cooperation enjoined — availability of records. (1) The department shall establish a central unit to serve as a registry for the receipt of information, for answering ~~interstate~~ *IV-D* inquiries concerning deserting parents, for receiving and answering requests for information made by consumer reporting agencies under 40-5-261, to coordinate and supervise departmental activities in relation to deserting parents, and to ensure effective cooperation with law enforcement agencies.

(2) During or in anticipation of a delinquency, enforcement, or modification proceeding, a proceeding to establish child or medical support or paternity, an attempt to locate an obligor, or a contested case, the department or other IV-D agency may request and, notwithstanding any statute making the information confidential, all state, county, and city agencies, officers, and employees shall provide on request information, if known, concerning an obligor or obligee, including:

(a) name;

(b) residential and mailing addresses;

(c) date of birth;

(d) social security number;

(e) wages or other income;

(f) number of dependents claimed for state and federal income tax withholding purposes;

(g) name and address of employer;

(h) state and local tax and revenue records;

(i) penal corrections records;

(j) address, location, and description of any real property or titled personal property; and

(k) any other asset in which the obligor or obligee may have an interest, including its location and the extent, nature, and value of the interest.

(3) Upon service of an administrative subpoena from the department or another IV-D agency during or in anticipation of a delinquency, enforcement, or modification proceeding, a proceeding to establish child or medical support or paternity, an attempt to locate an obligor, or a contested case, public utilities, cable television companies, and financial institutions shall, with regard to an obligor or obligee, provide the department or the requesting IV-D agency with the name and address of the obligor or obligee, the name and address of the obligor's or obligee's employer, and any information on the obligor's or obligee's assets and liabilities contained in customer records.

(4) Any information obtained by the department during the course of a child support investigation that is confidential at the source must be treated by the department as confidential and must be safeguarded accordingly. Absent a specific statutory prohibition to the contrary and subject to subsection (6), the department may release information obtained from nonconfidential public and private sources, including information regarding support orders, judgments, and payment records.

(5) Absent a specific statutory prohibition or rule to the contrary and subject to subsection (6), use or disclosure of information obtained by the department from confidential sources or any information maintained by the department in its records, including the names, addresses, and social security numbers of obligors and obligees, is limited to:

(a) purposes directly related to the provision of services under this chapter;

(b) ~~county government~~ attorneys and courts having jurisdiction in support and abandonment proceedings and IV-D agencies in other states engaged in the enforcement of support of minor children under the federal Social Security Act; and

(c) any other use permitted or required by the federal Social Security Act.

(6) The department may not disclose information regarding the whereabouts of a party to another party if:

(a) the department received notice that a protective order with respect to the party has been entered against the other party; or

(b) the department has reason to believe that the release of information may result in physical or emotional harm to the party.

(7) A person or private entity that discloses information to the department in compliance with this section is not liable to the obligor or obligee for negligent disclosure.

(8) An entity failing to comply with this section is subject to the contempt authority of the department under 40-5-226."

Section 5. Section 40-5-226, MCA, is amended to read:

"40-5-226. Administrative hearing — nature — place — time — determinations — failure to appear — entry of final decision and order. (1) The administrative hearing is defined as a "contested case".

(2) If a hearing is requested, it must initially be conducted by teleconference methods and is subject to the Montana Administrative Procedure Act. At the

request of a party or upon a showing that the party's case was substantially prejudiced by the lack of an in-person hearing, the hearings officer shall grant a de novo in-person hearing.

(3) The hearings officer shall determine the liability and responsibility, if any, of the parent or parents under the notice and shall enter a final decision and order in accordance with the determination. The order may award support from the date of:

(a) the child's birth if paternity was established under 40-5-231 through 40-5-238 or under Title 40, chapter 6, part 1, subject to the limitation in 40-6-108(3)(b);

(b) the parties' separation if support is initially established under 40-5-225; or

(c) notice to the parties of a support modification request under 40-5-273.

(4) (a) Except as provided in subsection (4)(b), if the parent or parents fail to appear at the hearing or to timely file a request for a hearing, the hearings officer, upon a showing of valid service, shall enter a default decision and order declaring the amount stated in the notice to be final.

(b) In a multiple party proceeding under 40-5-225, if one party files a timely request for hearing, the matter must be set for hearing. Notice of the hearing must be served on the parties. If a party refuses to appear for the hearing or participate in the proceedings, the hearings officer shall determine child support and medical support orders based on the notice, information available to the department, and evidence provided at the hearing by the appearing parties. A party's refusal to appear is a consent to entry of child and medical support orders consistent with the hearings officer's determination. However, the default order may not be for more than the support requested in the notice unless the hearings officer finds that the evidence requires a larger amount.

(5) In a hearing to determine financial responsibility, whether temporary or final, and in any proceeding to modify support under 40-5-272, 40-5-273, and 40-5-276 through 40-5-278, the monthly support responsibility must be determined in accordance with the evidence presented and with reference to the uniform child support guidelines adopted by the department under 40-5-209. The hearings officer is not limited to the amounts stated in the notice. The guidelines must be used in all cases, including cases in which the order is entered upon the default of a party and those in which the order is entered upon the parties' consent. A verified representation of a defaulting parent's income, based on the best information available, may be used when a parent fails to provide financial information for use in applying the guidelines. The amount determined under the guidelines is presumed to be an adequate and reasonable support award, unless the hearings officer finds by clear and convincing evidence that the application of the guidelines is unjust to the child or to any of the parties or is inappropriate in a particular case. If the hearings officer finds that the guideline amount is unjust or inappropriate in a particular case, the hearings officer shall state the reasons for finding that the application of the guidelines is unjust to the child or a party or is inappropriate in that particular case. Similar findings must also be made in a case in which the parties have agreed to a support amount that varies from the guideline amount. The hearings officer may vary the application of the guidelines to limit the obligor's liability for past support to the proportion of expenses already incurred that the hearings officer considers just. Findings that rebut and vary the guideline

amount must include a statement of the amount of support that would have ordinarily been ordered under the guidelines.

(6) In a hearing to enforce a support order or to establish paternity under this chapter, the department shall send a copy of the notice of hearing to the obligee by regular mail addressed to the obligee's last-known address. The obligee may attend and observe the hearing as a nonparty. This subsection does not limit participation of an obligee who is a party to the proceedings or who is called as a witness to testify.

(7) (a) Within 60 days after the hearing has been concluded, any posthearing briefs are received, and all the evidence submitted, except for good cause, the hearings officer shall enter a final decision and order. The determination of the hearings officer constitutes a final agency decision, subject to judicial review under 40-5-253 and the provisions of the Montana Administrative Procedure Act. A copy of the final decision must be delivered or mailed to each party, each party's attorney, and the obligee if the obligee is not a party.

(b) A child support obligation established under this section is subject to the registration and processing provisions of part 9 of this chapter.

(8) A support order entered under this part must contain a statement that the order is subject to review and modification by the department upon the request of the department or a party under 40-5-272, 40-5-273, and 40-5-276 through 40-5-278 when the department is providing services under IV-D for the enforcement of the order.

(9) A support debt determined pursuant to this section is subject to collection action without further necessity of action by the hearings officer.

(10) A child support obligation determined under this part by reason of the obligor's failure to request a hearing under this part or failure to appear at a scheduled hearing may be vacated, upon the motion of an obligor, by the hearings officer within the time provided and upon a showing of any of the grounds enumerated in the Montana Rules of Civil Procedure. When issuing a support order, the department shall consider whether any of the exceptions to immediate income withholding found in 40-5-411 apply, and, if an exception is applicable, the department shall include the exception in the support order.

(11) (a) Unless the hearings officer makes a written exception under 40-5-315 or 40-5-411 and the exception is included in the support order, each order establishing a child support obligation, whether temporary or final, and each modification of an existing child support order under this part is enforceable by immediate or delinquency income withholding, or both, under Title 40, chapter 5, part 4. A support order that omits that provision or that provides for a payment arrangement inconsistent with this section is nevertheless subject to withholding for the payment of support without need for an amendment of the support order or for any further action by the hearings officer.

(b) If an obligor is excepted from paying support through income withholding, the support order must include a requirement that whenever a party to the case is receiving IV-D services, support payments must be paid through the department as provided in 40-5-909.

(12) (a) If the department establishes paternity or establishes or modifies a child support obligation, the department's order must include a provision requiring each party other than the department to promptly file with the department and to update, as necessary, information on:

- (i) identity of the party;
- [(ii) social security number;]
- (iii) residential and mailing addresses;
- (iv) telephone number;
- (v) driver's license number;
- (vi) name, address, and telephone number of employer; and

(vii) if the child is covered by a health or medical insurance plan, the name of the insurance carrier or health benefit plan, the policy identification number, the name of the persons covered, and any other pertinent information regarding coverage or, if the child is not covered, information as to the availability of coverage for the child through the obligor's and obligee's employer.

(b) The order must further direct that in a subsequent child support enforcement action, upon sufficient showing that diligent effort has been made to ascertain the location of the party, the department's due process requirements for notice and service of process are met with respect to the party upon delivery of written notice by regular mail to the most recent address of the party or the party's employer's address reported to the department.

(c) The department shall keep the information provided under subsection (12)(a) confidential except as necessary for purposes of Title IV-D of the Social Security Act.

(13) The hearings officer may:

(a) compel obedience to the hearings officer's orders, judgments, and process and to subpoenas and orders issued by the department, including income-withholding orders issued pursuant to 40-5-415;

(b) compel the attendance of witnesses at administrative hearings;

(c) compel obedience of subpoenas for paternity blood tests;

(d) compel the production of accounts, books, documents, and other evidence;

(e) punish for civil contempt. Contempt authority does not prevent the department from proceeding in accordance with the provisions of 2-4-104.

(f) compel the production of information requested by the department or ~~another IV-D agency of another state~~ under 40-5-443.

(14) A contempt occurs whenever:

(a) a person acts in disobedience of any lawful order, judgment, or process of the hearings officer or of the department;

(b) a person compelled by subpoena to appear and testify at an administrative hearing or to appear for genetic paternity tests fails to do so;

(c) a person compelled by subpoena duces tecum to produce evidence at an administrative hearing fails to do so;

(d) an obligor or obligee subject to a discovery order issued by the hearings officer fails to comply with discovery requests;

(e) a person or entity compelled by administrative subpoena from the department or another IV-D agency to produce financial information or other information needed to establish paternity or to establish, modify, or enforce a support order fails to do so;

(f) a payor under an order to withhold issued pursuant to 40-5-415 fails to comply with the provisions of the order. In the case of a payor under an income-withholding order, a separate contempt occurs each time that income is required to be withheld and paid to the department and the payor fails to take the required action.

(g) a payor or labor union fails to provide information to the department or another IV-D agency when requested under 40-5-443[; or]

[(h) a financial institution uses information provided by the department pursuant to 40-5-924 for any other purpose without the authorization of the department].

(15) Before initiating a contempt proceeding, the department shall give the alleged contemnor notice by personal service or certified mail of the alleged infraction and a reasonable opportunity to comply with the law and to cure the alleged infraction. In order to initiate a contempt proceeding, an affidavit of the facts constituting a contempt must be submitted to the hearings officer, who shall review it to determine whether there is cause to believe that a contempt has been committed. If cause is found, the hearings officer shall issue a citation requiring the alleged contemnor to appear and show cause why the alleged contemnor should not be determined to be in contempt and required to pay a penalty of not more than \$500 for each count of contempt. The citation, along with a copy of the affidavit, must be served upon the alleged contemnor either by personal service or by certified mail. All other interested persons may be served a copy of the citation by first-class mail.

(16) At the time and date set for hearing, the hearings officer shall proceed to hear witnesses and take evidence regarding the alleged contempt and any defenses to the contempt. If the alleged contemnor fails to appear for the hearing, the hearing may proceed in the alleged contemnor's absence. If the hearings officer finds the alleged contemnor in contempt, the hearings officer may impose a penalty of not more than \$500 for each count found. The hearings officer's decision constitutes a final agency decision, subject to judicial review under 40-5-253 and subject to the provisions of Title 2, chapter 4.

(17) An amount imposed as a penalty may be collected by any remedy available to the department for the enforcement of child support obligations, including warrant for distraint pursuant to 40-5-247, income withholding pursuant to Title 40, chapter 5, part 4, and state debt offset, pursuant to Title 17, chapter 4, part 1. The department may retain any penalties collected under this section to offset the costs of administrative hearings conducted under this chapter.

(18) The penalties charged and collected under this section must be paid into the state treasury to the credit of the child support enforcement division special revenue fund and must be accompanied by a detailed statement of the amounts collected. (Bracketed language terminates on occurrence of contingency—sec. 1, Ch. 27, L. 1999.)”

Section 6. Section 40-5-263, MCA, is amended to read:

“40-5-263. Central clearinghouse — interstate enforcement services — powers and duties of the department. (1) The department shall establish a clearinghouse for the registration of all ~~interstate~~ IV-D cases referred to the department ~~by other states~~. The clearinghouse shall serve as the central point for the receipt and dissemination of information regarding ~~interstate~~ IV-D enforcement requests, including but not limited to:

(a) petitions under the Revised Uniform Reciprocal Enforcement of Support Act, Uniform Reciprocal Enforcement of Support Act, ~~or the Uniform Interstate Family Support Act, or Title IV-D of the Social Security Act~~; and

(b) wage withholding requests under part 4 of this chapter.

(2) (a) A case must be referred to the clearinghouse to be processed as a IV-D case and receive the benefits of IV-D status and clearinghouse services.

(b) The clearinghouse may accept any ~~interstate~~ IV-D referral made by ~~interstate~~ application or by petition under the Revised Uniform Reciprocal Enforcement of Support Act, ~~or the Uniform Interstate Family Support Act, or Title IV-D of the Social Security Act~~. An application must be made on forms prescribed by the department.

(3) Upon certification by the initiating ~~state agency in another state, an Indian tribe, or a country~~ that a case filed in the registry of foreign support orders, including a petition under the Uniform Reciprocal Enforcement of Support Act, the Revised Uniform Reciprocal Enforcement of Support Act, or the Uniform Interstate Family Support Act, is eligible for IV-D services and that the obligor resides, has property, or derives income in this state, the department may:

(a) proceed under Title 40, chapter 5, part 1; or

(b) pursue any other remedy available to it to establish or enforce a support order.

(4) If necessary, the department shall establish the paternity of the child.

(5) The clearinghouse shall:

(a) review and acknowledge receipt of any ~~interstate~~ IV-D referral;

(b) request missing information from the initiating ~~state agency in another state, an Indian tribe, or a country~~;

(c) determine appropriate enforcement remedies and forward the referral to the appropriate enforcement unit;

(d) provide status updates to the initiating ~~state agency in another state, an Indian tribe, or a country~~, including the location of the responsible enforcement unit;

(e) locate an obligor and the obligor's assets, if necessary; and

(f) initiate a IV-D referral if services are provided by the department ~~to a resident of this state~~ and the obligor ~~resides or the obligor's income or assets reside~~ outside the state.

(6) If the department is providing support enforcement services ~~to a resident of this state~~, the director or the director's designee may certify any ~~interstate~~ petition, application, and referral, including a petition under part 1 of this chapter.

(7) A lien created by operation of law or issued by order of a court or ~~another IV-D agency in another state~~ entity to enforce a support order may, at the request of the other IV-D agency, be registered with the department. Upon registration, the lien applies to any of the obligor's real and personal property located in this state with the same force and effect as a lien established under 40-5-248. At the request of the other IV-D agency, a registered lien may be enforced by the department using any remedy available to enforce a support lien under 40-5-248."

Section 7. Section 40-5-271, MCA, is amended to read:

“40-5-271. Registration of support orders. (1) The department may, for the purpose of review and modification proceedings under 40-5-272 and 40-5-273, register support orders issued by a district court of this state or by a court or administrative agency of another state, *an Indian tribe, or a country*. Registration of the order under this section does not confer jurisdiction for any purpose other than for the review and modification process.

(2) When the department conducts review and modification proceedings, the department shall give the parties notice by personal service or certified mail and opportunity to contest registration of the order. A party seeking to vacate the registered order has the burden of proving that the court or agency issuing the order:

- (a) did not have jurisdiction to enter the order;
- (b) did not have personal jurisdiction over the party; or
- (c) did not give the party reasonable notice and opportunity to be heard before the order was entered.

(3) (a) As an alternative to any other registration process or remedy available for the enforcement of a support order issued by a court or agency in another state, *an Indian tribe, or a country*, the department may register the support order under this subsection (3).

(b) Registration under this subsection (3) is only for the purpose of enforcement and does not confer jurisdiction for any other purpose such as visitation, custody, or paternity disputes.

(c) If an order is registered for enforcement under this subsection (3), the department shall notify the parties to the order of the registration. A copy of the registered order must be included with the notice. The notice must inform the parties:

- (i) of the amount of any alleged arrearage as of the date of the notice;
- (ii) that a party may request a hearing to vacate the registration or to assert defense to any alleged arrearage for any reason set out in subsection (3)(e);
- (iii) that a hearing to contest the validity or enforcement of the order must be requested within 20 days after service of the notice; and
- (iv) that failure to contest the validity or enforcement of the registered order in a timely manner will result in confirmation of the order and enforcement of the order and the alleged arrearage and will preclude further contest of the order with respect to any matter that could have been asserted at the hearing.

(d) A party seeking to contest the validity or enforcement of a registered order shall request a hearing within 20 days after service of the notice of registration. If a party fails to contest the validity or enforcement of the registered order in a timely manner, the order is confirmed by operation of law. If a party timely requests a hearing to contest the validity or enforcement of the order, the department shall schedule the matter for hearing.

(e) A party contesting the validity or enforcement of a registered order or seeking to vacate the registration has the burden of proving one or more of the following defenses:

- (i) the court or agency issuing the order did not have subject matter jurisdiction to enter the order or lacked personal jurisdiction over the contesting party;

(ii) the court or agency issuing the order did not give the party reasonable notice and opportunity to be heard before the order was entered;

(iii) the order was obtained by fraud;

(iv) the issuing court or agency has stayed enforcement of the order pending appeal;

(v) the order has been vacated, suspended, or modified by a later order;

(vi) there is a defense under the law of this state to the remedy sought; or

(vii) the statute of limitations precludes enforcement of some or all of the arrearages.

(f) If the contesting party does not establish a defense under subsection (3)(e) to the validity or enforcement of the order, the department shall issue an order confirming the order. Confirmation of a registered order, whether by operation of law or after notice and hearing, precludes further contest of the order with respect to any matter that could have been asserted at the time of the registration. A confirmed order is enforceable as of the date of confirmation in the same manner as an order issued by the department or a district court of this state.

(g) In a proceeding for arrears, the statute of limitations under the laws of this state or of the issuing ~~state~~ *jurisdiction*, whichever is longer, applies.

(h) Hearings under this subsection (3) are subject to the provisions of the Montana Administrative Procedure Act and must initially be conducted by teleconferencing methods. At the request of a party, the hearings officer shall, at the close of a teleconference hearing, grant a de novo in-person hearing."

Section 8. Section 40-5-403, MCA, is amended to read:

"40-5-403. Definitions. As used in this part, the following definitions apply:

(1) "Alternative arrangement" means a written agreement between the obligor and obligee, and the department in the case of an assignment of rights under 53-2-613, that has been approved and entered in the record of the court or administrative authority issuing or modifying the support order.

(2) "Department" means the department of public health and human services provided for in 2-15-2201.

(3) "Employer" includes a payor.

(4) "Income" means any form of periodic payment to a person, regardless of source, including commissions, bonuses, workers' compensation, disability payments, payments under a pension or retirement program, interest, and earnings and wages. However, income does not include:

(a) any amount required by law to be withheld, other than creditor claims, including federal, state, and local taxes and social security; and

(b) any amounts exempted from judgment, execution, or attachment by federal or state law.

(5) "Obligee" means either a person to whom a duty of support is owed or a public agency of this or another state *or an Indian tribe* to which a person has assigned the right to receive current and accrued support payments.

(6) "Obligor" means a person who owes a duty to make payments under a support order.

(7) "Payor" means any payor of income to an obligor on a periodic basis and includes any person, firm, corporation, association, employer, trustee, political subdivision, state agency, or any agent thereof who is subject to the jurisdiction of the courts of this state under Rule 4B of the Montana Rules of Civil Procedure or any employer under the Uniform Interstate Family Support Act contained in part 1 of this chapter.

(8) "Support order" has the meaning provided in 40-5-201.

(9) *"IV-D agency" or "Title IV-D agency" means the agency responsible for the provision of services under Title IV-D of the Social Security Act, 42 U.S.C. 651, et seq."*

Section 9. Section 40-5-431, MCA, is amended to read:

"40-5-431. Registration of interstate income withholding orders. (1) Whenever an obligor, whether or not the obligor resides in this state, derives income within this state and an order for income withholding of the obligor's income has been issued by ~~a public~~ *another IV-D agency of another state* as a means to enforce support orders under Title IV-D of the Social Security Act, that agency may register the income withholding order with the department. Upon registration of the ~~foreign~~ withholding order *issued by an entity other than the department*, it must be treated in the same manner and have the same effect as an income withholding order issued by the department. The provisions of 40-5-188 through 40-5-191 apply to this section to the extent that they are consistent with this section.

(2) The application for registration of ~~a foreign~~ *an order issued by an entity other than the department* for income withholding must include:

- (a) a certified copy of the support order, with all modifications of the order;
- (b) a certified copy of the income withholding order;
- (c) a sworn statement of the facts entitling the agency to issue an income withholding order, including a statement of the amount of arrearages and a statement that all procedural due process requirements of the ~~foreign~~ *other* jurisdiction for issuance of the income withholding order have been carried out in full;
- (d) the name, address, and social security number of the obligor;
- (e) the name and address of the obligor's employer or of any other payor of income to the obligor if the order for income withholding of the ~~foreign~~ *other* jurisdiction extends to other income; and
- (f) the name and address of the agency or person to whom support payments collected by the department under income withholding procedures should be transmitted.

(3) When the ~~foreign~~ income withholding order *issued by an entity other than the department* is registered, the department shall serve the order upon the payor, with directions to the payor to comply with the order and to deliver the withheld amounts to the department. Registration of ~~a foreign~~ *an income-withholding order issued by an entity other than the department* under this section does not confer jurisdiction for any other purpose, such as modification of the support order, custody, or visitation."

Section 10. Section 40-5-432, MCA, is amended to read:

"40-5-432. Application for interstate withholding. (1) Whenever an obligor resides in this state and derives income within this state and a support

order issued in another jurisdiction is being enforced by a public agency of that jurisdiction pursuant to Title IV-D of the Social Security Act, that agency may apply to the department for income withholding services.

(2) The application for ~~interstate~~ income withholding must include:

(a) a certified copy of the support order, with all ~~modification thereof~~ *modifications of the support order*;

(b) an affidavit by the obligee containing a statement that the obligor is delinquent in the payment of support in an amount equal to at least 1 month's support payment and a computation of the period and total amount of the arrearage as of the date of the application;

(c) a certified copy of the payment record if ~~such~~ *the* records are maintained by the agency or any other agency within that jurisdiction;

(d) the name, address, and social security number of the obligor;

(e) the name and address of all known payors within this state; and

(f) the name and address of the agency or person to whom support payments collected by the department under income withholding procedures should be sent.

(3) Upon receipt of the application, the department shall ~~commence~~ *begin* procedures to establish orders for income withholding, including notice and opportunity for hearing under this part. The department shall further advise the obligor that the income withholding was requested on the basis of an application from another jurisdiction.

(4) In any hearing based on an application under this section, the certified copy of the support order and affidavit, without further proof or foundation, constitutes prima facie evidence that the support order is valid and that the obligee or public agency is entitled to an order of income withholding and that the amount of current support payments and arrearages are as stated.

(5) In accordance with 40-5-414, a final decision on whether or not income withholding is appropriate must be rendered within 45 days of service of notice on the obligor. If, however, because of the ~~interstate~~ *interjurisdictional* aspects of the case, the hearing examiner is unable to resolve a dispute over the amount of arrearages within ~~such~~ *the* time *limit* and the hearing examiner has found that the obligor is delinquent in an amount equal to at least 1 month's support payment, the hearing examiner shall authorize immediate service of the order for withholding as to current support and may continue the hearing on the disputed amounts beyond the 45-day limit."

Section 11. Section 40-5-433, MCA, is amended to read:

"40-5-433. Additional duties of department in interstate income withholding. Whenever the department is authorized or required under the laws of this state to enforce and collect on a support order and the obligor is employed or has a source of income ~~in another~~ *outside of the* state, the department shall request the *Title IV-D* agency responsible for income withholding in that ~~state~~ *jurisdiction* to implement income withholding procedures. The department shall compile and transmit to the withholding agency of the other ~~state~~ *jurisdiction* all documentation required by the law of that ~~state~~ *jurisdiction* necessary for the purpose of obtaining an income withholding order in that ~~state~~ *jurisdiction*. The department shall also transmit to the withholding agency a certified copy of any subsequent modification of the support order.”

Section 13. Section 40-5-601, MCA, is amended to read:

“40-5-601. Failure to pay support — civil contempt. (1) For purposes of this section, “support” means child support; spousal support; health insurance, medical, dental, and optical payments; day care expenses; and any other payments due as support under a court or administrative order. Submission of health insurance claims is a support obligation if health insurance coverage is ordered.

(2) If a person obligated to provide support fails to pay as ordered, the payee or assignee of the payee of the support order may petition a district court to find the obligated person in contempt.

(3) The petition may be filed in the district court:

- (a) that issued the support order;
- (b) of the judicial district in which the obligated person resides; or
- (c) of the judicial district in which the payee or assignee of the payee resides or has an office.

(4) Upon filing of a verified petition alleging facts constituting contempt of the support order, the district court shall issue an order requiring the obligated person to appear and show cause why the obligated person should not be held in contempt and punished under this section.

(5) The obligated person is presumed to be in contempt upon a showing that:

- (a) there is a support order issued by a court or administrative agency of this or another state, *an Indian tribe, or a country* with jurisdiction to enter the order;
- (b) the obligated person had actual or constructive knowledge of the order; and
- (c) the obligated person failed to pay support as ordered.

(6) Certified payment records maintained by a clerk of court or administrative agency authorized by law or by the support order to collect support are admissible in a proceeding under this section and are prima facie evidence of the amount of support paid and any arrearages under the support order.

(7) Following a showing under subsection (5), the obligated person may move to be excused from the contempt by showing clear and convincing evidence that the obligated person:

- (a) has insufficient income to pay the arrearages;

(b) lacks personal or real property that can be sold, mortgaged, or pledged to raise the needed sum;

(c) has unsuccessfully attempted to borrow the sum from a financial institution;

(d) has no other source, including relatives, from which the sum can be borrowed or secured;

(e) does not have a valid out-of-court agreement with the payee waiving, deferring, or otherwise compromising the support obligation; or

(f) cannot, for some other reason, reasonably comply with the order.

(8) In addition to the requirement of subsection (7), the obligated person shall also show by clear and convincing evidence that factors constituting the excuse were not occasioned or caused by the obligated person voluntarily:

(a) remaining unemployed or underemployed when there is employment suitable to the obligated person's skills and abilities available within a reasonable distance from the obligated person's residence;

(b) selling, transferring, or encumbering real or personal property for fictitious or inadequate consideration within 6 months prior to a failure to pay support when due;

(c) selling or transferring real property without delivery of possession within 6 months prior to a failure to pay support when due or, if the sale or transfer includes a reservation of a trust for the use of the obligated person, purchasing real or personal property in the name of another person or entity;

(d) continuing to engage in an unprofitable business or contract unless the obligated person cannot reasonably be removed from the unprofitable situation; or

(e) incurring debts subsequent to entry of the support order that impair the obligated person's ability to pay support.

(9) If the obligated person is not excused under subsections (7) and (8), the district court shall find the obligated person in contempt of the support order. For each failure to pay support under the order, the district court shall order punishment as follows:

(a) not more than 5 days incarceration in the county jail;

(b) not more than 120 hours of community service work;

(c) not more than a \$500 fine; or

(d) any combination of the penalties in subsections (9)(a) through (9)(c).

(10) An order under subsection (9) must include a provision allowing the obligated person to purge the contempt. The obligated person may purge the contempt by complying with an order requiring the obligated person to:

(a) seek employment and periodically report to the district court all efforts to find employment;

(b) meet a repayment schedule;

(c) compensate the payee for the payee's attorney fees, costs, and expenses for a proceeding under this section;

(d) sell or transfer real or personal property or transfer real or personal property to the payee, even if the property is exempt from execution;

(e) borrow the arrearage amount or report to the district court all efforts to borrow the sum;

(f) meet any combination of the conditions in subsections (10)(a) through (10)(e); or

(g) meet any other conditions that the district court in its discretion finds reasonable.

(11) If the obligated person fails to comply with conditions for purging contempt, the district court shall immediately find the obligated person in contempt under this section and impose punishment.

(12) A proceeding under this section must be brought within 3 years of the date of the last failure to comply with the support order.”

(2) The case registry must include a database of information concerning child support orders, all cases receiving IV-D services, and all district court and administrative cases with support orders entered or modified after October 1, 1998.

(3) The case registry must use automated systems to obtain information from federal, state, and local databases with regard to the location of obligors and their income and assets. This information must be shared with the courts of this state and, upon request, may be shared with ~~child support enforcement agencies of this and other states~~ *other IV-D agencies* for the purpose of establishing paternity and establishing and enforcing child support obligations.

(4) To assist creditors, credit managers, and others who need timely verification of the existence of child support liens in IV-D cases, the case registry must include a directory of liens, which must include liens against an obligor's real and personal property filed by the department with other agencies and lien registries. Information in the lien registry may be made available through automated systems, which may include voice response units.

(5) Each IV-D case with a child support order must be electronically monitored so that when a timely payment of support is not made, enforcement action may be taken. To accomplish this purpose, payments due under a child support order must be paid to the department for processing and disbursement.

(6) In either a IV-D income-withholding case in this state or a state non IV-D case, if immediate income withholding is authorized after January 1, 1994, an employer or other payor of income shall pay all support withheld from an obligor's income to one centralized location as specified by the department.

(b) minimizes the costs to the department and any employer or employee with respect to obtaining and submitting any requested information; and

(c) maximizes the confidentiality and security of any employer or employee information that the department gathers under 19-2-909, 19-20-306, 40-5-157, 40-5-291, and this part. (Bracketed language terminates on occurrence of contingency—sec. 1, Ch. 27, L. 1999.)”

Section 17. Section 40-5-909, MCA, is amended to read:

“40-5-909. Centralized payment center — mandatory payments to center. (1) Payments due under a support order must be paid through the

department for processing and distribution to the person or agency entitled to receive the payment whenever:

- (a) the case is receiving IV-D services; or
- (b) the support obligation is payable through non IV-D income withholding.

(2) A support order entered or modified in this state after October 1, 1998, that excludes the obligor from paying support through income withholding must provide that:

(a) if the case is or later becomes a IV-D case or if support becomes payable through IV-D or non IV-D income withholding, support payments must be paid through the department; and

(b) a payment that is not made to the department does not constitute payment of support or credit toward satisfaction of the support obligation unless the payment is verified by the department to its satisfaction.

(3) (a) If a support order does not include the provisions required by subsection (2) or directs payment of support to a payee other than the department, the department may give written notice to the obligor and obligee directing or redirecting payments to the department. After receipt of the notice, payment other than as directed does not constitute payment of support or credit toward satisfaction of the support obligation.

(b) An obligor who redirects payments to the department is not liable to the obligee or answerable to the court for not making payments as directed by the court.

(c) While support is required to be paid through the department, the notice directing or redirecting payments to the department may not be superseded by any subsequent order of a court or agency directing the obligor to make payments other than to the department.

(4) After the obligor has been ordered or directed to make payments to the department under this section, the obligor shall make the payments to the department and is not entitled to credit against a support obligation for payment made to a person or agency other than the department.

(5) (a) When the obligor is paying support through IV-D or non IV-D income withholding, the income-withholding order must direct the payor to make the payments through the department.

(b) If a payor is directed by the income-withholding order to make payments to a payee other than the department, the department may redirect the payments to the department by written order to the employer or payor. The order supersedes any prior, inconsistent court or agency order.

(c) For as long as income withholding is appropriate to the case, the directive to the payor to make payments to the department may not be superseded by any subsequent order of a court or agency directing payments to any other payee.

(6) (a) An employer who receives an income-withholding order issued in another state, as defined in 40-5-103, may contact the department to determine whether the withholding order was issued by the appropriate authority.

(b) The employer may elect to forward the funds to the department for distribution.

(c) If the employer elects under this section to forward the funds to the department for distribution, the employer shall immediately provide a copy of the income-withholding order to the department.

(7) Income-withholding orders may be issued in this state pursuant only to 40-5-308 through 40-5-315 and 40-5-401 through 40-5-432.

(8) Payments of support that are received by the department in interstate cases or as the result of a writ of execution, warrant for distraint, state and federal tax offset, or similar enforcement remedy must be processed through the case registry and payment processing unit.

(9) (a) If, through a private collection action, an obligee obtains a payment of support that must be processed and distributed through the case registry and payment processing unit, the obligee shall forward the payment to the department within 5 working days of the receipt of the payment.

(b) If the department takes an enforcement action against the obligor because the obligee failed to timely forward a payment of support under subsection (9)(a), the obligee is liable in a civil action to the obligor for the amount that should have been forwarded to the department.

(10) (a) Payments made to the department under this section must be by cash, personal or business check, money order, automatic bank account withdrawal, certified funds, electronic funds transfer services, or any other means acceptable to the department.

(b) Payments may not be credited to the obligor's child support obligation until actually received by the department.

(c) The withholding of income by a payor or employer under an order to withhold issued under Title 40, chapter 5, part 3 or 4, is not alone sufficient for credit against an obligor's support obligation. Payments withheld from an obligor's income that are not actually received by the department may not be credited to the obligor's child support obligation. The payor or employer is liable to the obligor in a civil action initiated by the obligor for the amount withheld but not paid to the department.

(d) A check presented to the department as payment, whether by the obligor, the obligor's employer, or another payor on the obligor's behalf, that is dishonored by the issuing bank may not be credited to the obligor's child support obligation.

(e) A payment made out to or delivered to any other person or agency other than to the department may not be credited to the obligor's support obligation.

(11) An uncredited payment under this section is considered as still owed by the obligor and may be collected using any remedy available under law.

(12) *If the department is providing IV-D services for the enforcement of a tribal court order that expressly permits satisfaction of a child support obligation with noncash resources, this section applies to the portion of the support obligation paid or payable with cash resources."*

Section 18. Section 40-5-923, MCA, is amended to read:

"40-5-923. Information and records — disclosure. Be it enacted by the Legislature of the State of Montana:

Section 1. Section 17-6-317, MCA, is amended to read:

"17-6-317. Participation by private financial institutions — rulemaking. (1) (a) The board may jointly participate with private financial institutions in making loans to a business enterprise if the loan will:

(i) result in the creation of a business estimated to employ at least 10 people in Montana on a permanent, full-time basis;

(ii) result in the expansion of a business estimated to employ at least an additional 10 people in Montana on a permanent, full-time basis; or

(iii) prevent the elimination of the jobs of at least 10 Montana residents who are permanent, full-time employees of the business.

(b) Loans under this section may be made only to business enterprises that are producing or will produce value-added products or commodities.

(c) A loan made pursuant to this section does not qualify for a job credit interest rate reduction under 17-6-318.

(2) A loan made pursuant to this section may not exceed 1% of the coal severance tax permanent fund and must comply with each of the following requirements:

(a) (i) The business enterprise seeking a loan must have a cash equity position equal to at least 25% of the total loan amount.

(ii) A participating private financial institution may not require the business to have an equity position greater than 50% of the total loan amount.

(iii) If additional security or guarantees, exclusive of federal guarantees, are required to cover a participating private financial institution, then the additional security or guarantees must be proportional to the amount loaned by all participants, including the board of investments.

(b) The board shall provide 75% of the total loan amount.

(c) The term of the loan may not exceed 15 years.

(d) The board shall charge interest at the following annual rate:

(i) 2% for the first 5 years if 15 or more jobs are created or retained;

(ii) 4% for the first 5 years if 10 to 14 jobs are created or retained;

(iii) 6% for the second 5 years; and

(iv) the board's posted interest rate for the third 5 years, but not to exceed 10% a year.

(e) (i) The interest rates in subsections (2)(d)(i) and (2)(d)(ii) become effective when the board receives certification that the required number of jobs has been created or as provided in subsection (2)(e)(ii). If the board disburses loan proceeds prior to creation of the required jobs, the loan must bear interest at the board's posted rate.

(ii) In establishing interest rates under subsections (2)(d)(i) and (2)(d)(ii) for preventing the elimination of jobs, the board shall require the submission of financial data that allows the board to determine if the loan and interest rate will in fact prevent the elimination of jobs.

(f) If a business entitled to the interest rate in subsection (2)(d)(i) or (2)(d)(ii) reduces the number of required jobs, the board may apply a graduated scale to increase the interest rate, not to exceed the board's posted rate.

(g) For purposes of calculating job creation or retention requirements, the board shall use the *state's* average weekly ~~salary~~ *wage*, as defined in 39-71-116, multiplied by the number of jobs required. This calculated number is the minimum aggregate salary threshold that is required to be eligible for a reduced interest rate. If individual jobs created pay less than the *state's* average weekly ~~salary~~ *wage*, the borrower shall create more jobs to meet the minimum aggregate salary threshold. If fewer jobs are created or retained than required in subsection (2)(d)(i) or (2)(d)(ii) but aggregate salaries meet the minimum aggregate salary threshold, the borrower is eligible for the reduced interest rate. A job paying less than the minimum wage, provided for in 39-3-409, may not be included in the required number of jobs.

(h) (i) A participating private financial institution may charge interest in an amount equal to the national prime interest rate, adjusted on January 1 of each year, but the interest rate may not be less than 6% or greater than 12%.

(ii) At the borrower's discretion, the borrower may request the lead lender to change this prime rate to an adjustable or fixed rate on terms acceptable to the borrower and lender.

(iii) A participating private financial institution, or lead private financial institution if more than one is participating, may charge a 0.5% annual service fee.

(i) The business enterprise may not be charged a loan prepayment penalty.

(j) The loan agreement must contain provisions providing for pro rata lien priority and pro rata liquidation provisions based upon the loan percentage of the board and each participating private lender.

(3) If a portion of a loan made pursuant to this section is for construction, disbursement of that portion of the loan must be made based upon the percentage of completion to ensure that the construction portion of the loan is advanced prior to completion of the project.

(4) A private financial institution shall participate in a loan made pursuant to this section to the extent of 85% of its lending limit or 25% of the loan, whichever is less. However, the board's participation in the loan must be 75% of the loan amount.

(5) A business enterprise receiving a loan under the provisions of this section may not pay bonuses or dividends to investors until the loan has been paid off,

except that incentives may be paid to employees for achieving performance standards or goals.

(6) The board may adopt rules that it considers necessary to implement this section.”

Section 2. Section 17-6-318, MCA, is amended to read:

“17-6-318. Job credit interest rate reduction for business loan participation. (1) A borrower who uses the proceeds of a business loan participation funded under the provisions of this part to create jobs employing Montana residents is entitled to a job credit interest rate reduction for each job created to employ a Montana resident. A borrower who uses the proceeds of a loan made pursuant to 17-6-309(2) to create jobs is entitled to a job credit interest rate reduction for each job created. The job credit interest rate reduction is equal to 0.05% for each job created to employ a Montana resident, up to a maximum interest rate reduction of 2.5%.

(2) If the salary or wage of the job created:

(a) exceeds the *state’s* average weekly wage, as defined in 39-71-116, the amount of the job credit interest rate reduction may be increased proportionately for each increment of 25% above the *state’s* average weekly wage to a maximum of two times the *state’s* average weekly wage; or

(b) is less than the *state’s* average weekly wage, as defined in 39-71-116, the job credit interest rate reduction is reduced proportionately for each 25% increment below the *state’s* average *weekly* wage.

(3) A job credit interest rate reduction may not be allowed for a job created by the borrower using the proceeds of the loan for which the salary or wage is less than the minimum wage provided for in 39-3-409.

(4) A job credit may not be given unless one whole job is created.

(5) To qualify for the job credit interest rate reduction, the borrower shall provide satisfactory evidence of the creation of jobs and shall make a written application to the board through its financial institution or, in the case of a loan made pursuant to 17-6-309(2), shall make a written application directly to the board.”

(b) The application must be made in accordance with the rules adopted by the department. There is a \$17 fee for the initial application. Any subsequent application renewal must be accompanied by a \$17 application fee. The application fee must be deposited in the administration fund established in 39-71-201 to offset the costs of administering the program.

(d) The exemption, if approved, remains in effect for 2 years following the date of the department's approval. To maintain the independent contractor status, an independent contractor shall submit a renewal application every 2 years. The renewal application and the \$17 renewal application fee must be received by the department at least 30 days before the anniversary date of the previously approved exemption.

(4) (a) A corporation or a manager-managed limited liability company shall provide coverage for its employees under the provisions of compensation plan No. 1, 2, or 3. (b) If the employer changes plans or insurers, the employer's previous election is not effective and the employer shall again serve notice to its insurer and to its board of directors or the management organization of the manager-managed limited liability company if the employer elects to be bound.

(5) The appointment or election of an employee as an officer of a corporation, a partner in a partnership, a partner in a limited liability partnership, or a member in or a manager of a limited liability company for the purpose of exempting the employee from coverage under this chapter does not entitle the officer, partner, member, or manager to exemption from coverage.

A workplace is any location where an employee performs any work-related act in the course of employment, regardless of whether the location is temporary or permanent, and includes the place of business or property of a third person while the employer has access to or control over the place of business or property for the purpose of carrying on the employer's usual trade, business, or occupation. [HB 185]

AN ACT AMENDING RECLAMATION BOND PROVISIONS OF THE METAL MINE RECLAMATION LAWS AND THE OPENCUT MINING ACT PERTAINING TO MINES ON FEDERAL LANDS; ALLOWING THE DEPARTMENT OF ENVIRONMENTAL QUALITY TO ACCEPT BONDS PAYABLE TO THE STATE OF MONTANA AND A FEDERAL LAND MANAGEMENT AGENCY; AMENDING SECTIONS 82-4-338 AND 82-4-433, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 82-4-338, MCA, is amended to read:

“82-4-338. Performance bond. (1) (a) An applicant for an exploration license or operating permit shall file with the department a bond payable to the state of Montana with surety satisfactory to the department in the sum to be determined by the department of not less than \$200 for each acre or fraction of an acre of the disturbed land, conditioned upon the faithful performance of the requirements of this part, the rules of the board, and the permit. In lieu of a bond, the applicant may file with the department a cash deposit, an assignment of a certificate of deposit, an irrevocable letter of credit, or other surety acceptable to the department. The bond may not be less than the estimated cost to the state to ensure compliance with Title 75, chapters 2 and 5, this part, the rules, and the permit, including the potential cost of department management, operation, and maintenance of the site upon temporary or permanent operator insolvency or abandonment, until full bond liquidation can be effected.

(b) A public or governmental agency may not be required to post a bond under the provisions of this part.

(c) A blanket performance bond covering two or more operations may be accepted by the department. A blanket bond must adequately secure the estimated total number of acres of disturbed land.

(d) (i) *For an exploration license or operating permit authorizing activities on federal land within the state, the department may accept a bond payable to the state of Montana and the federal agency administering the land. The bond must provide at least the same amount of financial guarantee as required by this part.*

(ii) *The bond must provide that the department may forfeit the bond without the concurrence of the federal land management agency. The bond may provide that the federal land management agency may forfeit the bond without the concurrence of the department. Upon forfeiture by either agency, the bond must be payable to the department and may also be payable to the federal land management agency. If the bond is payable to the department and the federal land management agency, the department, before accepting the bond, shall enter into an agreement or memorandum of understanding with the federal land*

management agency providing for administration of the bond funds in a manner that will allow the department to provide for compliance with the requirements of this part, the rules adopted under this part, and the permit.

(iii) The department may not enter into an agreement or memorandum of understanding with a federal land management agency that would require the department to impose requirements on an operator that are more stringent than state law and rules.

(2) (a) The department may calculate one or more reclamation plan components within its jurisdiction with the assistance of one or more third-party contractors selected jointly by the department and the applicant and compensated by the applicant when, based on relevant past experience, the department determines that additional expertise is necessary to calculate the bond amount for reclamation plan components. The department may contract for assistance pursuant to this subsection in determining bond amounts for the initial bond and for any subsequent bond review and adjustment. The mine owner is responsible for the first \$5,000 in contractor services provided under this subsection. The mine owner and the department are each responsible for 50% of any amount over \$5,000.

(b) To select a third-party contractor as authorized in subsection (2)(a), the department shall prepare a list of no fewer than four contractors acceptable to the department and shall provide the applicant with a copy of the list. The applicant shall provide the department with a list of at least 50% of the contractors from the department's list. The department shall select its contractor from the list provided by the applicant.

(3) (a) The department shall conduct an overview of the amount of each bond annually and shall conduct a comprehensive bond review at least every 5 years. The department may conduct additional comprehensive bond reviews if, after modification of a reclamation or operation plan, an annual overview, or an inspection of the permit area, the department determines that an increase of the bond level may be necessary. The department shall consult with the licensee or permittee if a review indicates that the bond level should be adjusted. When determined by the department that the set bonding level of a permit or license does not represent the present costs of compliance with this part, the rules, and the permit, the department shall modify the bonding requirements of that permit or license. The licensee or permittee must have 60 days to negotiate the preliminary bond determination with the department, at the end of which time period the department shall issue the proposed bond determination. The department shall give the licensee or permittee a copy of the bond calculations that form the basis for the proposed bond determination and, for operating permits, publish notice of the proposed bond determination in a newspaper of general circulation in the county in which the operation is located. The department shall issue a final bond determination in 30 days. Unless the licensee or permittee requests a hearing under subsection (3)(b), the licensee or permittee shall post bond with the department in the amount represented by the final bond determination no later than 30 days after issuance of the final bond determination. If the licensee or permittee demonstrates that, through the exercise of reasonable diligence, the licensee or permittee will not be able to post the bond within 30 days, the department shall grant a 30-day extension of the deadline.

(b) The permittee or any person with an interest that may be adversely affected may obtain a contested case hearing before the board under the

provisions of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6, on the final bond determination by filing with the department, within 30 days of the issuance of the final bond determination, a written request for hearing stating the reason for the request. The request for hearing must specify the amount of bond increase, if any, that the licensee or permittee considers appropriate and state the reasons that the licensee or permittee considers the department's final bond determination to be excessive. As a condition precedent to any right to request a hearing, the licensee or permittee shall post bond with the department in the amount of the bond increase that the licensee or permittee has stated is appropriate in the request for hearing or the amount that is one-half of the increase contained in the department's final bond determination, whichever amount is greater. If the board determines that additional bond is necessary, the licensee or permittee shall post bond in the amount determined by the board within 30 days of receipt of the board's decision. If the licensee or permittee demonstrates that, through the exercise of reasonable diligence, the licensee or permittee will not be able to post the bond within 30 days, the department shall grant a reasonable extension of the deadline.

(c) If a licensee or permittee fails to post bond in accordance with subsection (3)(a) or (3)(b) in the required amounts by the required deadlines, the license or permit is suspended by operation of law and the licensee or permittee shall immediately cease mining and exploration operations until the required bond is posted with and approved by the department.

(4) A bond filed in accordance with the provisions of this part may not be released by the department until the provisions of this part, the rules adopted pursuant to this part, and the permit have been fulfilled.

(5) A bond filed for an operating permit obtained under 82-4-335 may not be released or decreased until the public has been provided an opportunity for a hearing and a hearing has been held if requested. The department shall provide reasonable statewide and local notice of the opportunity for a hearing, including but not limited to publishing the notice in newspapers of general daily circulation.

(6) All bonds required in accordance with the provisions of this section must be based upon reasonably foreseeable activities that the applicant may conduct in order to comply with conditions of an operating permit or license. Bonds may be required only for anticipated activities as described in subsection (1). Only those activities that themselves or in conjunction with other activities have a reasonable possibility of occurring may be bonded. Bond calculations, including calculations for the initial bond or for subsequent bond reviews and adjustments, may not include amounts for any occurrence or contingency that is not a reasonably foreseeable result of any activity conducted by the applicant.

(7) At the applicant's discretion, bonding in addition to that required by this section may be posted. These unobligated bonds may, on the applicant's request, be applied to future bonds required by this section.

(8) (a) If the department determines that there exists at an area permitted or licensed under this part an imminent danger to public health, safety, or the environment caused by a violation of this part, the rules adopted pursuant to this part, or the permit or license and if the permittee or licensee fails or refuses to expeditiously abate the danger, the department may immediately suspend the permit or license, enter the site, and abate the danger. The department may thereafter institute proceedings to revoke the license or permit, declare the

permittee or licensee in default, and forfeit a portion of the bond, not to exceed \$150,000 or 10% of the bond, whichever is less, to be used to abate the danger. The department shall notify the surety of the forfeiture and the forfeiture amount by certified mail, and the surety shall pay the forfeiture amount to the department within 30 days of receipt of the notice. The department shall, as a condition of any termination of the suspension and revocation proceedings, require that the permittee or licensee reimburse the surety, with interest, for any amount paid to and expended by the department pursuant to this subsection (8) and for the actual cost of the surety's expenses in responding to the department's forfeiture demand.

(b) If the department is unable to permanently abate the imminent danger using the amount forfeited under subsection (8)(a), the department may forfeit additional amounts under the procedure provided in subsection (8)(a).

Section 2. Section 82-4-433, MCA, is amended to read:

"82-4-433. Bond. (1) A bond required to be filed under this part by the operator must be in a form that the department prescribes, payable to the state of Montana and conditioned upon the operator's full compliance with all requirements of this part, the rules of the board, and the permit. The bond must be signed by the landowner or operator, as appropriate, as principal, and by a good and sufficient corporate surety licensed to do business in the state of Montana, as surety. The bond must be in an amount not to exceed the costs of restoration required by this part as determined by the department. The amount of the bond may not be less than \$200 or more than \$1,000 an acre unless the department determines, in writing, that the cost of restoration of the land exceeds \$1,000 an acre. Upon the cost determination, the bond amount must be set by the department at the cost of restoring the land.

(2) (a) *For open-cut mining operations on federal land within the state, the department may accept a bond payable to the state of Montana and the federal agency administering the land. The bond must provide at least the same amount of financial guarantee as required by this part.*

If the bond is payable to the department and the federal land management agency, the department, before accepting the bond, shall enter*

~~(2)~~(3) In lieu of the bond, the operator may deposit with the department cash, government securities, a letter of credit in a form acceptable to the department, or a bond with property sureties in an amount equal to that of the required bond on conditions as prescribed in this part. In the discretion of the department, surety bond requirements may be fulfilled by the operator's posting a bond with land and improvements and facilities located on the land as security, in which event a surety may not be required but the department may require that the amount of the bond be adjusted to reimburse the department for foreclosure costs. The penalty of the bond or amount of cash and securities must be increased or reduced from time to time as provided in this part. The bond or security remains in effect until the affected land has been reclaimed as provided under the permit and the reclamation has been approved and the bond or security has been released by the department. The bond or security may cover only actual affected land and may be increased or reduced to cover only those acreages as remain unreclaimed.

~~(3)~~(4) If the license of a surety upon a bond filed with the department pursuant to this part is suspended or revoked, the operator, within 30 days after receiving notice of the suspension or revocation from the department, shall substitute for that surety a good and sufficient surety licensed to do business in the state. Upon failure of the operator to make substitution of surety, the department may suspend the permit of the operator to conduct operations upon the land described in the permit until the substitution has been made.

~~(4)~~(5) The department shall cause the reclamation of any affected land with respect to which a bond has been forfeited.

~~(5)~~(6) Whenever an operator has completed all of the requirements under the provisions of this part as to any affected land, the operator shall notify the department of the completed requirements. Upon the basis of the examination, the board shall determine, by reason of physical or mental capacity, whether the recipient can perform the essential elements of

the position held by the recipient when the recipient was retired. If the board determines that the recipient is not incapacitated, the recipient's disability retirement benefit must be canceled when the recipient is offered a position under subsection (2) or when, if a position is available, the recipient cannot be reinstated under subsection (2) for reasons unrelated to the disability. If the recipient refuses to submit to a medical examination, the recipient's disability retirement benefit must be canceled when the recipient is notified of the determination of the board.

(2) (a) Except as provided in subsection (2)(b), a person other than an elected official whose disability retirement benefit is canceled because the person is no longer incapacitated must be reinstated to the position held by the person immediately before the person's retirement or to a position in a comparable pay and benefit category within the person's capacity, whichever is first open. The fact that the person was retired for disability may not prejudice any right to reinstatement to duty that the person may have or claim to have.

(b) This section does not affect any requirement that the former employee meet or be able to meet professional certification and licensing standards unrelated to the disability and necessary for reinstatement.

(3) The public body required to reinstate a person under subsection (2) may request a medical or psychological review as to the ability of the member to return to work as a member of the sheriff's ~~department~~ office. If the board's findings are upheld, the public body shall pay the cost of the review."

Section 12. Section 19-7-801, MCA, is amended to read:

"19-7-801. Membership in municipal police officers' retirement system prior to or following city-county consolidation — payment of benefits by two systems. (1) A law enforcement officer who has not changed employment but who has, because of a city-county consolidation, been transferred either from a city police force to a county sheriff's ~~department~~ office or from a county sheriff's ~~department~~ office to a city police force as a law enforcement officer is eligible for a service retirement benefit if the officer's combined service credit in the sheriffs' retirement system and the municipal police officers' retirement system satisfies the minimum membership service requirement of the system to which the officer last made contributions. A member who has elected to continue membership in the public employees' retirement system under 19-7-301 may continue the election. However, credit for service in the public employees' retirement system that has not been transferred prior to January 1, 1979, may not be transferred.

(2) A member of the municipal police officers' retirement system who begins employment in a position covered by the sheriffs' retirement system following a city-county consolidation may remain in the municipal police officers' retirement system or elect to become a member of the sheriffs' retirement system by filing a written election with the board no later than 30 days after beginning the employment.

(3) Eligibility for and calculation of disability retirement, death benefits, and refund of contributions are governed by the provisions of the retirement system to which the officer last made contributions.

(4) The service retirement benefit of a member described in subsection (1) must be calculated separately for each system based on the service credit under each system. The calculation for the sheriffs' retirement system portion of the benefit must include the appropriate reduction in the retirement benefit for an

optional retirement benefit elected under 19-7-1001. The final salary or highest average compensation for each calculation must be based on the highest compensation earned while a member of either system. Each system shall pay its proportionate share, based on the number of years of service credit, of the combined benefit.

(5) Upon the death of a retired member receiving a service retirement benefit under this section, the survivor or contingent annuitant and the continuing benefit must be determined separately for each system as follows:

(a) For the municipal police officers' retirement system portion of the benefit, the surviving spouse must receive a benefit equal to the municipal police officers' retirement system portion of the service retirement benefit as calculated at the time of the member's retirement. If the retired member leaves no surviving spouse or upon the death of the surviving spouse, the retired member's surviving dependent child, or children collectively if there are more than one, must receive the same monthly benefits that a surviving spouse would receive for as long as the child or one of the children remains dependent, as defined in 19-9-104. The benefits must be made to the child's appointed guardian for the child's use. If there is more than one dependent child, upon each child no longer qualifying as dependent under 19-9-104, the pro rata benefits to that child must cease and be paid to the remaining children until all the children are no longer dependent.

(b) For the sheriffs' retirement system portion of the benefit:

(i) the contingent annuitant must receive a continuing benefit as determined under 19-7-1001, if the retired member elected an optional retirement benefit; or

(ii) if the retired member did not elect an optional retirement benefit, any payment owed the retired member, including the excess, if any, of the retired member's accumulated contributions standing to the retired member's credit at the time of retirement less payments made to the retired member must be paid to the retired member's designated beneficiary."

Section 4. Section 80-9-206, MCA, is amended to read:

"80-9-206. Inspection fees — filing of annual statement. (1) An inspection fee must be paid on all commercial feeds, including customer formula feeds, except pet foods and specialty pet foods, distributed in this state as follows:

(a) The feed manufacturer has primary responsibility for paying inspection fees. However, the distributor is responsible for inspection fees if the manufacturer has not paid them.

(b) ~~The~~ *Except as provided in this subsection (1)(b), the* inspection fee is 18 cents a ton. Inspection fees must be paid on each commercial feed, including customer formula feeds and feed ingredients that are defined as commercial feeds even though they are used in the manufacture of other commercial feeds. However, premixes prepared and used within a feed plant or transferred from one plant to another within the same organization are exempt. *The department may by rule adjust the inspection fee to maintain adequate funding for the administration of this part. The fee may not be less than 18 cents a ton or more than 25 cents a ton.*

(c) A person producing a commercial feed with a feed mixing plant at a feed lot or a poultry, swine, or dairy operation may not be required to pay inspection fees on the commercial feeds produced and used in the feeding operation at the site, but is responsible for any unpaid inspection fees on commercial feed purchased by that person and on any commercial feed that person produces and distributes other than in that person's feeding operations at the site.

(2) Each person who holds a license as required in 80-9-201(1) shall:

(a) file, not later than January 31 of each year, an annual statement setting forth the number of tons of commercial feeds distributed in this state during the preceding calendar year ~~(January 1 through December 31)~~ and, upon filing the statement, shall pay the inspection fee. Inspection fees that have not been remitted to the department on or before January 31 have a penalty fee of 10% or a minimum of \$10, whichever is more, added to the amount due. The assessment of this penalty fee does not prevent the department from taking other action as provided in this chapter.

(b) keep those records that are necessary or are required by the department to indicate accurately the tonnage of commercial feed distributed in this state. The department may examine the records to verify statements of tonnage.

(c) make accurate and prompt reports as required. Failure to do so is sufficient cause for the department to cancel or refuse to reissue a license.”

Section 5. Section 80-9-301, MCA, is amended to read:

“80-9-301. Enforcement — inspection — notice — sampling and analysis. (1) To enforce this chapter, the department upon presenting appropriate credentials may enter, at reasonable times or under emergency conditions, any factory, warehouse, or establishment within the state in which commercial feeds are manufactured, processed, packed, distributed, or held or enter any vehicle being used to transport or hold commercial feeds. The department may inspect at reasonable times and within reasonable limits and in reasonable manner any factory, warehouse, establishment, or vehicle and all pertinent equipment, finished and unfinished materials, containers, and labeling found in a factory, warehouse, establishment, or vehicle. The inspection may include the verification of only those records and production and control procedures necessary to determine compliance with the good manufacturing practice rules adopted under 80-9-204(14).

(2) The department may enter premises to inspect, sample, and analyze noncommercial feeds and ingredients. The department shall provide at least 2 hours’ notice prior to the inspection and must be accompanied by the owner or the owner’s representative. However, the department’s authority is limited to determining whether the feeds and ingredients are adulterated for commercial feed purposes as provided in 80-9-204. The department may issue orders or condemn noncommercial feeds in the same manner as provided for commercial feeds in 80-9-302.

(3) Each inspection must be commenced and completed with reasonable promptness. Upon completion of the inspection, the person in charge of the facility or vehicle must be notified of the completion.

(4) If the officer or employee making the inspection of a factory, warehouse, or other establishment has obtained a sample in the course of the inspection, upon completion of the inspection and prior to leaving the premises, the officer or employee shall give the owner, operator, or agent in charge a receipt describing the sample obtained.

(5) To enforce this chapter the department may enter upon any public or private premises, including any vehicle of transport, during regular business hours to obtain samples and examine records relating to distribution of commercial feeds.

(6) Sampling and analysis must be conducted in accordance with methods published by AOAC international or with other generally recognized methods.

(7) The results of all analyses of official samples must be forwarded by the department to the person named on the label and to the purchaser. When the inspection and analysis of an official sample indicates a commercial feed has been adulterated or misbranded, the department shall upon request within 30 days following receipt of the analysis furnish the registrant a portion of the official sample.

(8) The department, in determining for administrative purposes whether a commercial feed is deficient in any component, must be guided by the official

sample ~~as defined in 80-9-101(15) and~~ obtained and analyzed as provided for in subsections (4) through (6) of this section.

(9) All official analyses must be performed cooperatively by the department and the agricultural experiment station at Montana state university-Bozeman. However, the department may arrange with other laboratories for specific analyses conducted as part of an official analysis.”

[HB 116]

AN ACT REQUIRING THAT SIGNIFICANT CHANGES IN OPERATING BUDGETS AND THAT SIGNIFICANT PROGRAM TRANSFERS BE REPORTED TO THE APPROPRIATE INTERIM COMMITTEE; AMENDING SECTIONS 17-7-138 AND 17-7-139, MCA; AND PROVIDING AN EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 17-7-138, MCA, is amended to read:

"17-7-138. Operating budget. (1) (a) Expenditures by a state agency must be made in substantial compliance with the budget approved by the legislature. Substantial compliance may be determined by conformity to the conditions contained in the general appropriations act and to legislative intent as established in the narrative accompanying the general appropriations act. *An explanation of any significant change in agency or program scope must be submitted on a regular basis to the interim committee that has program evaluation and monitoring functions for the agency pursuant to Title 5, chapter 5, part 2.* An explanation of any significant change in agency or program scope,

objectives, activities, or expenditures must be submitted to the legislative fiscal analyst for review and comment by the legislative finance committee prior to any implementation of the change. A significant change may not conflict with a condition contained in the general appropriations act. If the approving authority certifies that a change is time-sensitive, the approving authority may approve the change prior to the next regularly scheduled meeting of the legislative finance committee. The approving authority shall submit all proposed time-sensitive changes to the legislative fiscal analyst prior to approval. If the legislative fiscal analyst determines that notification of the legislative finance committee is warranted, the legislative fiscal analyst shall immediately notify as many members as possible of the proposed change and communicate any concerns expressed to the approving authority. The approving authority shall present a report fully explaining the reasons for the action to the next meeting of the legislative finance committee. Except as provided in subsection (2), the expenditure of money appropriated in the general appropriations act is contingent upon approval of an operating budget by August 1 of each fiscal year. An approved original operating budget must comply with state law and conditions contained in the general appropriations act.

(b) For the purposes of this subsection (1), an agency or program is considered to have a significant change in its scope, objectives, activities, or expenditures if:

(i) the operating budget change exceeds \$1 million; or

(ii) the operating budget change exceeds 25% of a budget category and the change is greater than \$25,000. If there have been other changes to the budget category in the current fiscal year, all the changes, including the change under consideration, must be used in determining the 25% and \$25,000 threshold.

(2) The expenditure of money appropriated in the general appropriations act to the board of regents, on behalf of the university system units, as defined in 17-7-102, is contingent upon approval of a comprehensive operating budget by October 1 of each fiscal year. The operating budget must contain detailed revenue and expenditures and anticipated fund balances of current funds, loan funds, endowment funds, and plant funds. After the board of regents approves operating budgets, transfers between units may be made only with the approval of the board of regents. Transfers and related justification must be submitted to the office of budget and program planning and to the legislative fiscal analyst.

(3) The operating budget for money appropriated by the general appropriations act must be separate from the operating budget for money appropriated by another law except a law appropriating money for the state pay plan or any portion of the state pay plan. The legislature may restrict the use of funds appropriated for personal services to allow use only for the purpose of the appropriation. Each operating budget must include expenditures for each agency program, detailed at least by first-level categories as provided in 17-1-102(3). Each agency shall record its operating budget for all funds, other than higher education funds, and any approved changes on the statewide budget and accounting state financial system. Documents implementing approved changes must be signed. The operating budget for higher education funds must be recorded on the university financial system, with separate accounting categories for each source or use of state government funds. State sources and university sources of funds may be combined for the general operating portion of the current unrestricted funds."

Section 2. Section 17-7-139, MCA, is amended to read:

“17-7-139. Program transfers. (1) Unless prohibited by law or a condition contained in the general appropriations act, the approving authority may approve agency requests to transfer appropriations between programs within each fund type within each fiscal year. The legislature may restrict the use of funds appropriated for personal services to allow use only for the purpose of the appropriation. *An explanation of any significant transfer must be submitted on a regular basis to the interim committee that has program evaluation and monitoring functions for the agency pursuant to Title 5, chapter 5, part 2.* An explanation of any transfer that involves a significant change in agency or program scope, objectives, activities, or expenditures must be submitted to the legislative fiscal analyst for review and comment by the legislative finance committee prior to any implementation of the change. If the approving authority certifies that a request for a transfer representing a significant change in agency or program scope, objectives, activities, or expenditures is time-sensitive, the approving authority may approve the transfer prior to the next regularly scheduled meeting of the legislative finance committee. The approving authority shall submit all proposed time-sensitive changes to the legislative fiscal analyst prior to approval. If the legislative fiscal analyst determines that notification of the legislative finance committee is warranted, the legislative fiscal analyst shall immediately notify as many members as possible of the proposed change and communicate any concerns expressed to the approving authority. The approving authority shall present a report fully explaining the reasons for the action to the next meeting of the legislative finance committee. All program transfers must be completed within the same fund from which the transfer originated. A request for a transfer accompanied by a justification explaining the reason for the transfer must be submitted by the requesting agency to the approving authority and the office of budget and program planning. Upon approval of the transfer in writing, the approving authority shall inform the legislative fiscal analyst of the approved transfer and the justification for the transfer. If money appropriated for a fiscal year is transferred to another fiscal year, the money may not be retransferred, except that money remaining from projected costs for spring fires estimated in the last quarter of the first year of a biennium may be retransferred.

(2) For the purposes of subsection (1), an agency or program is considered to have a significant change in its scope, objectives, activities, or expenditures if:

(a) the budget transfer exceeds \$1 million; or

(b) the budget transfer exceeds 25% of a program's total operating plan and the transfer is greater than \$25,000. If there have been other transfers to or from the program in the current fiscal year, all the transfers, including the transfer under consideration, must be used in determining the 25% and \$25,000 threshold.”

Section 2. Section 82-4-305, MCA, is amended to read:

Except as provided in subsections (3) through (10), the provisions of this part do not apply to a small miner if the small miner annually agrees in writing:

- (a) that the small miner will not pollute or contaminate any stream;
- (b) that the small miner will provide protection for human and animal life through the installation of bulkheads installed over safety collars and the installation of doors on tunnel portals;
- (c) that the small miner will provide a map locating the miner's mining operations. The map must be of a size and scale determined by the department.
- (d) if the small miner's operations are placer or dredge mining, that the small miner shall salvage and protect all soil materials for use in reclamation of that site and shall reclaim all land disturbed by the operations to comparable utility and stability as that of adjacent areas.

(2) For small-miner exemptions obtained after September 30, 1985, a small miner may not obtain or continue an exemption under subsection (1) unless the small miner annually certifies in writing:

- (a) if the small miner is an individual, that:
 - (i) no business association or partnership of which the small miner is a member or partner has a small-miner exemption; and
 - (ii) no corporation of which the small miner is an officer, director, or owner of record of 25% or more of any class of voting stock has a small-miner exemption; or
- (b) if the small miner is a partnership or business association, that:
 - (i) none of the associates or partners holds a small-miner exemption; and

(ii) none of the associates or partners is an officer, director, or owner of 25% or more of any class of voting stock of a corporation that has a small-miner exemption; or

(c) if the small miner is a corporation, that no officer, director, or owner of record of 25% or more of any class of voting stock of the corporation:

(i) holds a small-miner exemption;

(ii) is a member or partner in a business association or partnership that holds a small-miner exemption;

(iii) is an officer, director, or owner of record of 25% or more of any class of voting stock of another corporation that holds a small-miner exemption.

(3) A small miner whose operations are placer or dredge mining shall post a performance bond equal to the state's documented cost estimate of reclaiming the disturbed land, although the bond may not exceed \$10,000 for each operation. If the small miner has posted a bond for reclamation with another government agency, the small miner is exempt from the requirement of this subsection.

(4) If a small miner who conducts a placer or dredge mining operation fails to reclaim the operation, the small miner is liable to the department for all its reasonable costs of reclamation, including a reasonable charge for services performed by state personnel and for state materials and equipment used. If the small miner posts a surety bond, the surety is liable to the state to the extent of the bond amount and the small miner is liable for the remainder of the reasonable costs to the state of reclaiming the operation.

(5) If a small miner who conducts a placer or dredge mining operation fails to commence reclamation of the operation within 6 months after cessation of mining or within an extended period allowed by the department for good cause shown or if the small miner fails to diligently complete reclamation, the department shall notify the small miner by certified mail that it intends to reclaim the operation unless the small miner commences reclamation within 30 days and diligently completes the reclamation. The notice must be mailed to the address stated on the small miner exclusion statement or, if the small miner has notified the department of a different address by letter or in the annual certification form, to the most recent address given to the department. If the small miner fails to commence reclamation within 30 days or to diligently complete reclamation, the department may revoke the small miner exclusion statement, forfeit any bond that has been posted with the department, and enter and reclaim the operation. If the small miner has not posted a bond with the department or if the reasonable costs of reclamation exceed the amount of the bond, the department may also collect additional reclamation costs, as set forth in subsection (6), before or after it incurs those costs.

(6) To collect additional reclamation costs, the department shall notify the small miner by certified mail, at the address determined under subsection (5), of the additional reasonable reclamation costs and request payment within 30 days. If the small miner does not pay the additional reclamation costs within 30 days, the department may bring an action in district court for payment of the estimated future costs and, if the department has performed any reclamation, of its reasonable actual costs. The court shall order payment of costs that it determines to be reasonable and shall retain jurisdiction until reclamation of the operation is completed. Upon completion of reclamation, the court shall order payment of any additional costs that it considers reasonable or the refund

of any portion of any payment for estimated costs that exceeds the actual reasonable costs incurred by the department.

(7) A small miner who intends to use a cyanide ore-processing reagent or other metal leaching solvents or reagents shall obtain an operating permit for that part of the small miner's operation in which the cyanide ore-processing reagent or other metal leaching solvents or reagents will be used or disposed of. The acreage disturbed by the operation using cyanide ore-processing reagents or other metal leaching solvents or reagents and covered by the operating permit is excluded from the 5-acre limit specified in ~~82-4-303(15)(a)(i) and (15)(a)(ii)~~ *82-4-303(16)(a)(i) and (16)(a)(ii)*.

(8) The exemption provided in this section does not apply to a person:

(a) whose failure to comply with the provisions of this part, the rules adopted under this part, or a permit or license issued under this part has resulted in the forfeiture of a bond, unless that person meets the conditions described under 82-4-360;

(b) who has not paid a penalty for which the department has obtained a judgment pursuant to 82-4-361;

(c) who has failed to post a reclamation bond required by this section, unless the department has certified that the area for which the bond should have been posted has been reclaimed by that person or reclaimed by the department and the person has reimbursed the department for the cost of the reclamation; or

(d) who has failed to comply with an abatement order issued pursuant to 82-4-362, unless the department has completed the abatement and the person has reimbursed the department for the cost of abatement.

(9) The exemption provided in this section does not apply to an area:

(a) under permit pursuant to 82-4-335;

(b) that has been permitted pursuant to 82-4-335 and reclaimed by the permittee, the department, or any other state or federal agency; or

(c) that has been reclaimed by or has been subject to remediation of contamination or pollution by a public agency, under supervision of a public agency, or using public funds.

(10) A small miner may not use mercury except in a contained facility that prevents the escape of any mercury into the environment."

Section 3. Section 82-4-335, MCA, is amended to read:

"82-4-335. Operating permit — limitation — fees. (1) A person may not engage in mining, ore processing, or reprocessing of tailings or waste material, construct or operate a hard-rock mill, use cyanide ore-processing reagents or other metal leaching solvents or reagents, or disturb land in anticipation of those activities in the state without first obtaining an operating permit from the department. *A Except as provided in subsection (2), a separate operating permit is required for each complex.*

(2) (a) *A person who engages in the mining of rock products or a landowner who allows another person to engage in the mining of rock products from the landowner's land may obtain an operating permit for multiple sites if each of the multiple sites does not:*

(i) *operate within 100 feet of surface water or in ground water or impact any wetland, surface water, or ground water;*

- (ii) have any water impounding structures other than for storm water control;*
- (iii) have the potential to produce acid, toxic, or otherwise pollutive solutions;*
- (iv) adversely impact a member of or the critical habitat of a member of a wildlife species that is listed as threatened or endangered under the Endangered Species Act of 1973; or*

(b) A landowner who is a permittee and who allows another person to mine on the landowner's land remains responsible for compliance with this part, the rules adopted pursuant to this part, and the permit for all mining activities conducted on sites permitted pursuant to this subsection (2) with the landowner's permission. The performance bond required under this part is and must be conditioned upon compliance with this part, the rules adopted pursuant to this part, and the permit of the landowner and any person who mines with the landowner's consent.

~~(2)~~(3) A small miner who intends to use a cyanide ore-processing reagent or other metal leaching solvents or reagents shall obtain an operating permit for that part of the small miner's operation where the cyanide ore-processing reagent or other metal leaching solvents or reagents will be used or disposed of.

~~(3)~~(4) Prior to receiving an operating permit from the department, a person shall pay the basic permit fee of \$500. The department may require a person who is applying for a permit pursuant to subsection (1) to pay an additional fee not to exceed the actual amount of contractor and employee expenses beyond the normal operating expenses of the department whenever those expenses are reasonably necessary to provide for timely and adequate review of the application, including any environmental review conducted under Title 75, chapter 1, parts 1 and 2. The board may further define these expenses by rule. Whenever the department determines that an additional fee is necessary and the additional fee will exceed \$5,000, the department shall notify the applicant that a fee must be paid and submit to the applicant an itemized estimate of the proposed expenses. The department shall provide the applicant an opportunity to review the department's estimated expenses. If the permittee does not comply with that commitment within the time scheduled, the department, upon receipt of written notice from the hard-rock mining impact board, shall suspend the permit until it receives written notice from the hard-rock mining impact board that the permittee is in compliance.

~~(6)~~(7) When the department determines that a permittee has become or will become a large-scale mineral developer pursuant to 82-4-339 and 90-6-302 and provides notice as required under 82-4-339, within 6 months of receiving the notice, the permittee shall provide the department with proof that the permittee has obtained a waiver of the impact plan requirement from the hard-rock mining impact board or that the permittee has filed an impact plan with the hard-rock mining impact board and the appropriate county or counties. (a) that person's failure, or the failure of any firm or business association of which that person was a principal or controlling member, to comply with the provisions of this part, the rules adopted under this part, or a permit or license issued under this part has resulted in either the receipt of bond proceeds by the department or the completion of reclamation by the person's surety or by the department, unless that person meets the conditions described in 82-4-360;

(b) that person has not paid a penalty for which the department has obtained a judgment pursuant to 82-4-361;

Section 4. Section 82-4-337, MCA, is amended to read:

"82-4-337. Inspection — issuance of operating permit — modification, amendment, or revision. (1) (a) The department shall review all applications for operating permits for completeness within 60 days of receipt of the initial application and within 30 days of receipt of responses to notices of deficiencies. The initial completeness notice must note all deficiency issues, and the department may not in a later completeness notice raise an issue pertaining to the initial application that was not raised in the initial notice. The department may, however, raise any deficiency during the adequacy review pursuant to subsection (1)(b). The department shall notify the applicant concerning completeness as soon as possible. An application is considered complete unless the applicant is notified of any deficiencies within the appropriate review period.

(b) Except as provided in 75-1-208(4)(b), unless the review period is extended as provided in this section, the department shall review the adequacy of the proposed reclamation plan and plan of operation within 30 days of the determination that the application is complete or within 60 days of receipt of the application if the department does not notify the applicant of any deficiencies in the application. If the applicant is not notified of deficiencies or inadequacies in the proposed reclamation plan and plan of operation within the time period, the operating permit must be issued upon receipt of the bond as required in 82-4-338 and pursuant to the requirements of subsection (1)(c) *of this section*. The department shall promptly notify the applicant of the form and amount of bond that will be required.

(c) A permit may not be issued until:

(i) sufficient bond has been submitted pursuant to 82-4-338;

(ii) the information and certification have been submitted pursuant to ~~82-4-335(9)~~ 82-4-335(10); and

(iii) the department has found that permit issuance is not prohibited by ~~82-4-335(8)~~ 82-4-335(9) or 82-4-341(7).

(d) (i) Prior to issuance of a permit, the department shall inspect the site, unless the department has failed to act on the application within the time prescribed in subsection (1)(b). If the site is not accessible because of extended adverse weather conditions, the department may extend the time period prescribed in subsection (1)(b) by not more than 180 days to allow inspection of the site and reasonable review. The department shall serve written notice of extension upon the applicant in person or by certified mail, and any extension is subject to appeal to the board in accordance with the Montana Administrative Procedure Act.

(ii) Except as provided in 75-1-208(4)(b), if the department determines that additional time is needed for analysis to determine whether a detailed environmental impact statement is necessary under 75-1-201, the department and the applicant shall negotiate to extend the period prescribed in subsection (1)(b) *of this section* by not more than 75 days to permit reasonable analysis. The applicant may by written waiver extend this period.

(iii) Except as provided in 75-1-208(4)(b), if the department determines that additional time is needed to review the application and reclamation plan for a major operation, the department and the applicant shall negotiate to extend the period prescribed in subsection (1)(b) *of this section* by not more than 365 days in order to permit reasonable review. The applicant may by written waiver extend this time period.

(iv) If the department decides to hire a third-party contractor to prepare an environmental impact statement on the application, the department shall prepare a list of no fewer than four contractors acceptable to the department and shall provide the applicant with a copy of the list. The applicant shall provide the department with a list of at least 50% of the contractors from the department's list. The department shall select its contractor from the list provided by the applicant.

(v) Failure of the department to act upon a complete application within the extension period constitutes approval of the application, and the permit must be issued promptly upon receipt of the bond as required in 82-4-338.

(2) The operating permit must be granted for the period required to complete the operation and is valid until the operation authorized by the permit is

completed or abandoned, unless the permit is suspended or revoked by the department as provided in this part.

(3) The operating permit must provide that the reclamation plan may be modified by the department, upon proper application of the permittee or after timely notice and opportunity for hearing, at any time during the term of the permit and for any of the following reasons:

(a) to modify the requirements so that they will not conflict with existing laws;

(b) when the previously adopted reclamation plan is impossible or impracticable to implement and maintain;

(c) when significant environmental problem situations are revealed by field inspection.

(4) (a) The modification of an operating permit may be a major or minor permit amendment or a permit revision. A modification of the operating permit, including a modification necessary to conform to the requirements of existing law as interpreted by a court of competent jurisdiction, must be processed in accordance with the procedures for an application for a permit amendment or revision that are established pursuant to 82-4-342 and this section, including any environmental analysis required by Title 75, chapter 1, part 2.

(b) The modification of an operating permit may not be finalized and an existing bond amount may not be increased until the permit modification procedures and analysis described in subsection (4)(a) are completed.

(5) During the term of an operating permit, an operator may apply for an amendment or revision to the permit. The operator may not apply for an amendment to delete disturbed acreage from the permit.

(6) Applications for major amendments must be processed in the same manner as applications for new permits.

(7) Major amendments are those that may significantly affect the environment. Minor amendments are those that will not significantly affect the environment. The board may by rule establish criteria for classification of amendments as major or minor. The rules must establish requirements for the content of applications for amendments and revisions and procedures for processing of minor amendments.

(8) If the department demonstrates that a revision may result in a significant environmental impact that was not previously and substantially evaluated in an environmental impact statement, the application must be processed in the same manner as is provided for new permits. Except as provided in 75-1-208(4)(b), applications for minor amendments and other revisions must be processed within 30 days of receipt of an application."

Section 5. Section 82-4-339, MCA, is amended to read:

"82-4-339. Annual report of activities by permittee — fee — notice of large-scale mineral developer status. (1) Within 30 days after completion or abandonment of operations on an area under permit or within 30 days after each anniversary date of the permit, whichever is earlier, or at a later date that may be provided by rules of the board and each year after that date until reclamation is completed and approved, the permittee shall pay the annual fee of \$100 and shall file a report of activities completed during the preceding year on a form prescribed by the department. The report must:

- (a) identify the permittee and the permit number;
- (b) locate the operation by subdivision, section, township, and range and with relation to the nearest town or other well-known geographic feature;
- (c) estimate acreage to be newly disturbed by operation in the next 12-month period;
- (d) include the number of persons on the payroll for the previous permit year and for the next permit year at intervals that the department considers sufficient to enable a determination of the permittee's status under 90-6-302(4);
- (e) update the information required in ~~82-4-335(4)(a)~~ 82-4-335(5)(a); and
- (f) update any maps previously submitted or specifically requested by the department. The maps must show:
 - (i) the permit area;
 - (ii) the unit of disturbed land;
 - (iii) the area to be disturbed during the next 12-month period;
 - (iv) if completed, the date of completion of operations;
 - (v) if not completed, the additional area estimated to be further disturbed by the operation within the following permit year; and
 - (vi) the date of beginning, amount, and current status of reclamation performed during the previous 12 months.

(2) Whenever the department determines that the permittee has become or will, during the next permit year, become a large-scale mineral developer, it shall immediately serve written notice of that fact on the permittee, the hard-rock mining impact board, and the county or counties in which the operation is located."

[HB 157]

AN ACT PROVIDING A FORMULA RATHER THAN A SET INTEREST RATE FOR USE IN DETERMINING THE RATES OF INTEREST TO BE PAID ON MINIMUM NONFORFEITURE AMOUNTS UNDER AN ANNUITY CONTRACT; AMENDING THE CONTRACT CHARGE; ALLOWING A REDUCTION FOR PREMIUM TAX PAID; AMENDING SECTION 33-20-505, MCA; AND PROVIDING AN EFFECTIVE DATE AND AN APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 33-20-505, MCA, is amended to read:

“33-20-505. (Temporary) Minimum nonforfeiture amounts. (1) The minimum values as specified in 33-20-506 through 33-20-509 and 33-20-511 of any paid-up annuity, cash surrender, or death benefits available under an annuity contract must be based upon minimum nonforfeiture amounts, as defined in this section.

(2) (a) ~~With respect to contracts providing for flexible considerations, the~~ The minimum nonforfeiture amount at any time at or prior to the commencement of any annuity payments must be equal to an accumulation up to that time at ~~a rate rates~~ of interest of ~~1.5% a year of percentages as indicated in subsection (3)(a) of the net considerations, as described in subsection (2)(b),~~ paid prior to that time, decreased by the sum of:

(i) any prior withdrawals from or partial surrenders of the contract accumulated at ~~a rate rates~~ of interest of ~~1.5% a year and as indicated in subsection (3)(a);~~

(ii) an annual contract charge of \$50 accumulated at rates of interest as indicated in subsection (3)(a);

(iii) any premium tax paid by the company for the contract accumulated at rates of interest as indicated in subsection (3)(a); and

(iv) the amount of any indebtedness to the company on the contract, including interest due and accrued, ~~and increased by existing additional amounts credited by the company to the contract.~~

(b) The net consideration for a given contract year used to define the minimum nonforfeiture amount must be an amount ~~not less than zero and must be equal to 87.5% of the corresponding gross considerations credited to the contract during that contract year less an annual contract charge of \$30 and less a collection charge of \$1.25 for each consideration credited to the contract during that contract year. The percentages of net consideration must be 65% of the net consideration for the first contract year and 87 1/2% of the net consideration for the second and later contract years. Regardless of the provisions of the preceding sentence, the percentage must be 65% of the portion of the total net consideration for any renewal contract year that exceeds by not more than two times the sum of those portions of the net consideration in all prior contract years for which the percentage was 65%.~~

~~(3) With respect to contracts providing for fixed schedule consideration, minimum nonforfeiture amounts must be calculated on the assumption that consideration is paid annually in advance and must be defined in the same manner as for contracts with flexible payments of consideration that are paid annually with two exceptions:~~

~~(a) The portion of the net consideration for the first contract year to be accumulated must be the sum of 65% of the net consideration for the first contract year plus 22 1/2% of the excess of the net consideration for the first contract year over the lesser of the net considerations for the second and third contract years.~~

~~(b) The annual contract charge must be the lesser of \$30 or 10% of the gross annual consideration.~~

~~(4) With respect to contracts providing for a single consideration, minimum nonforfeiture amounts must be defined in the same manner as for contracts with flexible payments of consideration, except that the percentage of net~~

~~consideration used to determine the minimum nonforfeiture amount must be equal to 90% and the net consideration must be the gross consideration less a contract charge of \$75.~~

(3) (a) (i) *The interest rate used in determining minimum nonforfeiture amounts must be an annual rate of interest determined as the lesser of 3% a year or the amount calculated under subsection (3)(a)(ii), which must be specified in the contract if the interest rate will be reset.*

(ii) *The interest rate may be the 5-year constant maturity treasury rate reported by the federal reserve board as of a date or an average over a period, rounded to the nearest 1/20th of 1%, specified in the contract no longer than 15 months prior to the contract issue date or redetermination date under subsection (3)(a)(iii) and reduced by 125 basis points whenever the resulting interest rate is not less than 1%.*

(iii) *The interest rate under subsection (3)(a)(ii) must apply for an initial period and may be redetermined for additional periods. The redetermination date, basis, and period, if any, must be stated in the contract. The basis is the date or the average over a specified period that produces the value of the 5-year constant maturity treasury rate to be used at each redetermination date.*

(b) *During the period or term that a contract provides substantive participation in an equity indexed benefit, the contract may increase the reduction described in subsection (3)(a)(ii) by up to an additional 100 basis points to reflect the value of the equity index benefit. The present value at the contract issue date, and at each redetermination date, of the additional reduction may not exceed the market value of the benefit. The commissioner may require a demonstration that the present value of the additional reduction does not exceed the market value of the benefit. The commissioner may disallow or limit the additional reduction if the commissioner considers the demonstration unacceptable.*

(4) *The commissioner may adopt rules to implement the provisions of subsection (3)(b) and to provide for further adjustments to the calculation of minimum nonforfeiture amounts for contracts that provide substantive participation in an equity index benefit and for other contracts for which the commissioner determines that adjustments are justified. (Terminates July 1, 2005—sec. 4, Ch. 512, L. 2003.)*

33-20-505. (Effective July 1, 2005) Minimum nonforfeiture amounts.

(1) The minimum values as specified in 33-20-506 through 33-20-509 and 33-20-511 of any paid-up annuity, cash surrender, or death benefits available under an annuity contract ~~shall~~ must be based upon minimum nonforfeiture amounts, as defined in this section.

(2) (a) ~~With respect to contracts providing for flexible considerations, the~~ *The* minimum nonforfeiture amount at any time at or prior to the commencement of any annuity payments ~~shall~~ must be equal to an accumulation up to ~~such that time at a rate~~ rates of interest ~~of 3% a year of percentages as indicated in subsection (3)(a) of the net considerations (as hereinafter defined), as described in subsection (2)(b), paid prior to such that time, decreased by the sum of:~~

(i) any prior withdrawals from or partial surrenders of the contract accumulated at ~~a rate~~ rates of interest ~~of 3% a year~~ as indicated in subsection (3)(a);

(iv) *the amount of any indebtedness to the company on the contract, including interest due and accrued, and increased by existing additional amounts credited by the company to the contract.*

(b) *The net consideration for a given contract year used to define the minimum nonforfeiture amount shall must be an amount not less than zero and shall be equal to 87.5% of the corresponding gross considerations credited to the contract during that contract year less an annual contract charge of \$30 and less a collection charge of \$1.25 per consideration credited to the contract during that contract year. The percentages of net consideration shall be 65% of the net consideration for the first contract year and 87 1/2% of the net consideration for the second and later contract years. Notwithstanding the provisions of the preceding sentence, the percentage shall be 65% of the portion of the total net consideration for any renewal contract year which exceeds by not more than two times the sum of those portions of the net consideration in all prior contract years for which the percentage was 65%.*

(3) *With respect to contracts providing for fixed schedule consideration, minimum nonforfeiture amounts shall be calculated on the assumption that consideration is paid annually in advance and shall be defined as for contracts with flexible payments of consideration which are paid annually with two exceptions:*

(a) *The portion of the net consideration for the first contract year to be accumulated shall be the sum of 65% of the net consideration for the first contract year plus 22 1/2% of the excess of the net consideration for the first contract year over the lesser of the net considerations for the second and third contract years.*

(3) (a) (i) *The interest rate used in determining minimum nonforfeiture amounts must be an annual rate of interest determined as the lesser of 3% a year or the amount calculated under subsection (3)(a)(ii), which must be specified in the contract if the interest rate will be reset.*

"39-71-306. Insurers to file summary reports of benefits paid for injuries and miscellaneous expenses and statements of medical expenditures. (1) Each insurer shall, on or before the 15th day after each state government fiscal quarter ends, file with the department:

(a) summary reports of benefits for all compensation payments made during the previous state fiscal quarter to injured workers or their beneficiaries or dependents;

(b) statements showing the amounts expended during the previous state fiscal quarter for all medical services for injured workers; and

(c) statements showing all miscellaneous amounts, other than compensation and medical expenditures, paid during the previous state fiscal quarter to or on behalf of injured workers or their beneficiaries or dependents and not otherwise reported as an expenditure for the workers' compensation administration assessment provided for in 39-71-201.

(2) An insurer that fails to file the summary report *required by this section or the annual paid losses report required in 39-71-201* ~~after a 5-day grace period within 5 days~~ after the date on which ~~the~~ either report is due may be assessed a penalty in an amount of not less than \$250 or more than \$1,000 to be deposited in the workers' compensation administration fund."

Section 3. Section 39-71-315, MCA, is amended to read:

“39-71-315. Prohibited actions — penalty. (1) The following actions by a medical provider constitute violations and are subject to the penalty in subsection (2):

(a) failing to ~~document, under oath,~~ *certify* the provision of the services or treatment for which compensation is claimed under chapter 72 or this chapter; or

(b) referring a worker for treatment or diagnosis of an injury or illness that is compensable under chapter 72 or this chapter to a facility owned wholly or in part by the provider, unless the provider informs the worker of the ownership interest and provides the name and address of alternate facilities, if any exist.

(2) A person who violates this section may be assessed a penalty of not less than \$200 or more than \$500 for each offense. The department shall assess and collect the penalty. Penalties collected pursuant to this section must be paid into the state general fund. The workers' compensation court has jurisdiction over actions brought to collect the penalty and over disputes concerning the penalty assessment. Disputes brought pursuant to this section are not subject to mediation.

(3) Subsection (1)(b) does not apply to medical services provided to an injured worker by a treating physician with an ownership interest in a managed care organization that has been certified by the department.”

Section 4. Section 39-71-504, MCA, is amended to read:

“39-71-504. Funding of fund — option for agreement between department and injured employee. The fund is funded in the following manner:

(1) (a) The department may require that the uninsured employer pay to the fund a penalty of either up to double the premium amount the employer would have paid on the payroll of the employer's workers in this state if the employer had been enrolled with compensation plan No. 3 or \$200, whichever is greater. In determining the premium amount for the calculation of the penalty under this subsection, the department shall make an assessment based on how much premium would have been paid on the employer's past 3-year payroll for periods within the 3 years when the employer was uninsured.

(b) The fund shall collect from an uninsured employer an amount equal to all benefits paid or to be paid from the fund to *or on behalf of* an injured employee of the uninsured employer.

(c) In addition to any amounts recovered under subsections (1)(a) and (1)(b), the fund shall collect a penalty of \$200 from an employer that fails to obtain Montana workers' compensation insurance within 30 days of notice of the requirement.

(2) (a) An uninsured employer that fails to make timely penalty or claim reimbursement payments required under this part must be assessed a late fee of \$50 for each late payment.

(b) Any unpaid balance owed to the fund under this part ~~for penalties or claim reimbursement~~ must accrue interest at 12% a year or 1% a month or fraction of a month. Interest on unpaid balances accrues from the date of the original billing.

(c) Late fees and interest assessed pursuant to this subsection (2) must be deposited into the fund for payment of administrative expenses and benefits.

(3) The department may enter into an agreement with the injured employee or the employee's beneficiaries to assign to the employee or the beneficiaries all or part of the funds collected by the department from the uninsured employer pursuant to subsection (1)(b)."

Section 5. Section 39-71-704, MCA, is amended to read:

"39-71-704. Payment of medical, hospital, and related services — fee schedules and hospital rates — fee limitation. (1) In addition to the compensation provided under this chapter and as an additional benefit separate and apart from compensation benefits actually provided, the following must be furnished:

(a) After the happening of a compensable injury and subject to other provisions of this chapter, the insurer shall furnish reasonable primary medical services for conditions resulting from the injury for those periods as the nature of the injury or the process of recovery requires.

(b) The insurer shall furnish secondary medical services only upon a clear demonstration of cost-effectiveness of the services in returning the injured worker to actual employment.

(c) The insurer shall replace or repair prescription eyeglasses, prescription contact lenses, prescription hearing aids, and dentures that are damaged or lost as a result of an injury, as defined in 39-71-119, arising out of and in the course of employment.

(d) (i) The insurer shall reimburse a worker for reasonable travel, lodging, meals, and miscellaneous expenses incurred in travel to a medical provider for treatment of an injury pursuant to rules adopted by the department. Reimbursement must be at the rates allowed for reimbursement for state employees.

(ii) Rules adopted under subsection (1)(d)(i) must provide for submission of claims, within 90 days from the date of travel, following notification to the claimant of reimbursement rules, must provide procedures for reimbursement receipts, and must require the use of the least costly form of travel unless the travel is not suitable for the worker's medical condition. The rules must exclude from reimbursement:

(A) 100 miles of automobile travel for each calendar month unless the travel is requested or required by the insurer pursuant to 39-71-605;

(B) travel to a medical provider within the community in which the worker resides;

(C) travel outside the community in which the worker resides if comparable medical treatment is available within the community in which the worker resides, unless the travel is requested by the insurer; and

(D) travel for unauthorized treatment or disallowed procedures.

(iii) An insurer is not liable for injuries or conditions that result from an accident that occurs during travel or treatment, except that the insurer retains liability for the compensable injuries and conditions for which the travel and treatment was required.

(e) Except for the repair or replacement of a prosthesis furnished as a result of an industrial injury, the benefits provided for in this section terminate when they are not used for a period of 60 consecutive months.

(f) Notwithstanding subsection (1)(a), the insurer may not be required to furnish, after the worker has achieved medical stability, palliative or maintenance care except:

(i) when provided to a worker who has been determined to be permanently totally disabled and for whom it is medically necessary to monitor administration of prescription medication to maintain the worker in a medically stationary condition;

(ii) when necessary to monitor the status of a prosthetic device; or

(iii) when the worker's treating physician believes that the care that would otherwise not be compensable under subsection (1)(f) is appropriate to enable the worker to continue current employment or that there is a clear probability of returning the worker to employment. A dispute regarding the compensability of palliative or maintenance care is considered a dispute over which, after mediation pursuant to department rule, the workers' compensation court has jurisdiction.

(g) Notwithstanding any other provisions of this chapter, the department, by rule and upon the advice of the professional licensing boards of practitioners affected by the rule, may exclude from compensability any medical treatment that the department finds to be unscientific, unproved, outmoded, or experimental.

(2) The department shall annually establish a schedule of fees for medical services not provided at a hospital that are necessary for the treatment of injured workers. Charges submitted by providers must be the usual and customary charges for nonworkers' compensation patients. The department may require insurers to submit information to be used in establishing the schedule.

(3) (a) The department shall establish rates for hospital services necessary for the treatment of injured workers.

(b) Except as provided in subsection (3)(g), rates for services provided at a hospital must be the greater of:

(i) 69% of the hospital's January 1, 1997, usual and customary charges; or

(ii) the discount factor established by the department that was in effect on June 30, 1997, for the hospital. The discount factor for a hospital formed by the merger of two or more existing hospitals is computed by using the weighted average of the discount factors in effect at the time of the merger.

(c) Except as provided in subsection (3)(g), the department shall adjust hospital discount factors so that the rate of payment does not exceed the annual percentage increase in the state's average weekly wage, as defined in 39-71-116.

(d) The department may establish a fee schedule for hospital outpatient services rendered. The fee schedule must, in the aggregate, provide for fees that are equal to the statewide average discount factors paid to hospitals to provide the same or equivalent procedure to workers' compensation hospital outpatients.

(e) The discount factors established by the department pursuant to this subsection (3) may not be less than medicaid reimbursement rates.

(f) For services available in Montana, insurers are not required to pay facilities located outside Montana rates that are greater than those allowed for services delivered in Montana.

(g) For a ~~hospital licensed as a~~ medical assistance facility or a critical access hospital *licensed* pursuant to Title 50, chapter 5, the rate for services is the ~~hospital's~~ usual and customary charge. Fees paid to a ~~hospital licensed as a~~ *licensed* medical assistance facility or *critical access hospital* are not subject to the limitation provided in subsection (4).

(4) The percentage increase in medical costs payable under this chapter may not exceed the annual percentage increase in the state's average weekly wage, as defined in 39-71-116.

(5) Payment pursuant to reimbursement agreements between managed care organizations or preferred provider organizations and insurers is not bound by the provisions of this section.

(6) Disputes between an insurer and a medical service provider regarding the amount of a fee for medical services must be resolved by a hearing before the department upon written application of a party to the dispute.

(7) (a) After the initial visit, the worker is responsible for \$25 of the cost of each subsequent visit to a hospital emergency department for treatment relating to a compensable injury or occupational disease.

(b) "Visit", as used in this subsection (7), means each time that the worker obtains services relating to a compensable injury or occupational disease from:

- (i) a treating physician;
- (ii) a physical therapist;
- (iii) a psychologist; or
- (iv) hospital outpatient services available in a nonhospital setting.

(c) A worker is not responsible for the cost of a subsequent visit pursuant to subsection (7)(a) if the visit is for treatment requested by an insurer."

Section 6. Section 39-71-915, MCA, is amended to read:

"39-71-915. Assessment of insurer — employers — definition — collection. (1) As used in this section, "paid losses" means the following benefits paid during the preceding calendar year for injuries covered by the Montana Workers' Compensation Act and the Occupational Disease Act of Montana without regard to the application of any deductible, regardless of whether the employer or the insurer pays the losses:

(a) total compensation benefits paid; and

(b) except for medical benefits in excess of \$200,000 for each occurrence that are exempt from assessment, total medical benefits paid for medical treatment rendered to an injured worker, including hospital treatment and prescription drugs.

(2) The fund must be maintained by assessing each plan No. 1 employer, each employer insured by a plan No. 2 insurer, plan No. 3, the state fund, with respect to claims arising before July 1, 1990, and each employer insured by plan No. 3, the state fund. The assessment amount is the total amount of ~~paid losses reimbursed from~~ *paid* by the fund in the preceding ~~calendar~~ *fiscal* year and the expenses of administration less other *realized* income *that is deposited in the fund*. The total assessment amount to be collected must be allocated among plan

No. 1 employers, plan No. 2 employers, plan No. 3, the state fund, and plan No. 3 employers, based on a proportionate share of paid losses for the calendar year preceding the year in which the assessment is collected. The board of investments shall invest the money of the fund, and the investment income must be deposited in the fund.

(3) On or before May 31 each year, the department shall notify each plan No. 1 employer, plan No. 2 insurer, and plan No. 3, the state fund, of the amount to be assessed for the ensuing fiscal year. The amount to be assessed against the state fund must separately identify the amount attributed to claims arising before July 1, 1990, and the amount attributable to state fund claims arising on or after July 1, 1990. On or before April 30 each year, the department, in consultation with the advisory organization designated under 33-16-1023, shall notify plan No. 2 insurers and plan No. 3 of the premium surcharge rate to be effective for policies written or renewed on and after July 1 in that year.

(4) The portion of the plan No. 1 assessment assessed against an individual plan No. 1 employer is a proportionate amount of total plan No. 1 paid losses during the preceding calendar year that is equal to the percentage that the total paid losses of the individual plan No. 1 employer bore to the total paid losses of all plan No. 1 employers during the preceding calendar year.

(5) The portion of the assessment attributable to state fund claims arising before July 1, 1990, is the proportionate amount that is equal to the percentage that total paid losses for those claims during the preceding calendar year bore to the total paid losses for all plans in the preceding calendar year. As required by 39-71-2352, the state fund may not pass along to insured employers the cost of the subsequent injury fund assessment that is attributable to claims arising before July 1, 1990.

(6) The remaining portion of the assessment must be paid by way of a surcharge on premiums paid by employers being insured by a plan No. 2 insurer or plan No. 3, the state fund, for policies written or renewed annually on or after July 1. The surcharge rate must be computed by dividing the remaining portion of the assessment by the total amount of premiums paid by employers insured under plan No. 2 or plan No. 3 in the previous calendar year. The numerator for the calculation must be adjusted as provided by subsection (9).

(7) Each plan No. 2 insurer providing workers' compensation insurance and plan No. 3, the state fund, shall collect from its policyholders the assessment premium surcharge provided for in subsection (6). When collected, the assessment premium surcharge may not constitute an element of loss for the purpose of establishing rates for workers' compensation insurance but, for the purpose of collection, must be treated as separate costs imposed upon insured employers. The total of this assessment premium surcharge must be stated as a separate cost on an insured employer's policy or on a separate document submitted by the insured employer and must be identified as "workers' compensation subsequent injury fund surcharge". Each assessment premium surcharge must be shown as a percentage of the total workers' compensation policyholder premium. This assessment premium surcharge must be collected at the same time and in the same manner that the premium for the coverage is collected. The assessment premium surcharge must be excluded from the definition of premiums for all purposes, including computation of insurance producers' commissions or premium taxes, except that an insurer may cancel a workers' compensation policy for nonpayment of the assessment premium surcharge. Cancellation must be in accordance with the procedures applicable

to the nonpayment of premium. If an employer fails to remit to an insurer the total amount due for the premium and assessment premium surcharge, the amount received by the insurer must be applied to the assessment premium surcharge first and the remaining amount applied to the premium due.

(8) (a) All assessments paid to the department must be deposited in the fund.

(b) Each plan No. 1 employer shall pay its assessment by July 1.

(c) Each plan No. 2 insurer and plan No. 3, the state fund, shall remit to the department all assessment premium surcharges collected during a calendar quarter by not later than 20 days following the end of the quarter.

(d) The state fund shall pay the portion of the assessment attributable to claims arising before July 1, 1990, by July 1.

(e) If a plan No. 1 employer, a plan No. 2 insurer, or plan No. 3, the state fund, fails to timely pay to the department the assessment or assessment premium surcharge under this section, the department may impose on the plan No. 1 employer, the plan No. 2 insurer, or plan No. 3, the state fund, an administrative fine of \$100 plus interest on the delinquent amount at the annual interest rate of 12%. Administrative fines and interest must be deposited in the fund.

(9) The amount of the assessment premium surcharge actually collected pursuant to subsection (7) must be compared each year to the amount assessed and upon which the premium surcharge was calculated. The amount undercollected or overcollected in any given year must be used as an adjustment to the numerator provided for by subsection (6) for the following year's assessment premium surcharge.

(10) If the total assessment is less than \$200,000 for any year, the department may defer the assessment amount for that year and add that amount to the assessment amount for the subsequent year."

Section 7. Section 39-71-2105, MCA, is amended to read:

"39-71-2105. Additional proof of solvency — revocation of order. (1)

The department, with the concurrence of the Montana self-insurers guaranty fund, may at any time require from any employer acting under compensation plan No. 1 additional proof of solvency and financial ability to pay the ~~compensation benefits~~ provided by this chapter ~~and may at any time, upon notice to the employer of not less than 10 or more than 20 days, after and upon a full hearing, revoke any order or approval.~~

(2) The department may, after providing an opportunity for an administrative review conference to consider information submitted by a plan No. 1 employer, revoke any order of approval upon 20 days' notice to the employer. A decision to revoke approval involving a plan No. 1 employer who is a member of the Montana self-insurers guaranty fund requires the concurrence of the guaranty fund. A plan No. 1 employer that is dissatisfied with the decision following the administrative review conference may appeal the decision and request a contested case hearing pursuant to 39-71-2401(2).

(3) A decision revoking an order of approval is final unless the employer files an appeal with the department within 20 days of the issuance of the notice. An employer may not continue to self insure after the 20-day period provided for in subsection (2) has expired unless the department is satisfied that the employer has provided sufficient security and financial ability to pay the benefits provided by this chapter. A decision issued pursuant to this subsection involving a plan

No. 1 employer who is a member of the Montana self-insurers guaranty fund requires the concurrence of the guaranty fund."

Section 8. Section 39-71-2108, MCA, is amended to read:

"39-71-2108. Failure of employer to pay compensation benefits — duty of department. Upon the failure of the employer to pay any ~~compensation~~ *benefits* provided for in this chapter upon the terms, ~~and~~ in the amounts, and at the times when the ~~same becomes~~ *benefits become* due and payable, the department shall, upon demand of the person to whom ~~compensation is~~ *benefits are* due, apply any deposits made with the department to the payment of the ~~same~~ *benefits*, and the department shall take the proper steps to convert any securities on deposit with the department or sufficient ~~thereof deposits into cash and to pay the same upon~~ the liabilities of the employer accruing under the terms of this chapter, ~~and the~~. The department shall, when necessary, collect and enforce the collection of the liability of all sureties upon any bonds ~~which that~~ may be given by the employer to ~~insure~~ *ensure* the payment of ~~his the~~ employer's liability. ~~To these ends and for these purposes, the~~ The department ~~shall be deemed to be~~ *is considered* the owner of the deposit and security and the obligee in the bond in trust for the purposes and may proceed in its own name to recover upon the bonds or foreclose and liquidate the securities. *All interest earnings on liquidated security deposits must be retained by the department for payment of benefits pursuant to this section.*"

Section 9. Section 39-71-2203, MCA, is amended to read:

"39-71-2203. Content of policies — policies subject to approval, change, or revision by department. (1) All policies insuring the payment of compensation under this chapter must contain a clause to the effect that, as between the employee and the insurer;:

(a) the notice to or knowledge of the occurrence of the injury on the part of the insured ~~shall be deemed~~ *constitutes* notice or knowledge, as the case may be, on the part of the insurer;

(3) Every policy or contract insuring against liability for compensation under compensation plan No. 2 must contain a clause to the effect that the insurer ~~shall be~~ *is* directly and primarily liable to and will pay directly to the employee or in case of death to ~~his the~~ employee's beneficiaries or major or minor dependents; the compensation, if any, for which the employer is liable.

(4) Every ~~such~~ policy ~~shall must~~ at all times be subject to approval, change, or revision by the department and ~~shall must~~ contain the clauses, agreements, and promises required by this chapter.

(5) *All Montana operations of an employer, as defined in 39-71-117, covered under plan No. 2 must be insured by the same insurer.*"

Section 10. Section 39-71-2204, MCA, is amended to read:

"39-71-2204. Insurer to submit notice of coverage within thirty days — penalty for failure. (1) The insurer shall, within 30 days after the issuance of the policy of workers' compensation insurance, submit to the department the notice of coverage stating the effective date of the policy insuring the employer and other information that may be required by the department. *Beginning January 1, 2006, notice to the department under this section must be provided electronically.*

(2) The department:

(a) may recognize the advisory organization designated under 33-16-1023 or recognize other organizations as agents for authorized workers' compensation insurers in Montana; and

(b) shall, under terms and conditions acceptable to the department, accept notice of coverage received from the agents recognized under subsection (2)(a) as the insurer's notice of coverage.

(3) The department may, in its discretion, assess a penalty of no more than \$200 against an insurer that as a general business practice does not comply with the 30-day notice requirement set forth in subsection (1)."

Section 11. Section 39-71-2205, MCA, is amended to read:

"39-71-2205. Policy in effect until canceled or replaced — twenty-day notification of cancellation required — penalty. (1) The policy remains in effect until canceled, and cancellation may take effect only by written notice to the named insured and to the department at least 20 days prior to the date of cancellation. However, the policy terminates on the effective date of a replacement or succeeding workers' compensation insurance policy issued to the insured. Nothing in this section prevents an insurer from canceling a policy of workers' compensation insurance before a replacement policy is issued to the insured. *Beginning January 1, 2006, notice to the department under this section must be provided electronically.*

(2) The department:

(a) may recognize the advisory organization designated under 33-16-1023 or recognize other organizations as agents for authorized workers' compensation insurers in Montana; and

(b) shall, under terms and conditions acceptable to the department, accept notice of cancellation received from the agents recognized under subsection (2)(a) as the insurer's notice of cancellation.

(3) (a) The department may assess a penalty of up to \$200 against an insurer that does not comply with the notice requirement in subsection (1).

(b) An insurer may contest the penalty assessment in a hearing conducted according to department rules."

Section 12. Section 39-71-2336, MCA, is amended to read:

"39-71-2336. Manner of electing — contract or policy of insurance — payment of premium. The state fund shall prescribe the procedure by which an employer may elect to be bound by compensation plan No. 3, the effective time of the election, and the manner in which the election is terminated for reasons other than default in payment of premiums. Every employer electing to

be bound by compensation plan No. 3 must receive from the state fund a contract or policy of insurance in a form approved by the department. *All Montana operations of an employer, as defined in 39-71-117, covered by compensation plan No. 3 must be insured by the state compensation insurance fund.* The premium must be paid by the employer to the state fund at ~~such times as~~ *that* the state fund prescribes and must be paid over by the state fund to the state treasurer to the credit of the state fund.”

Section 13. Section 39-71-2337, MCA, is amended to read:

“39-71-2337. State fund to submit notice of coverage within thirty days — penalty for failure. (1) The state fund shall, within 30 days after the issuance of an insurance policy, submit to the department the notice of coverage stating the effective date of the policy insuring the employer and other information the department requires. *Beginning January 1, 2006, notice to the department under this section must be provided electronically.*

(2) The department:

(a) may recognize the advisory organization designated under 33-16-1023 or recognize other organizations as agents for the state fund; and

(b) shall, under terms and conditions acceptable to the department, accept notice of coverage received from the agents recognized under subsection (2)(a) as the state fund’s notice of coverage.

(3) The department may assess a penalty of no more than \$200 against the state fund if, as a general business practice, the state fund does not comply with the 30-day notice requirement.”

Section 14. Section 39-71-2339, MCA, is amended to read:

“39-71-2339. Cancellation of coverage — twenty days’ notice required. (1) The state fund may cancel an employer’s coverage under this part for failure to report payroll or pay the premiums due or for another cause provided in the insurance policy. Cancellation may take effect only by written notice to the named insured and the department at least 20 days prior to the date of cancellation or, in cases of nonreporting of payroll or nonpayment of a premium, by failure of the employer to submit payroll reports or pay a premium within 20 days after the due date. The state fund shall notify the department of the names and effective dates of all policies canceled. However, the policy terminates on the effective date of a replacement or succeeding insurance policy issued to the insured. This section does not prevent the state fund from canceling an insurance policy before a replacement policy is issued to the insured. After the cancellation date, the employer has the same status as an employer who is not enrolled under the Workers’ Compensation Act unless a replacement or succeeding insurance policy has been issued. *Beginning January 1, 2006, notice to the department under this section must be provided electronically.*

(2) The department:

(a) may recognize the advisory organization designated under 33-16-1023 or recognize other organizations as agents for the state fund; and

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-7-305, MCA, is amended to read:

“15-7-305. Realty transfer certificate required. (1) The county clerk and recorder shall require the parties to the transaction or their agents or representatives to complete a certificate declaring the consideration paid or to be paid for the real estate transferred.

(2) An instrument or deed evidencing a transfer of real estate may not be accepted for recordation until the certificate has been received by the county clerk and recorder. The validity or effectiveness of an instrument or deed between the parties to it is not affected by failure to comply with the provisions in this part.

(1) Except as provided in subsection (2), the certificate required by this part and the information contained in the certificate is not a public record and must be held confidential by the county clerk and recorder and the department. This is because the legislature finds that the demands of individual privacy outweigh the merits of public disclosure. The confidentiality provisions do not apply to compilations from the certificates or to summaries, analyses, and evaluations based upon the compilations.

(2) The confidentiality provisions of this section do not apply to the information in the clerk and recorder’s abbreviated copy of the realty transfer certificate or to the information contained in the *water right transfer certificate ownership update form* prepared and filed with the department of natural resources and conservation pursuant to 85-2-424 for purposes of maintaining a system of centralized water right records as mandated by Article IX, section 3(4), of the Montana constitution. A person may access water right transfer information through the department of natural resources and conservation pursuant to the department’s implementation of the requirements of 85-2-112(3).”

clerk and recorder of the county where the point of diversion or place of use is located or in which a transfer of water right occurred may require the department to provide a report of all water permits, certificates, change approvals, or water right transfer certificates ownership update forms issued or processed by the department pursuant to Title 85, chapter 2, parts 3 and 4.”

Section 5. Section 85-2-307, MCA, is amended to read:

“85-2-307. Notice of application for permit or change in appropriation right. (1) (a) Upon receipt of a correct and complete application for a permit or change in appropriation right, the department shall prepare a notice containing the facts pertinent to the application and shall publish the notice once in a newspaper of general circulation in the area of the source.

(b) Before the date of publication, the department shall also serve the notice by first-class mail upon:

(i) an appropriator of water or applicant for or holder of a permit who, according to the records of the department, may be affected by the proposed appropriation;

(ii) any purchaser under contract for deed, as defined in 70-20-115, of property that, according to the records of the department, may be affected by the proposed appropriation; and

(iii) any public agency that has reserved waters in the source under 85-2-316.

(c) The department may, in its discretion, also serve notice upon any state agency or other person the department feels may be interested in or affected by the proposed appropriation.

(2) The notice shall state that by a date set by the department (not less than 15 days or more than 60 days after the date of publication) persons may file with the department written objections to the application.

(3) The requirements of subsections (1) and (2) of this section do not apply if the department finds, on the basis of information reasonably available to it, that the appropriation as proposed in the application will not adversely affect the rights of other persons.”

Section 6. Section 85-2-308, MCA, is amended to read:

“85-2-308. Objections. (1) (a) An objection to an application under this chapter for a permit must be filed by the date specified by the department under 85-2-307(2).

(b) The objection to an application for a permit must state the name and address of the objector and facts indicating that one or more of the criteria in 85-2-311 are not met.

(2) For an application for a change in appropriation rights, the objection must state the name and address of the objector and facts indicating that one or more of the criteria in 85-2-402 are not met.

(3) A person has standing to file an objection under this section if the property, water rights, or interests of the objector would be adversely affected by the proposed appropriation.

(4) For an application for a reservation of water, the objection must state the name and address of the objector and facts indicating that one or more of the criteria in 85-2-316 are not met.

(5) An objector to an application under this chapter shall file a correct and complete objection on a form prescribed by the department within the time period stated on the public notice associated with the application. In order to assist both applicants and objectors, the department shall adopt rules in accordance with this chapter delineating the components of a correct and complete objection. For instream flow water rights for fish, wildlife, and recreation, the rules must require the objector to describe the reach or portion of the reach of the stream or river subject to the instream flow water right and the beneficial use that is adversely affected and to identify the point or points where the instream flow water right is measured and monitored. The department shall notify the objector of any defects in an objection. An objection not corrected or completed within 15 days from the date of notification of the defects is terminated.

(6) An objection is valid if the objector has standing pursuant to subsection (3), has filed a correct and complete objection within the prescribed time period, and has stated the applicable information required under this section and rules of the department."

Section 7. Section 85-2-310, MCA, is amended to read:

"85-2-310. Action on application for permit or change in appropriation right. (1) The department shall grant, deny, or condition an application for a permit *or change in appropriation right* in whole or in part within 120 days after the last date of publication of the notice of application if no objections have been received and within 180 days if a hearing is held or objections have been received. However, in either case the time may be extended upon agreement of the applicant; or, in those cases where an environmental impact statement must be prepared or in other extraordinary cases, *may be extended* by not more than 60 days upon order of the department. If the department orders the time extended, it shall serve a notice of the extension and the reasons for the extension by first-class mail upon the applicant and each person who has filed an objection as provided by 85-2-308.

(2) However, an application may not be *denied or* approved in a modified form or upon terms, conditions, or limitations specified by the department ~~or denied~~, unless the applicant is first granted an opportunity to be heard. If no objection is filed against the application but the department is of the opinion that the application should be *denied or* approved in a modified form or upon terms, conditions, or limitations specified by it ~~or that the application should be denied~~, the department shall prepare a statement of its opinion and its reasons for the opinion. The department shall serve a statement of its opinion by first-class mail upon the applicant, with a notice that the applicant may obtain a hearing by filing a request within 30 days after the notice is mailed. The notice must further state that the application will be modified in a specified manner or denied; unless a hearing is requested.

(3) The department may cease action upon an application for a permit *or change in appropriation right* and return it to the applicant when it finds that the application is not in good faith or does not show a bona fide intent to appropriate water for a beneficial use. An application returned for either of these reasons must be accompanied by a statement of the reasons for which it was returned, and *for a permit application* there is not a right to a priority date

based upon the filing of the application. Returning an application pursuant to this subsection is a final decision of the department.

(4) For all applications filed after July 1, 1973, the department shall find that an application is not in good faith or does not show a bona fide intent to appropriate water for a beneficial use if:

- (a) an application is not corrected and completed as required by 85-2-302;
- (b) the appropriate filing fee is not paid;
- (c) the application does not document:
 - (i) a beneficial use of water;
 - (ii) the proposed place of use of all water applied for;

(iii) for an appropriation of 4,000 acre-feet a year or more and 5.5 cubic feet per second or more, a detailed project plan describing when and how much water will be put to a beneficial use. The project plan must include a reasonable timeline for the completion of the project and the actual application of the water to a beneficial use.

(iv) for appropriations not covered in subsection (4)(c)(iii), a general project plan stating when and how much water will be put to a beneficial use; and

(v) if the water applied for is to be appropriated above that which will be used solely by the applicant or if it will be marketed by the applicant to other users, information detailing:

(A) each person who will use the water and the amount of water each person will use;

(B) the proposed place of use of all water by each person;

(C) the nature of the relationship between the applicant and each person using the water; and

(D) each firm contractual agreement for the specified amount of water for each person using the water; or

(d) the appropriate environmental impact statement fee, if any, is not paid as required by 85-2-124.”

Section 8. Section 85-2-314, MCA, is amended to read:

“85-2-314. Revocation or modification of permit or change in appropriation right. If the work on an appropriation is not commenced, prosecuted, or completed within the time stated in the permit or an extension thereof or of the time stated in the permit, if the water is not being applied to the beneficial use contemplated in the permit or change in appropriation right, or if the permit or change in appropriation right is otherwise not being followed, the department may, after notice, require the permittee or the holder of the change in appropriation right to show cause why the permit or change in appropriation right should not be modified or revoked. If the permittee or holder of the change in appropriation right fails to show sufficient cause, the department may modify or revoke the permit or change in appropriation right.”

Section 9. Section 85-2-316, MCA, is amended to read:

“85-2-316. State reservation of waters. (1) The state, any political subdivision or agency of the state, or the United States or any agency of the United States may apply to the department to acquire a state water reservation for existing or future beneficial uses or to maintain a minimum flow, level, or

quality of water throughout the year or at periods or for a length of time that the department designates.

(2) (a) Water may be reserved for existing or future beneficial uses in the basin where it is reserved, as described by the following basins:

(i) the Clark Fork River and its tributaries to its confluence with Lake Pend Oreille in Idaho;

(ii) the Kootenai River and its tributaries to its confluence with Kootenay Lake in British Columbia;

(iii) the St. Mary River and its tributaries to its confluence with the Oldman River in Alberta;

(iv) the Little Missouri River and its tributaries to its confluence with Lake Sakakawea in North Dakota;

(v) the Missouri River and its tributaries to its confluence with the Yellowstone River in North Dakota; and

(vi) the Yellowstone River and its tributaries to its confluence with the Missouri River in North Dakota.

(b) A state water reservation may be made for an existing or future beneficial use outside the basin where the diversion occurs only if stored water is not reasonably available for water leasing under 85-2-141 and the proposed use would occur in a basin designated in subsection (2)(a).

(3) Upon receiving a correct and complete application, the department shall proceed in accordance with 85-2-307 through 85-2-309. After the hearing provided for in 85-2-309, the department shall decide whether to reserve the water for the applicant. The department's costs of giving notice, holding the hearing, conducting investigations, and making records incurred in acting upon the application to reserve water, except the cost of salaries of the department's personnel, must be paid by the applicant. In addition, a reasonable proportion of the department's cost of preparing an environmental impact statement must be paid by the applicant unless waived by the department upon a showing of good cause by the applicant.

(4) (a) The department may not adopt an order reserving water unless the applicant establishes to the satisfaction of the department by a preponderance of evidence:

(i) the purpose of the reservation;

(ii) the need for the reservation;

(iii) the amount of water necessary for the purpose of the reservation;

(iv) that the reservation is in the public interest.

(b) In determining the public interest under subsection (4)(a)(iv), the department may not adopt an order reserving water for withdrawal and transport for use outside the state unless the applicant proves by clear and convincing evidence that:

(i) the proposed out-of-state use of water is not contrary to water conservation in Montana; and

(ii) the proposed out-of-state use of water is not otherwise detrimental to the public welfare of the citizens of Montana.

(c) In determining whether the applicant has proved by clear and convincing evidence that the requirements of subsections (4)(b)(i) and (4)(b)(ii) are met, the department shall consider the following factors:

(i) whether there are present or projected water shortages within the state of Montana;

(ii) whether the water that is the subject of the application could feasibly be transported to alleviate water shortages within the state of Montana;

(iii) the supply and sources of water available to the applicant in the state where the applicant intends to use the water; and

(iv) the demands placed on the applicant's supply in the state where the applicant intends to use the water.

(d) When applying for a state water reservation to withdraw and transport water for use outside the state, the applicant shall submit to and comply with the laws of the state of Montana governing the appropriation, lease, use, and reservation of water.

(5) If the purpose of the state water reservation requires construction of a storage or diversion facility, the applicant shall establish to the satisfaction of the department by a preponderance of evidence that there will be progress toward completion of the facility and accomplishment of the purpose with reasonable diligence in accordance with an established plan.

(6) The department shall limit any state water reservations after May 9, 1979, for maintenance of minimum flow, level, or quality of water that it awards at any point on a stream or river to a maximum of 50% of the average annual flow of record on gauged streams. Ungauged streams may be allocated at the discretion of the department.

(7) After the adoption of an order reserving waters, the department may reject an application and refuse a permit for the appropriation of reserved waters or may issue the permit subject to terms and conditions that it considers necessary for the protection of the objectives of the reservation.

(8) (a) A person desiring to use water reserved to a conservation district for agricultural purposes shall make application for the use with the district, and the district, upon approval of the application, shall inform the department of the approved use and issue the applicant an authorization for the use. The department shall maintain records of all uses of water reserved to conservation districts and be responsible, when requested by the districts, for rendering technical and administrative assistance within the department's staffing and budgeting limitations in the preparation and processing of the applications for the conservation districts. The department shall, within its staffing and budgeting limitations, complete any feasibility study requested by the districts within 12 months of the time that the request was made. The department shall extend the time allowed to develop a plan identifying projects for using a district's reservation as long as the conservation district makes a good faith effort, within its staffing and budget limitations, to develop a plan.

(b) Upon actual application of water to the proposed beneficial use, the authorized user shall notify the conservation district. The notification must contain a certified statement by a person with experience in the design, construction, or operation of project works for agricultural purposes describing how the reserved water was put to use. The department or the district may then inspect the appropriation to determine if it has been completed in substantial accordance with the authorization.

(9) Except as provided in 85-2-331, the priority of appropriation of a state water reservation and the relative priority of the reservation to permits with a later priority of appropriation must be determined according to this subsection (9), as follows:

(a) A state water reservation under this section has a priority of appropriation dating from the filing with the department of a notice of intention to apply for a state water reservation in a basin in which no other notice of intention to apply is currently pending. The notice of intention to apply must specify the basin in which the applicant is seeking a state water reservation.

(b) Upon receiving a notice of intention to apply for a state water reservation, the department shall identify all potential state water reservation applicants in the basin specified in the notice and notify each potential applicant of the opportunity to submit an application and to receive a state water reservation with the priority of appropriation as described in subsection (9)(a).

(c) To receive the priority of appropriation described in subsection (9)(a), the applicant shall submit a correct and complete state water reservation application within 1 year after the filing of the notice of intention to apply. Upon a showing of good cause, the department may extend the time for preparing the application.

(d) The department may by order subordinate a state water reservation to a permit or a certificate for ground water development issued pursuant to this part if:

(i) the permit application or the notice of completion of ground water development was accepted by the department before the date of the order granting the reservation;

(ii) the effect of subordinating the reservation to one or more permits or certificates for ground water development does not interfere substantially with the purpose of the reservation; and

(iii) in the case of a certificate for ground water development, the reservant consents to the subordination.

(e) The department shall by order establish the relative priority of state water reservations approved under this section that have the same day of priority. A state water reservation may not adversely affect any rights in existence at that time.

(10) The department shall, periodically but at least once every 10 years, review existing state water reservations to ensure that the objectives of the reservations are being met. When the objectives of a state water reservation are not being met, the department may extend, revoke, or modify the reservation. Any undeveloped water made available as a result of a revocation or modification under this subsection is available for appropriation by others pursuant to this part.

(11) The department may modify an existing or future order originally adopted to reserve water for the purpose of maintaining minimum flow, level, or quality of water, so as to reallocate the state water reservation or portion of the reservation to an applicant who is a qualified reservant under this section. Reallocation of water reserved pursuant to a state water reservation may be made by the department following notice and hearing if the department finds that all or part of the reservation is not required for its purpose and that the need for the reallocation has been shown by the applicant to outweigh the need shown by the original reservant. The transfer occurs upon the filing of a water right ~~transfer certificate~~ *ownership update form* with the department, together with an affidavit from the entity receiving the reservation establishing that the entity is a qualified reservant under subsection (1), that the entity agrees to comply with the requirements of this section and the conditions of the reservation, and that the entity can meet the objectives of the reservation as granted. If the transfer of a state water reservation involves a change in an appropriation right, the necessary approvals must be acquired pursuant to subsection (12).

(14) This section does not vest the department with the authority to alter a water right that is not a state water reservation.

(15) The department shall undertake a program to educate the public, other state agencies, and political subdivisions of the state as to the benefits of the state water reservation process and the procedures to be followed to secure the reservation of water. The department shall provide technical assistance to other state agencies and political subdivisions in applying for reservations under this section.

If the realty transfer certificate discloses a transfer of water rights, a water right ~~transfer certificate ownership update form~~ must be completed and filed with the department. The recording of the deed or other instrument may not be delayed because of the transfer of the water rights.

~~(3) Upon request of the department, the county clerk and recorder shall send to the department, on a monthly basis, a copy of the clerk and recorder's copy of any realty transfer certificate that discloses a transfer of water rights."~~

Section 13. Section 85-2-426, MCA, is amended to read:

Section 2. Section 53-21-126, MCA, is amended to read:

"53-21-126. Trial or hearing on petition. (1) The respondent must be present unless the respondent's presence has been waived as provided in 53-21-119(2), and the respondent must be represented by counsel at all stages of the trial. The trial must be limited to the determination of whether or not the respondent is suffering from a mental disorder and requires commitment. At the trial, the court shall consider all the facts relevant to the issues of whether the respondent is suffering from a mental disorder. If the court determines that the respondent is suffering from a mental disorder, the court shall then determine whether the respondent requires commitment. In determining whether the respondent requires commitment and the appropriate disposition under 53-21-127, the court shall consider the following:

(a) whether the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) whether the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) whether, because of a mental disorder, there is an imminent threat of injury to the respondent or to others because of the respondent's acts or omissions; and

(d) whether the respondent's mental disorder, as demonstrated by the respondent's recent acts or omissions, will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history.

(2) The standard of proof in a hearing held pursuant to this section is proof beyond a reasonable doubt with respect to any physical facts or evidence and clear and convincing evidence as to all other matters. However, the respondent's mental disorder must be proved to a reasonable medical certainty. Imminent threat of self-inflicted injury or injury to others must be proved by overt acts or

omissions, sufficiently recent in time as to be material and relevant as to the respondent's present condition.

(3) The professional person appointed by the court must be present for the trial and subject to cross-examination. The trial is governed by the Montana Rules of Civil Procedure. However, if the issues are tried by a jury, at least two-thirds of the jurors shall concur on a finding that the respondent is suffering from a mental disorder and requires commitment. The written report of the professional person that indicates the professional person's diagnosis may be attached to the petition, but any matter otherwise inadmissible, such as hearsay matter, is not admissible merely because it is contained in the report. The court may order the trial closed to the public for the protection of the respondent.

(4) The professional person may testify as to the ultimate issue of whether the respondent is suffering from a mental disorder and requires commitment. This testimony is insufficient unless accompanied by evidence from the professional person or others that:

(a) the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) because of a mental disorder, there is an imminent threat of injury to the respondent or to others because of the respondent's acts or omissions; or

(d) (i) the respondent's mental disorder:

(A) has resulted in recent acts, omissions, or behaviors that create difficulty in protecting the respondent's life or health;

(B) is treatable, with a reasonable prospect of success;

(C) has resulted in the respondent's refusing or being unable to consent to voluntary admission for treatment; and

(ii) will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history.

(5) The court, upon the showing of good cause and when it is in the best interests of the respondent, may order a change of venue.

(6) *An individual with a primary diagnosis of a mental disorder who also has a co-occurring diagnosis of chemical dependency may satisfy criteria for commitment under this part."*

Section 3. Section 85-2-402, MCA, is amended to read:

“85-2-402. (Temporary) Changes in appropriation rights. (1) The right to make a change subject to the provisions of this section in an existing water right, a permit, or a state water reservation is recognized and confirmed. In a change proceeding under this section, there is no presumption that an applicant for a change in appropriation right cannot establish lack of adverse effect prior to the adjudication of other rights in the source of supply pursuant to this chapter. Except as provided in 85-2-410 and subsections (15) and (16) of this section, an appropriator may not make a change in an appropriation right without the approval of the department or, if applicable, of the legislature. An applicant shall submit a correct and complete application.

(2) Except as provided in subsections (4) through (6), (15), and (16), the department shall approve a change in appropriation right if the appropriator proves by a preponderance of evidence that the following criteria are met:

(a) The proposed change in appropriation right will not adversely affect the use of the existing water rights of other persons or other perfected or planned uses or developments for which a permit or certificate has been issued or for which a state water reservation has been issued under part 3.

(b) Except for a lease authorization pursuant to 85-2-436, or a temporary change *in appropriation right* authorization ~~for instream use to maintain or~~

enhance streamflows to benefit the fishery resource pursuant to 85-2-408, ~~or water use pursuant to 85-2-439 when authorization does not require appropriation works~~, the proposed means of diversion, construction, and operation of the appropriation works are adequate.

(c) The proposed use of water is a beneficial use.

(d) Except for a lease authorization pursuant to 85-2-436 or a temporary change *in appropriation right* authorization pursuant to 85-2-408 ~~or 85-2-439 for instream flow to benefit the fishery resource~~, the applicant has a possessory interest, or the written consent of the person with the possessory interest, in the property where the water is to be put to beneficial use.

(e) If the change in appropriation right involves salvaged water, the proposed water-saving methods will salvage at least the amount of water asserted by the applicant.

(f) The water quality of an appropriator will not be adversely affected.

(g) The ability of a discharge permit holder to satisfy effluent limitations of a permit issued in accordance with Title 75, chapter 5, part 4, will not be adversely affected.

(3) The applicant is required to prove that the criteria in subsections (2)(f) and (2)(g) have been met only if a valid objection is filed. A valid objection must contain substantial credible information establishing to the satisfaction of the department that the criteria in subsection (2)(f) or (2)(g), as applicable, may not be met.

(4) The department may not approve a change in purpose of use or place of use of an appropriation of 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water unless the appropriator proves by a preponderance of evidence that:

(a) the criteria in subsection (2) are met; and

(b) the proposed change is a reasonable use. A finding of reasonable use must be based on a consideration of:

(i) the existing demands on the state water supply, as well as projected demands for water for future beneficial purposes, including municipal water supplies, irrigation systems, and minimum streamflows for the protection of existing water rights and aquatic life;

(ii) the benefits to the applicant and the state;

(iii) the effects on the quantity and quality of water for existing uses in the source of supply;

(iv) the availability and feasibility of using low-quality water for the purpose for which application has been made;

(v) the effects on private property rights by any creation of or contribution to saline seep; and

(vi) the probable significant adverse environmental impacts of the proposed use of water as determined by the department pursuant to Title 75, chapter 1, or Title 75, chapter 20.

(5) The department may not approve a change in purpose of use or place of use for a diversion that results in 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water being consumed unless:

(a) the applicant proves by clear and convincing evidence and the department finds that the criteria in subsections (2) and (4) are met; and

(b) for the withdrawal and transportation of appropriated water for out-of-state use, the department then petitions the legislature and the legislature affirms the decision of the department after one or more public hearings.

(6) The state of Montana has long recognized the importance of conserving its public waters and the necessity to maintain adequate water supplies for the state's water requirements, including requirements for federal non-Indian and Indian reserved water rights held by the United States for federal reserved lands and in trust for the various Indian tribes within the state's boundaries. Although the state of Montana also recognizes that, under appropriate conditions, the out-of-state transportation and use of its public waters are not in conflict with the public welfare of its citizens or the conservation of its waters, the following criteria must be met before out-of-state use may occur:

(a) The department and, if applicable, the legislature may not approve a change in appropriation right for the withdrawal and transportation of appropriated water for use outside the state unless the appropriator proves by clear and convincing evidence and, if applicable, the legislature approves after one or more public hearings that:

(i) depending on the volume of water diverted or consumed, the applicable criteria and procedures of subsection (2) or (4) are met;

(ii) the proposed out-of-state use of water is not contrary to water conservation in Montana; and

(iii) the proposed out-of-state use of water is not otherwise detrimental to the public welfare of the citizens of Montana.

(b) In determining whether the appropriator has proved by clear and convincing evidence that the requirements of subsections (6)(a)(ii) and (6)(a)(iii) will be met, the department and, if applicable, the legislature shall consider the following factors:

(i) whether there are present or projected water shortages within the state of Montana;

(ii) whether the water that is the subject of the proposed change in appropriation might feasibly be transported to alleviate water shortages within the state of Montana;

(iii) the supply and sources of water available to the applicant in the state where the applicant intends to use the water; and

(iv) the demands placed on the applicant's supply in the state where the applicant intends to use the water.

(c) When applying for a change in appropriation right to withdraw and transport water for use outside the state, the applicant shall submit to and comply with the laws of the state of Montana governing the appropriation and use of water.

(7) For any application for a change in appropriation right involving 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water, the department shall give notice of the proposed change in accordance with 85-2-307 and shall hold one or more hearings in accordance with 85-2-309 prior to its approval or denial of the proposed change. The department shall provide notice

and may hold one or more hearings upon any other proposed change *in appropriation right* if it determines that the proposed change might adversely affect the rights of other persons.

(8) The department or the legislature, if applicable, may approve a change *in appropriation right* subject to the terms, conditions, restrictions, and limitations that it considers necessary to satisfy the criteria of this section, including limitations on the time for completion of the change. The department may extend time limits specified in the change approval under the applicable criteria and procedures of 85-2-312(3).

(9) Upon actual application of water to the proposed beneficial use within the time allowed, the appropriator shall notify the department that the appropriation has been completed. The notification must contain a certified statement by a person with experience in the design, construction, or operation of appropriation works describing how the appropriation was completed.

(10) If a change *in appropriation right* is not completed as approved by the department or legislature or if the terms, conditions, restrictions, and limitations of the change approval are not complied with, the department may, after notice and opportunity for hearing, require the appropriator to show cause why the change approval should not be modified or revoked. If the appropriator fails to show sufficient cause, the department may modify or revoke the change approval.

(11) The original of a change approval issued by the department must be sent to the applicant, and a duplicate must be kept in the office of the department in Helena.

(12) A person holding an issued permit or change approval that has not been perfected may change the place of diversion, place of use, purpose of use, or place of storage by filing an application for change pursuant to this section.

(13) A change in appropriation right contrary to the provisions of this section is invalid. An officer, agent, agency, or employee of the state may not knowingly permit, aid, or assist in any manner an unauthorized change in appropriation right. A person or corporation may not, directly or indirectly, personally or through an agent, officer, or employee, attempt to change an appropriation right except in accordance with this section.

(14) The department may adopt rules to implement the provisions of this section.

(15) (a) An appropriator may change an appropriation right for a replacement well without the prior approval of the department if:

(i) the appropriation right is for:

(A) ground water outside the boundaries of a controlled ground water area;

or

(B) ground water inside the boundaries of a controlled ground water area and if the provisions of the order declaring the controlled ground water area do not restrict such a change;

(ii) the change in appropriation right is to replace an existing well and the existing well will no longer be used;

(iii) the rate and volume of the appropriation from the replacement well are equal to or less than that of the well being replaced and do not exceed:

(A) 450 gallons a minute for a municipal well; or

(B) 35 gallons a minute and 10 acre-feet a year for all other wells;

(iv) the water from the replacement well is appropriated from the same aquifer as the water appropriated from the well being replaced; and

(v) a timely, correct and complete notice of replacement well is submitted to the department as provided in subsection (15)(b).

(b) (i) After completion of a replacement well and appropriation of ground water for a beneficial use, the appropriator shall file a notice of replacement well with the department on a form provided by the department.

(ii) The department shall review the notice of replacement well and shall issue an authorization of a change in an appropriation right if all of the criteria in subsection (15)(a) have been met and the notice is correct and complete.

(iii) The department may not issue an authorization of a change in appropriation right until a correct and complete notice of replacement well has been filed with the department. The department shall return a defective notice to the appropriator, along with a description of defects in the notice. The appropriator shall refile a corrected and completed notice of replacement well within 30 days of notification of defects or within a further time as the department may allow, not to exceed 6 months.

(iv) If a notice of replacement well is not completed within the time allowed, the appropriator shall:

(A) cease appropriation of water from the replacement well pending approval by the department; and

(B) submit an application for a change in appropriation right to the department pursuant to subsections (1) through (3).

(c) The provisions of this subsection (15) do not apply to an appropriation right abandoned under 85-2-404.

(d) For each well that is replaced under this subsection (15), the appropriator shall follow the well abandonment procedures, standards, and rules adopted by the board of water well contractors pursuant to 37-43-202.

(e) The provisions of subsections (2), (3), (9), and (10) do not apply to a change in appropriation right that meets the requirements of subsection (15)(a).

(16) (a) An appropriator may change an appropriation right without the prior approval of the department for the purpose of constructing a redundant water supply well in a public water supply system, as defined in 75-6-102, if the redundant water supply well:

(i) withdraws water from the same ground water source as the original well; and

(ii) is required by a state or federal agency.

(b) The priority date of the redundant water supply well is the same as the priority date of the original well. Only one well may be used at one time.

(c) Within 60 days of completion of a redundant water supply well, the appropriator shall file a notice of construction of the well with the department on a form provided by the department. The department may return a defective notice of construction to the appropriator for correction and completion.

(d) The provisions of subsections (9) and (10) do not apply to a change in appropriation right that meets the requirements of this section.

~~(11) The original of a change approval issued by the department must be sent to the applicant, and a duplicate must be kept in the office of the department in Helena.~~

~~(12) A person holding an issued permit or change approval that has not been perfected may change the place of diversion, place of use, purpose of use, or place of storage by filing an application for change pursuant to this section.~~

~~(14) The department may adopt rules to implement the provisions of this section.~~

~~(15) (a) An appropriator may change an appropriation right for a replacement well without the prior approval of the department if:~~

~~(i) the appropriation right is for:~~

~~(A) ground water outside the boundaries of a controlled ground water area; or~~

~~(B) ground water inside the boundaries of a controlled ground water area and if the provisions of the order declaring the controlled ground water area do not restrict such a change;~~

~~(iv) the water from the replacement well is appropriated from the same aquifer as the water appropriated from the well being replaced; and~~

~~(v) a timely, correct and complete notice of replacement well is submitted to the department as provided in subsection (15)(b).~~

~~(b) (i) After completion of a replacement well and appropriation of ground water for a beneficial use, the appropriator shall file a notice of replacement well with the department on a form provided by the department.~~

~~(iii) The department may not issue an authorization of a change in appropriation right until a correct and complete notice of replacement well has been filed with the department. The department shall return a defective notice to the appropriator, along with a description of defects in the notice. The appropriator shall refile a corrected and completed notice of replacement well within 30 days of notification of defects or within a further time as the department may allow, not to exceed 6 months.~~

~~(iv) If a notice of replacement well is not completed within the time allowed, the appropriator shall:~~

~~(16) (a) An appropriator may change an appropriation right without the prior approval of the department for the purpose of constructing a redundant water supply well in a public water supply system, as defined in 75-6-102, if the redundant water supply well:~~

~~(i) withdraws water from the same ground water source as the original well; and~~

~~(ii) is required by a state or federal agency.~~

~~(b) The priority date of the redundant water supply well is the same as the priority date of the original well. Only one well may be used at one time.~~

~~(c) Within 60 days of completion of a redundant water supply well, the appropriator shall file a notice of construction of the well with the department on a form provided by the department. The department may return a defective notice of construction to the appropriator for correction and completion.~~

~~(d) The provisions of subsections (9) and (10) do not apply to a change in appropriation right that meets the requirements of this section. (Terminates June 30, 2009—sec. 9, Ch. 123, L. 1999.)~~

85-2-402. (Effective July 1, 2009) Changes in appropriation rights.

(1) The right to make a change subject to the provisions of this section in an existing water right, a permit, or a state water reservation is recognized and confirmed. In a change proceeding under this section, there is no presumption that an applicant for a change in appropriation right cannot establish lack of adverse effect prior to the adjudication of other rights in the source of supply pursuant to this chapter. Except as provided in 85-2-410 and subsections (15) and (16) of this section, an appropriator may not make a change in an appropriation right without the approval of the department or, if applicable, of the legislature. An applicant shall submit a correct and complete application.

(2) Except as provided in subsections (4) through (6), (15), and (16), the department shall approve a change in appropriation right if the appropriator proves by a preponderance of evidence that the following criteria are met:

(a) The proposed change in appropriation right will not adversely affect the use of the existing water rights of other persons or other perfected or planned uses or developments for which a permit or certificate has been issued or for which a state water reservation has been issued under part 3.

(b) ~~The~~ *Except for a temporary change in appropriation right authorization to maintain or enhance streamflows to benefit the fishery resource pursuant to 85-2-408,* the proposed means of diversion, construction, and operation of the appropriation works are adequate.

(c) The proposed use of water is a beneficial use.

(d) ~~The~~ *Except for a temporary change in appropriation right authorization pursuant to 85-2-408,* the applicant has a possessory interest, or the written consent of the person with the possessory interest, in the property where the water is to be put to beneficial use.

(e) If the change in appropriation right involves salvaged water, the proposed water-saving methods will salvage at least the amount of water asserted by the applicant.

(f) The water quality of an appropriator will not be adversely affected.

(g) The ability of a discharge permit holder to satisfy effluent limitations of a permit issued in accordance with Title 75, chapter 5, part 4, will not be adversely affected.

(3) The applicant is required to prove that the criteria in subsections (2)(f) and (2)(g) have been met only if a valid objection is filed. A valid objection must contain substantial credible information establishing to the satisfaction of the department that the criteria in subsection (2)(f) or (2)(g), as applicable, may not be met.

(4) The department may not approve a change in purpose of use or place of use of an appropriation of 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water unless the appropriator proves by a preponderance of evidence that:

(a) the criteria in subsection (2) are met; and

(b) the proposed change is a reasonable use. A finding of reasonable use must be based on a consideration of:

(i) the existing demands on the state water supply, as well as projected demands for water for future beneficial purposes, including municipal water supplies, irrigation systems, and minimum streamflows for the protection of existing water rights and aquatic life;

(ii) the benefits to the applicant and the state;

(iii) the effects on the quantity and quality of water for existing uses in the source of supply;

(iv) the availability and feasibility of using low-quality water for the purpose for which application has been made;

(v) the effects on private property rights by any creation of or contribution to saline seep; and

(vi) the probable significant adverse environmental impacts of the proposed use of water as determined by the department pursuant to Title 75, chapter 1, or Title 75, chapter 20.

(5) The department may not approve a change in purpose of use or place of use for a diversion that results in 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water being consumed unless:

(a) the applicant proves by clear and convincing evidence and the department finds that the criteria in subsections (2) and (4) are met; and

(b) for the withdrawal and transportation of appropriated water for out-of-state use, the department then petitions the legislature and the legislature affirms the decision of the department after one or more public hearings.

(6) The state of Montana has long recognized the importance of conserving its public waters and the necessity to maintain adequate water supplies for the state's water requirements, including requirements for *federal non-Indian and Indian* reserved water rights held by the United States for federal reserved lands and in trust for the various Indian tribes within the state's boundaries. Although the state of Montana also recognizes that, under appropriate conditions, the out-of-state transportation and use of its public waters are not in conflict with the public welfare of its citizens or the conservation of its waters, the following criteria must be met before out-of-state use may occur:

(a) The department and, if applicable, the legislature may not approve a change in appropriation right for the withdrawal and transportation of appropriated water for use outside the state unless the appropriator proves by clear and convincing evidence and, if applicable, the legislature approves after one or more public hearings that:

(i) depending on the volume of water diverted or consumed, the applicable criteria and procedures of subsection (2) or (4) are met;

(ii) the proposed out-of-state use of water is not contrary to water conservation in Montana; and

(iii) the proposed out-of-state use of water is not otherwise detrimental to the public welfare of the citizens of Montana.

(b) In determining whether the appropriator has proved by clear and convincing evidence that the requirements of subsections (6)(a)(ii) and (6)(a)(iii) will be met, the department and, if applicable, the legislature shall consider the following factors:

(i) whether there are present or projected water shortages within the state of Montana;

(ii) whether the water that is the subject of the proposed change in appropriation might feasibly be transported to alleviate water shortages within the state of Montana;

(iii) the supply and sources of water available to the applicant in the state where the applicant intends to use the water; and

(iv) the demands placed on the applicant's supply in the state where the applicant intends to use the water.

(c) When applying for a change in appropriation right to withdraw and transport water for use outside the state, the applicant shall submit to and comply with the laws of the state of Montana governing the appropriation and use of water.

(7) For any application for a change in appropriation right involving 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water, the department shall give notice of the proposed change in accordance with 85-2-307 and shall hold one or more hearings in accordance with 85-2-309 prior to its approval or denial of the proposed change. The department shall provide notice and may hold one or more hearings upon any other proposed change *in appropriation right* if it determines that the proposed change might adversely affect the rights of other persons.

(8) The department or the legislature, if applicable, may approve a change *in appropriation right* subject to the terms, conditions, restrictions, and limitations that it considers necessary to satisfy the criteria of this section, including limitations on the time for completion of the change. The department may extend time limits specified in the change approval under the applicable criteria and procedures of 85-2-312(3).

(9) Upon actual application of water to the proposed beneficial use within the time allowed, the appropriator shall notify the department that the appropriation has been completed. The notification must contain a certified statement by a person with experience in the design, construction, or operation of appropriation works describing how the appropriation was completed.

(10) If a change *in appropriation right* is not completed as approved by the department or legislature or if the terms, conditions, restrictions, and limitations of the change approval are not complied with, the department may, after notice and opportunity for hearing, require the appropriator to show cause why the change approval should not be modified or revoked. If the appropriator fails to show sufficient cause, the department may modify or revoke the change approval.

(11) The original of a change approval issued by the department must be sent to the applicant, and a duplicate must be kept in the office of the department in Helena.

(12) A person holding an issued permit or change approval that has not been perfected may change the place of diversion, place of use, purpose of use, or place of storage by filing an application for change pursuant to this section.

(13) A change in appropriation right contrary to the provisions of this section is invalid. An officer, agent, agency, or employee of the state may not knowingly permit, aid, or assist in any manner an unauthorized change in appropriation right. A person or corporation may not, directly or indirectly, personally or through an agent, officer, or employee, attempt to change an appropriation right except in accordance with this section.

(14) The department may adopt rules to implement the provisions of this section.

(15) (a) An appropriator may change an appropriation right for a replacement well without the prior approval of the department if:

(i) the appropriation right is for:

(A) ground water outside the boundaries of a controlled ground water area;

or

(B) ground water inside the boundaries of a controlled ground water area and if the provisions of the order declaring the controlled ground water area do not restrict such a change;

(ii) the change in appropriation right is to replace an existing well and the existing well will no longer be used;

(iii) the rate and volume of the appropriation from the replacement well are equal to or less than that of the well being replaced and do not exceed:

(A) 450 gallons a minute for a municipal well; or

(B) 35 gallons a minute and 10 acre-feet a year for all other wells;

(iv) the water from the replacement well is appropriated from the same aquifer as the water appropriated from the well being replaced; and

(v) a timely, correct and complete notice of replacement well is submitted to the department as provided in subsection (15)(b).

(b) (i) After completion of a replacement well and appropriation of ground water for a beneficial use, the appropriator shall file a notice of replacement well with the department on a form provided by the department.

(ii) The department shall review the notice of replacement well and shall issue an authorization of a change in an appropriation right if all of the criteria in subsection (15)(a) have been met and the notice is correct and complete.

(iii) The department may not issue an authorization of a change in appropriation right until a correct and complete notice of replacement well has

been filed with the department. The department shall return a defective notice to the appropriator, along with a description of defects in the notice. The appropriator shall refile a corrected and completed notice of replacement well within 30 days of notification of defects or within a further time as the department may allow, not to exceed 6 months.

(iv) If a notice of replacement well is not completed within the time allowed, the appropriator shall:

(A) cease appropriation of water from the replacement well pending approval by the department; and

(B) submit an application for a change in appropriation right to the department pursuant to subsections (1) through (3).

(c) The provisions of this subsection (15) do not apply to an appropriation right abandoned under 85-2-404.

(d) For each well that is replaced under this subsection (15), the appropriator shall follow the well abandonment procedures, standards, and rules adopted by the board of water well contractors pursuant to 37-43-202.

(e) The provisions of subsections (2), (3), (9), and (10) do not apply to a change in appropriation right that meets the requirements of subsection (15)(a).

(16) (a) An appropriator may change an appropriation right without the prior approval of the department for the purpose of constructing a redundant water supply well in a public water supply system, as defined in 75-6-102, if the redundant water supply well:

(i) withdraws water from the same ground water source as the original well; and

(ii) is required by a state or federal agency.

(b) The priority date of the redundant water supply well is the same as the priority date of the original well. Only one well may be used at one time.

(c) Within 60 days of completion of a redundant water supply well, the appropriator shall file a notice of construction of the well with the department on a form provided by the department. The department may return a defective notice of construction to the appropriator for correction and completion.

(d) The provisions of subsections (9) and (10) do not apply to a change in appropriation right that meets the requirements of this section."

"85-2-404. (Temporary) Abandonment of appropriation right. "85-2-408. (Temporary) Temporary change authorization for instream flow — additional requirements. (1) The department shall accept and process an application for a temporary change in appropriation rights to maintain or enhance instream flow to benefit the fishery resource under the provisions of 85-2-402, 85-2-407, and this section. *The application must:*

(a) *include specific information on the length and location of the stream reach in which the streamflow is to be maintained or enhanced; and*

(b) *provide a detailed streamflow measuring plan that describes the point where and the manner in which the streamflow must be measured.*

(2) ~~(a) A temporary change authorization under the provisions of this section is allowable only if the owner of the water right voluntarily agrees to:~~

(a) the temporary change authorization for water to maintain and enhance instream flow to benefit the fishery resource, as measured at a specific point, will not adversely affect the water rights of other persons; and

(b) the amount of water for the proposed use is needed to maintain or enhance instream flows to benefit the fishery resource.

(4)(4) The department shall approve the method of measurement of the water to maintain and enhance instream flow to benefit the fishery resource through a temporary change authorization as provided in this section.

~~(5) For the purpose of identifying and consulting with individuals or groups that may be affected by the proposed change authorization, the applicant shall, 30 days before submitting the application to the department, publish notice of the proposed change authorization in a local newspaper of general circulation in the county or counties affected.~~

~~(6)~~(5) Only the owner of the water right may seek enforcement of the temporary change authorization or object under 85-2-308.

~~(7)~~(6) A temporary change authorization under this section does not create a right of access across private property or allow any infringement of private property rights.

Section 7. Section 85-2-419, MCA, is amended to read:

"85-2-419. Salvaged water. It is the declared policy of the state in 85-1-101 to encourage the conservation and full use of water. Consistent with this policy, holders of appropriation rights who salvage water may retain the right to the salvaged water for beneficial use. Except for a short-term lease pursuant to 85-2-410, any use of the right to salvaged water for any purpose or in any place other than that associated with the original appropriation right must be approved by the department as a change in appropriation right in accordance with 85-2-402. - (i) the length of the stream reach and how it is determined;
- (ii) technical methods and data used to determine critical streamflow or volume needed to preserve fisheries;
- (iii) legal standards and technical data used to determine and substantiate the amount of water available for instream flows through leasing of existing rights;
- (iv) contractual parameters, conditions, and other steps taken to ensure that each lease in no way harms other appropriators, particularly if the stream is one that experiences natural dewatering; and
- (v) methods and technical means used to monitor use of water under each lease;

(b) based on the data provided under subsection (1)(a), develops a complete model of a water lease and lease authorization that includes a step-by-step explanation of the process from initiation to completion.

(b) The department of fish, wildlife, and parks, with the consent of the commission, may lease existing rights for the purpose of maintaining or enhancing streamflows for the benefit of fisheries in stream reaches determined eligible by the department pursuant to 85-2-437.

(c) Upon receipt of a correct and complete application for a lease from the department of fish, wildlife, and parks, the department shall publish notice of the application as provided in 85-2-307. Parties who believe that they may be adversely affected by the proposed lease may file an objection as provided in 85-2-308. A lease may not be approved until all objections are resolved. After resolving all objections filed under 85-2-308, the department shall authorize a lease of an existing right for the purpose of maintaining or enhancing streamflows for the benefit of fisheries if the applicant submits a correct and complete application and meets the requirements of 85-2-402.

Upon

receiving notice of a lease renewal, the department shall notify other appropriators potentially affected by the lease and shall allow 30 days for submission of new evidence of adverse effects to other water rights. A lease authorization is not required for a renewal unless an appropriator other than an appropriator described in subsection (2)(j) submits evidence of adverse effects to the appropriator's rights that has not been considered previously. If new evidence is submitted, a lease authorization must be obtained according to the requirements of 85-2-402.

(g) During the term of the lease, the department may modify or revoke the lease authorization if an appropriator other than an appropriator described in subsection (2)(j) proves by a preponderance of evidence that the appropriator's water right is adversely affected.

(h) The priority of appropriation for a lease under this section is the same as the priority of appropriation of the right that is leased.

(i) Neither a change in appropriation right nor any other authorization is required for the reversion of the appropriation right to the lessor's previous use.

(j) A person issued a water use permit with a priority of appropriation after the date of filing of an application for a lease authorization under this section may not object to the exercise of the lease according to its terms or the reversion of the appropriation right to the lessor according to the lessor's previous use.

(k) The department of fish, wildlife, and parks shall pay all costs associated with installing devices or providing personnel to measure streamflows according to the measuring plan submitted under this section.

(3) (a) The department of fish, wildlife, and parks shall complete and submit to the department, commission, and environmental quality council an annual study progress report by December 1 of each year. This report must include the applicable information listed in subsection (1) for each lease, a summary of stream reach designation activity under 85-2-437, and a summary of leasing activity on all designated streams. If the department of fish, wildlife, and parks has not leased additional water rights under this section by December 1 of any year, the department of fish, wildlife, and parks shall provide compelling justification for that fact in the study progress report.

(b) A final study report must be adopted by the department and commission and submitted to the environmental quality council, which shall complete the final report by December 1, 2008.

(4) This section does not create the right for a person to bring suit to compel the renewal of a lease that has expired. (Terminates June 30, 2009—sec. 9, Ch. 123, L. 1999.)”

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 39-71-105, MCA, is amended to read:

“39-71-105. Declaration of public policy. For the purposes of interpreting and applying Title 39, chapters 71 and 72, the following is the public policy of this state:

(1) It is an objective of the Montana workers' compensation system to provide, without regard to fault, ~~wage supplement~~ *wage-loss* and medical benefits to a worker suffering from a work-related injury or disease. Wage-loss benefits are not intended to make an injured worker whole; they are intended to assist a worker at a reasonable cost to the employer. Within that limitation, the wage-loss benefit should bear a reasonable relationship to actual wages lost as a result of a work-related injury or disease.

(2) A worker's removal from the work force due to a work-related injury or disease has a negative impact on the worker, the worker's family, the employer, and the general public. Therefore, it is an objective of the workers' compensation system to return a worker to work as soon as possible after the worker has suffered a work-related injury or disease.

(3) Montana's workers' compensation and occupational disease insurance systems are intended to be primarily self-administering. Claimants should be able to speedily obtain benefits, and employers should be able to provide coverage at reasonably constant rates. To meet these objectives, the system must be designed to minimize reliance upon lawyers and the courts to obtain benefits and interpret liabilities.

(4) Title 39, chapters 71 and 72, must be construed according to their terms and not liberally in favor of any party.

(5) It is the intent of the legislature that stress claims, often referred to as "mental-mental claims" and "mental-physical claims", are not compensable under Montana's workers' compensation and occupational disease laws. The legislature recognizes that these claims are difficult to objectively verify and that the claims have a potential to place an economic burden on the workers' compensation and occupational disease system. The legislature also recognizes that there are other states that do not provide compensation for various categories of stress claims and that stress claims have presented economic problems for certain other jurisdictions. In addition, not all injuries are compensable under the present system, ~~as is the case with repetitive injury claims~~, and it is within the legislature's authority to define the limits of the workers' compensation and occupational disease system."

Section 2. Section 39-71-107, MCA, is amended to read:

"39-71-107. Insurers to act promptly on claims — in-state adjusters.

(1) Pursuant to the public policy stated in 39-71-105, prompt claims handling practices are necessary to provide appropriate service to injured workers, to employers, and to providers who are the customers of the workers' compensation system.

(2) All workers' compensation and occupational disease claims filed pursuant to the Workers' Compensation Act and the Occupational Disease Act of Montana must be adjusted by a person in Montana. For a claim to be considered as adjusted by a person in Montana, the person adjusting the claim is required to determine the entitlement to benefits, authorize payment of all benefits due, manage the claim, have authority to settle the claim, maintain an office located in Montana, and adjust Montana claims from that office. Use of a mailbox or maildrop in Montana does not constitute maintaining an office in Montana.

(3) An insurer shall maintain the documents related to each claim filed with the insurer under the Workers' Compensation Act and the Occupational Disease Act of Montana at the Montana office of the person adjusting the claim in Montana until the claim is settled. The documents may be either original documents or duplicates of the original documents and must be maintained in a manner that allows the documents to be retrieved from that office and copied at the request of the claimant or the department. Settled claim files stored outside of the adjuster's office must be made available within 48 hours of a request for the file. Electronic or optically imaged documents are permitted.

(4) An insurer shall provide to the claimant:

(a) a written statement of the reasons that a claim is being denied at the time of denial;

(b) whenever benefits requested by a claimant are denied, a written explanation of how the claimant may appeal an insurer's decision; and

(c) a written explanation of the amount of wage loss benefits being paid to the claimant, along with an explanation of the calculation used to compute those benefits. The explanation must be sent within 7 days of the initial payment of the benefit.

(5) An insurer shall:

(a) begin making payments that are due on a claim within 14 days of acceptance of the claim, unless the insurer promptly notifies the claimant that the insurer needs additional information in order to begin paying benefits and specifies the information needed; and

(b) pay settlements within 30 days of the date the department issues an order approving the settlement.

~~(6) An insurer may not make payments pursuant to 39-71-608 or any other reservation of rights for more than 90 days without:~~

~~(a) written consent of the claimant; or~~

~~(b) approval of the department.~~

~~(7)(6)~~ The department may adopt rules to implement this section.

~~(8)(7)~~ For purposes of this section, "settled claim" means a department-approved or court-ordered compromise of benefits between a claimant and an insurer or a claim that was paid in full. The term does not include a claim in which there has been only a lump-sum advance of benefits."

Section 3. Section 39-71-201, MCA, is amended to read:

"39-71-201. Administration fund. (1) A workers' compensation administration fund is established out of which all costs of administering the Workers' Compensation and Occupational Disease Acts and the statutory occupational safety acts the department is required to administer, with the exception of the subsequent injury fund, as provided for in 39-71-907, and the uninsured employers' fund, are to be paid upon lawful appropriation. The department shall collect and deposit in the state treasury to the credit of the workers' compensation administration fund:

(a) all fees and penalties provided in 39-71-205, 39-71-223, 39-71-304, 39-71-307, ~~39-71-308~~, 39-71-315, 39-71-316, 39-71-401(6), 39-71-2204, 39-71-2205, and 39-71-2337; and

(b) all fees paid by an assessment of 3% of paid losses, plus administrative fines and interest provided by this section.

(2) For the purposes of this section, paid losses include the following benefits paid during the preceding calendar year for injuries covered by the Workers' Compensation Act and the Occupational Disease Act of Montana without regard to the application of any deductible whether the employer or the insurer pays the losses:

(a) total compensation benefits paid; and

(b) except for medical benefits in excess of \$200,000 for each occurrence that are exempt from assessment, total medical benefits paid for medical treatment

rendered to an injured worker, including hospital treatment and prescription drugs.

(3) Each plan No. 1 employer, plan No. 2 insurer subject to the provisions of this section, and plan No. 3, the state fund, shall file annually on March 1 in the form and containing the information required by the department a report of paid losses pursuant to subsection (2).

(4) Each employer enrolled under compensation plan No. 1, compensation plan No. 2, or compensation plan No. 3, the state fund, shall pay a proportionate share of all costs of administering and regulating the Workers' Compensation Act and the Occupational Disease Act of Montana and the statutory occupational safety acts that the department is required to administer, with the exception of the subsequent injury fund, as provided for in 39-71-907, and the uninsured employers' fund. In addition, compensation plan No. 3, the state fund, shall pay a proportionate share of these costs based upon paid losses for claims arising before July 1, 1990.

(5) (a) Each employer enrolled under compensation plan No. 1 shall pay an assessment to fund administrative and regulatory costs. The assessment is equal to 3% of the paid losses paid in the preceding calendar year by or on behalf of the plan No. 1 employer or \$500, whichever is greater. Any entity, other than the department, that assumes the obligations of an employer enrolled under compensation plan No. 1 is considered to be the employer for the purposes of this section.

(b) An employer formerly enrolled under compensation plan No. 1 shall pay an assessment to fund administrative and regulatory costs. The assessment is equal to 3% of the paid losses paid in the preceding calendar year by or on behalf of the employer for claims arising out of the time when the employer was enrolled under compensation plan No. 1.

(c) Payment of the assessment provided for by this subsection (5) must be paid by the employer in:

- (i) one installment due on July 1; or
- (ii) two equal installments due on July 1 and December 31 of each year.

(d) If an employer fails to timely pay to the department the assessment under this section, the department may impose on the employer an administrative fine of \$500 plus interest on the delinquent amount at the annual interest rate of 12%. Administrative fines and interest must be deposited in the workers' compensation administration fund.

(6) (a) Compensation plan No. 3, the state fund, shall pay an assessment to fund administrative and regulatory costs attributable to claims arising before July 1, 1990. The assessment is equal to 3% of the paid losses paid in the preceding calendar year for claims arising before July 1, 1990. As required by 39-71-2352, the state fund may not pass along to insured employers the cost of the assessment for administrative and regulatory costs that is attributable to claims arising before July 1, 1990.

(b) Payment of the assessment must be paid in:

- (i) one installment due on July 1; or
- (ii) two equal installments due on July 1 and December 31 of each year.

(c) If the state fund fails to timely pay to the department the assessment under this section, the department may impose on the state fund an

administrative fine of \$500 plus interest on the delinquent amount at the annual interest rate of 12%. Administrative fines and interest must be deposited in the workers' compensation administration fund.

(7) (a) Each employer insured under compensation plan No. 2 or plan No. 3, the state fund, shall pay a premium surcharge to fund administrative and regulatory costs. The premium surcharge must be collected by each plan No. 2 insurer and by plan No. 3, the state fund, from each employer that it insures. The premium surcharge must be stated as a separate cost on an insured employer's policy or on a separate document submitted to the insured employer and must be identified as "workers' compensation regulatory assessment surcharge". The premium surcharge must be excluded from the definition of premiums for all purposes, including computation of insurance producers' commissions or premium taxes. However, an insurer may cancel a workers' compensation policy for nonpayment of the premium surcharge. When collected, assessments may not constitute an element of loss for the purpose of establishing rates for workers' compensation insurance but, for the purpose of collection, must be treated as a separate cost imposed upon insured employers.

(b) The amount to be funded by the premium surcharge is equal to 3% of the paid losses paid in the preceding calendar year by or on behalf of all plan No. 2 insurers and 3% of paid losses for claims arising on or after July 1, 1990, for plan No. 3, the state fund, plus or minus any adjustments as provided by subsection (7)(f). The amount to be funded must be divided by the total premium paid by all employers enrolled under compensation plan No. 2 or plan No. 3 during the preceding calendar year. A single premium surcharge rate, applicable to all employers enrolled in compensation plan No. 2 or plan No. 3, must be calculated annually by the department by not later than April 30. The resulting rate, expressed as a percentage, is levied against the premium paid by each employer enrolled under compensation plan No. 2 or plan No. 3 in the next fiscal year.

(c) On or before April 30, 2001, and on each succeeding April 30, the department, in consultation with the advisory organization designated pursuant to 33-16-1023, shall notify plan No. 2 insurers and plan No. 3, the state fund, of the premium surcharge percentage to be effective for policies written or renewed annually on and after July 1 of that year.

(d) The premium surcharge must be paid whenever the employer pays a premium to the insurer. Each insurer shall collect the premium surcharge levied against every employer that it insures. Each insurer shall pay to the department all money collected as a premium surcharge within 20 days of the end of the calendar quarter in which the money was collected. If an insurer fails to timely pay to the department the premium surcharge collected under this section, the department may impose on the insurer an administrative fine of \$500 plus interest on the delinquent amount at the annual interest rate of 12%. Administrative fines and interest must be deposited in the workers' compensation administration fund.

(e) If an employer fails to remit to an insurer the total amount due for the premium and premium surcharge, the amount received by the insurer must be applied to the premium surcharge first and the remaining amount applied to the premium due.

(f) The amount actually collected as a premium surcharge in a given year must be compared to the 3% of paid losses paid in the preceding year. Any amount collected in excess of the 3% must be deducted from the amount to be collected as a premium surcharge in the following year. The amount collected

that is less than the 3% must be added to the amount to be collected as a premium surcharge in the following year.

(8) On or before ~~April 30, 2001, and on each succeeding~~ April 30 of each year, upon a determination by the department, an insurer under compensation plan No. 2 that pays benefits in the preceding calendar year but that will not collect any premium for coverage in the following fiscal year shall pay an assessment equal to 3% of paid losses paid in the preceding calendar year, subject to a minimum assessment of \$500, that is due on July 1.

(9) An employer that makes a first-time application for permission to enroll under compensation plan No. 1 shall pay an assessment of \$500 within 15 days of being granted permission by the department to enroll under compensation plan No. 1.

(10) The department shall deposit all funds received pursuant to this section in the state treasury, as provided in this section.

(11) The administration fund must be debited with expenses incurred by the department in the general administration of the provisions of this chapter, including the salaries of its members, officers, and employees and the travel expenses of the members, officers, and employees, as provided for in 2-18-501 through 2-18-503, incurred while on the business of the department either within or without the state.

(12) Disbursements from the administration ~~money fund~~ must be made after being approved by the department upon claim for disbursement.

(13) The department may assess and collect the workers' compensation regulatory assessment surcharge from uninsured employers, as defined in 39-71-501, that fail to properly comply with the coverage requirements of the Workers' Compensation Act and the Occupational Disease Act of Montana. Any amounts collected by the department pursuant to this subsection must be deposited in the workers' compensation administration fund."

Section 4. Section 39-71-204, MCA, is amended to read:

"39-71-204. ~~Rescission~~ Hearings — rules of evidence — appeal, rescission, alteration, or amendment by department of its orders, decisions, or awards — effect — appeal. (1) *The statutory and common-law rules of evidence do not apply to a hearing before the department under this chapter. A petition for a hearing before the department must be filed within 2 years after benefits are denied.*

(2) *A hearing under this chapter may be conducted by telephone or by videoconference.*

~~(1)~~(3) The department has continuing jurisdiction over all its orders, decisions, and awards and may, at any time, upon notice, and after opportunity to be heard is given to the parties in interest, rescind, alter, or amend any such order, decision, or award made by it upon good cause ~~appearing therefor~~.

~~(2)~~(4) Any order, decision, or award rescinding, altering, or amending a prior order, decision, or award has the same effect as original orders or awards.

~~(3)~~(5) If a party is aggrieved by a department order, the party may appeal the dispute to the workers' compensation judge."

Section 5. Section 39-71-307, MCA, is amended to read:

"39-71-307. Employers and insurers to file reports of accidents — penalty. (1) Every employer ~~and every insurer~~ insured by a plan No. 2 or a plan

No. 3 insurer is required to file with the ~~department~~ *employer's insurer*, under ~~rules adopted by the department~~ *rules*, a full and complete report of every accident, *injury, or occupational disease* to an employee arising out of or in the course of employment and resulting in loss of life or injury to the employee. ~~The reports must be furnished to the department in the form and detail as the department prescribes and must provide specific answers to all questions required by the department under its rules. However, if an employer is unable to answer a question, the employer shall state the reason for the employer's inability to answer.~~

(2) Every insurer transacting business under this chapter shall, ~~at the time and in the manner prescribed under rules adopted by the department~~, make and file with the department the reports of ~~accidents as the department requires every injury or occupational disease.~~

(3) An employer; or insurer; or adjuster who refuses or neglects to submit to the department reports necessary for the proper filing and review of a claim, as provided in subsection (1) or (2), shall be assessed a penalty of not less than \$200 or more than \$500 for each offense. The department shall assess and collect the penalty. An *employer or insurer* may contest a penalty assessment in a hearing conducted according to department rules."

Section 6. Section 39-71-407, MCA, is amended to read:

"39-71-407. Liability of insurers — limitations. (1) Each insurer is liable for the payment of compensation, in the manner and to the extent provided in this section, to an employee of an employer that it insures who receives an injury arising out of and in the course of employment or, in the case of death from the injury, to the employee's beneficiaries, if any.

(2) (a) An insurer is liable for an injury, as defined in 39-71-119, if the injury is established by objective medical findings and if the claimant establishes that it is more probable than not that:

- (i) a claimed injury has occurred; or
- (ii) a claimed injury aggravated a preexisting condition.

(b) Proof that it was medically possible that a claimed injury occurred or that the claimed injury aggravated a preexisting condition is not sufficient to establish liability.

(3) (a) An employee who suffers an injury or dies while traveling is not covered by this chapter unless:

(i) the employer furnishes the transportation or the employee receives reimbursement from the employer for costs of travel, gas, oil, or lodging as a part of the employee's benefits or employment agreement and the travel is necessitated by and on behalf of the employer as an integral part or condition of the employment; or

(ii) the travel is required by the employer as part of the employee's job duties.

(b) A payment made to an employee under a collective bargaining agreement, personnel policy manual, or employee handbook or any other document provided to the employee that is not wages but is designated as an incentive to work at a particular jobsite is not a reimbursement for the costs of travel, gas, oil, or lodging, and the employee is not covered under this chapter while traveling.

(4) An employee is not eligible for benefits otherwise payable under this chapter if the employee's use of alcohol or drugs not prescribed by a physician is the major contributing cause of the accident. However, if the employer had knowledge of and failed to attempt to stop the employee's use of alcohol or drugs, this subsection does not apply.

(5) If there is no dispute that an insurer is liable for an injury but there is a liability dispute between two or more insurers, the insurer for the most recently filed claim shall pay benefits until that insurer proves that another insurer is responsible for paying benefits or until another insurer agrees to pay benefits. If it is later proven that the insurer for the most recently filed claim is not responsible for paying benefits, that insurer must receive reimbursement for benefits paid to the claimant from the insurer proven to be responsible.

~~(5)~~(6) If a claimant who has reached maximum healing suffers a subsequent nonwork-related injury to the same part of the body, the workers' compensation insurer is not liable for any compensation or medical benefits caused by the subsequent nonwork-related injury.

~~(6)~~(7) An employee is not eligible for benefits payable under this chapter unless the entitlement to benefits is established by objective medical findings that contain sufficient factual and historical information concerning the relationship of the worker's condition to the original injury.

~~(7)~~(8) As used in this section, "major contributing cause" means a cause that is the leading cause contributing to the result when compared to all other contributing causes."

Section 7. Section 39-71-608, MCA, is amended to read:

"39-71-608. Payments within thirty days by insurer without admission of liability or waiver of defense authorized — notice — limitations on payments over ninety days. (1) An insurer may, after written notice to the claimant and the department, make payment of compensation benefits within 30 days of receipt of a claim for compensation without ~~such~~ the payments being construed as an admission of liability or a waiver of any right of defense.

(2) *An insurer may not make payments pursuant to this section for more than 90 days without:*

- (a) *written consent of the claimant; or*
- (b) *approval of the department."*

Section 8. Section 39-71-703, MCA, is amended to read:

"39-71-703. Compensation for permanent partial disability. (1) If an injured worker suffers a permanent partial disability and is no longer entitled to temporary total or permanent total disability benefits, the worker is entitled to a permanent partial disability award if that worker:

- (a) has an actual wage loss as a result of the injury; and
- (b) has a permanent impairment rating that:
 - (i) is not based exclusively on complaints of pain;
 - (ii) is established by objective medical findings; and
 - (iii) is more than zero as determined by the latest edition of the American medical association Guides to the Evaluation of Permanent Impairment.

(2) When a worker receives an impairment rating as the result of a compensable injury and has no actual wage loss as a result of the injury, the worker is eligible for an impairment award only.

(3) ~~Beginning July 1, 2003, the~~ The permanent partial disability award must be arrived at by multiplying the percentage arrived at through the calculation provided in subsection (5) by 375 weeks.

(4) A permanent partial disability award granted an injured worker may not exceed a permanent partial disability rating of 100%.

(5) The percentage to be used in subsection (4) must be determined by adding all of the following applicable percentages to the impairment rating:

(a) if the claimant is 40 years of age or younger at the time of injury, 0%; if the claimant is over 40 years of age at the time of injury, 1%;

(b) for a worker who has completed less than 12 years of education, 1%; for a worker who has completed 12 years or more of education or who has received a graduate equivalency diploma, 0%;

(c) if a worker has no actual wage loss as a result of the industrial injury, 0%; if a worker has an actual wage loss of \$2 or less an hour as a result of the industrial injury, 10%; if a worker has an actual wage loss of more than \$2 an hour as a result of the industrial injury, 20%. Wage loss benefits must be based on the difference between the actual wages received at the time of injury and the wages that the worker earns or is qualified to earn after the worker reaches maximum healing.

(d) if a worker, at the time of the injury, was performing heavy labor activity and after the injury the worker can perform only light or sedentary labor activity, 5%; if a worker, at the time of injury, was performing heavy labor activity and after the injury the worker can perform only medium labor activity, 3%; if a worker was performing medium labor activity at the time of the injury and after the injury the worker can perform only light or sedentary labor activity, 2%.

(6) The weekly benefit rate for permanent partial disability is 66 2/3% of the wages received at the time of injury, but the rate may not exceed one-half the state's average weekly wage. The weekly benefit amount established for an injured worker may not be changed by a subsequent adjustment in the state's average weekly wage for future fiscal years.

(7) *An undisputed impairment award may be paid biweekly or in a lump sum at the discretion of the worker. Lump sums paid for impairments are not subject to the requirements of 39-71-741, except that lump-sum conversions for benefits not accrued may be reduced to present value at the rate established by the department pursuant to 39-71-741(3).*

~~(7)~~(8) If a worker suffers a subsequent compensable injury or injuries to the same part of the body, the award payable for the subsequent injury may not duplicate any amounts paid for the previous injury or injuries.

~~(8)~~(9) If a worker is eligible for a rehabilitation plan, permanent partial disability benefits payable under this section must be calculated based on the wages that the worker earns or would be qualified to earn following the completion of the rehabilitation plan.

~~(9)~~(10) As used in this section:

(a) "heavy labor activity" means the ability to lift over 50 pounds occasionally or up to 50 pounds frequently;

(b) “medium labor activity” means the ability to lift up to 50 pounds occasionally or up to 25 pounds frequently;

(c) “light labor activity” means the ability to lift up to 20 pounds occasionally or up to 10 pounds frequently; and

(d) “sedentary labor activity” means the ability to lift up to 10 pounds occasionally or up to 5 pounds frequently.”

Section 9. Section 39-71-741, MCA, is amended to read:

“39-71-741. Compromise settlements and lump-sum payments.

(1) By written agreement ~~filed with the department~~, benefits under this chapter may be converted in whole or in part into a lump sum. An agreement *that settles a claim for any type of benefit* is subject to department approval. *Lump-sum advances and payment of accrued benefits in a lump sum, except permanent total disability benefits under subsection (1)(c), are not subject to department approval.* If the department fails to approve or disapprove the agreement in writing within 14 days of the filing with the department, the agreement is approved. The department shall directly notify a claimant of a department order approving or disapproving a claimant’s compromise or lump-sum payment. Upon approval, the agreement constitutes a compromise and release settlement and may not be reopened by the department. The department may approve an agreement to convert the following benefits to a lump sum only under the following conditions:

(a) all benefits if a claimant and an insurer dispute the initial compensability of an injury and there is a reasonable dispute over compensability;

(b) permanent partial disability benefits if an insurer has accepted initial liability for an injury. The total of any permanent partial lump-sum conversion in part that is awarded to a claimant prior to the claimant’s final award may not exceed the anticipated award under 39-71-703. The department may disapprove an agreement under this subsection (1)(b) only if the department determines that the lump-sum conversion amount is inadequate.

(c) permanent total disability benefits if the total of all lump-sum conversions in part that are awarded to a claimant do not exceed \$20,000. The approval or award of a lump-sum permanent total disability payment in whole or in part by the department or court must be the exception. It may be given only if the worker has demonstrated financial need that:

(i) relates to:

(A) the necessities of life;

(B) an accumulation of debt incurred prior to the injury; or

(C) a self-employment venture that is considered feasible under criteria set forth by the department; or

(ii) arises subsequent to the date of injury or arises because of reduced income as a result of the injury; ~~or~~

(d) except as otherwise provided in this chapter, all other compromise settlements and lump-sum payments agreed to by a claimant and insurer; or

(e) *medical benefits on an accepted claim if an insurer disputes the insurer’s continued liability for medical benefits and there is a reasonable dispute over the medical treatment or medical compensability.*

(2) Any lump-sum conversion of benefits under this section must be converted to present value using the rate prescribed under subsection (3)(b).

(3) (a) An insurer may recoup any lump-sum payment amortized at the rate established by the department, prorated biweekly over the projected duration of the compensation period.

(b) The rate adopted by the department must be based on the average rate for United States 10-year treasury bills in the previous calendar year.

(c) If the projected compensation period is the claimant's lifetime, the life expectancy must be determined by using the most recent table of life expectancy as published by the United States national center for health statistics.

(4) A dispute between a claimant and an insurer regarding the conversion of biweekly payments into a lump sum is considered a dispute for which a mediator and the workers' compensation court have jurisdiction to make a determination. If an insurer and a claimant agree to a compromise and release settlement or a lump-sum payment but the department disapproves the agreement, the parties may request the workers' compensation court to review the department's decision."

Section 10. Section 39-71-743, MCA, is amended to read:

"39-71-743. Assignment or attachment of payments. (1) Payments under this chapter may not be assignable, subject to attachment or garnishment, or held liable in any way for debts, except:

(a) as provided in 71-3-1118;

(b) a portion of any lump-sum award or periodic payment to pay a monetary obligation for current or past-due child support, subject to the limitations in subsection (2), whenever the support obligation is established by order of a court of competent jurisdiction or by order rendered in an administrative process authorized by state law; or

(c) as provided in 53-2-612 or 53-2-613 for medical benefits paid pursuant to chapter 71 or 72 of this title.

(2) Payments under this chapter are subject to assignment, attachment, or garnishment for child support as follows:

(a) for any periodic payment, an amount up to the percentage amount established in the guidelines promulgated by the department of public health and human services pursuant to 40-5-209; or

(b) for any lump-sum award, an amount up to that portion of the award that ~~is approved for payment on the basis of~~ *necessary to pay current child support and a past-due child support obligation.*

(3) After determination that the claim is covered under the Workers' Compensation Act or Occupational Disease Act of Montana, the liability for payment of the claim is the responsibility of the appropriate workers' compensation insurer. Except as provided in 39-71-704(7), a fee or charge is not payable by the injured worker for treatment of injuries sustained if liability is accepted by the insurer."

Section 11. Section 39-71-1006, MCA, is amended to read:

"39-71-1006. Rehabilitation benefits. (1) A worker is eligible for rehabilitation benefits if:

(a) (i) the worker meets the definition of a disabled worker as provided in 39-71-1011; or

(ii) the worker has, as a result of the work-related injury, a whole person impairment rating of 15% or greater, as established by objective medical findings, and has no actual wage loss;

(b) a rehabilitation provider, as designated by the insurer, certifies that the worker has reasonable vocational goals and reasonable reemployment opportunity. If eligible because of an impairment rating of 15% or more, with rehabilitation the worker will have a reasonable increase in the worker's wage compared to the wage that the worker received at the time of injury. If eligible because of a wage loss, the worker will have a reasonable reduction in the worker's actual wage loss with rehabilitation.

(c) a rehabilitation plan is agreed upon by the worker and the insurer and a written copy of the plan is provided to the worker. The plan must take into consideration the worker's age, education, training, work history, residual physical capacities, and vocational interests. The plan must specify a beginning date and a completion date. The plan must specify the cost of tuition, fees, books, and other reasonable and necessary retraining expenses required to complete the plan.

(2) A disabled worker is entitled to receive biweekly ~~compensation~~ *rehabilitation* benefits at the worker's temporary total disability rate. The benefits must be paid for the period specified in the rehabilitation plan, not to exceed 104 weeks. The rehabilitation plan must be completed within 26 weeks of the completion date specified in the plan. Rehabilitation benefits must be paid biweekly while the worker is satisfactorily progressing in the agreed-upon rehabilitation plan. ~~Benefits~~ *Rehabilitation benefits payable pursuant to a retraining rehabilitation plan* under this section are not ~~subject to the lump-sum provisions of 39-71-741 payable in a lump sum. Rehabilitation benefits may be paid in a lump sum for job placement services.~~

(3) In addition to rehabilitation benefits payable under subsection (2), a disabled worker who was injured on or after July 1, 1997, is entitled to receive payment for tuition, fees, books, and other reasonable and necessary retraining expenses, excluding travel and living expenses paid pursuant to the provisions of 39-71-1025, as set forth in department rules and as specified in the rehabilitation plan. Expenses must be paid directly by the insurer.

(4) A worker may not receive temporary total benefits and the benefits under subsection (2) during the same period of time.

(5) A rehabilitation provider authorized by the insurer shall continue to assist the injured worker until the rehabilitation plan is completed.

(6) To be eligible for benefits under this section, a worker is required to begin the rehabilitation plan within 78 weeks of reaching maximum medical healing.

(7) A worker may not receive both wages and rehabilitation benefits without the written consent of the insurer. A worker who receives both wages and rehabilitation benefits without written consent of the insurer is guilty of theft and may be prosecuted under 45-6-301."

Section 12. Repealer. Sections 39-71-302, 39-71-303, 39-71-308, and 39-71-318, MCA, are repealed.

Section 13. Effective date — applicability. [This act] is effective July 1, 2005, and applies to injuries occurring or occupational diseases contracted on or after July 1, 2005.

CHAPTER NO. 104

[SB 9]

AN ACT EXTENDING THE TERM OF DRIVER'S LICENSES RENEWED BY MAIL; ALLOWING A SPOUSE OR DEPENDENT OF PERSONS STATIONED OUTSIDE MONTANA ON ACTIVE MILITARY DUTY TO RENEW A DRIVER'S LICENSE BY MAIL FOR A SECOND CONSECUTIVE TERM; AND AMENDING SECTION 61-5-111, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 61-5-111, MCA, is amended to read:

"61-5-111. Contents of a driver's license, renewal, renewal by mail, license expirations, grace period, and fees for licenses, permits, and endorsements — notice of expiration. (1) The department may appoint county treasurers and other qualified officers to act as its agents for the sale of driver's licenses receipts. The department shall adopt necessary rules governing sales. In areas in which the department provides driver licensing services 3 days or more a week, the department is responsible for sale of receipts and may appoint an agent to sell receipts.

(2) (a) The department, upon receipt of payment of the fees specified in this section, shall issue a driver's license to each qualifying applicant. The license must contain:

(ii) a distinguishing number issued to the licensee;

(iii) the full legal name, date of birth, Montana mailing address, and a brief description of the licensee; and

(iv) either the licensee's customary signature or a digital reproduction of the licensee's customary signature.

(b) The department may not use the licensee's social security number as the distinguishing number unless the licensee expressly authorizes the use. A license is not valid until it is signed by the licensee.

(3) (a) When a person applies for renewal of a driver's license, the department shall conduct a records check in accordance with 61-5-110(1) to determine the applicant's eligibility status and shall test the applicant's eyesight. The department may also require the applicant to submit to a knowledge and skills test if:

(i) the renewal applicant has a physical or mental disability, limitation, or condition that impairs, or may impair, the applicant's ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway; and

(ii) the expired or expiring license does not include adaptive equipment or operational restrictions appropriate to the applicant's functional abilities; or

(iii) the applicant wants to remove or modify the restrictions stated on the expired or expiring license.

(b) In the case of a commercial driver's license, the department shall, if the information was not provided in a prior licensing cycle, require the renewal applicant to provide the name of each jurisdiction in which the applicant was

previously licensed to drive any type of motor vehicle during the 10-year period immediately preceding the date of the renewal application and may also require that the applicant successfully complete a written examination as required by federal regulations.

(c) A person is considered to have applied for renewal of a Montana driver's license if the application is made within 6 months before or 3 months after the expiration of the person's license. Except as provided in subsection (3)(d), a person seeking to renew a driver's license shall appear in person at a Montana driver's examination station.

(d) (i) A person may renew a driver's license by mail if the person certifies that the person is temporarily out of state and will not be returning to the state prior to the expiration of the license. *A person may not renew by mail for a subsequent license term after a mail renewal, except that a spouse or dependent of a person stationed outside Montana on active military duty may renew a driver's license by mail for one additional consecutive term following a mail renewal.*

(ii) An applicant who renews a driver's license by mail shall submit to the department an approved vision examination and a medical evaluation from a licensed physician in addition to the fees required for renewal.

(iii) If the department does not have a digitized photograph or signature record of the renewal applicant from the expiring license, then the department may require the renewal applicant to submit a personal photograph and signature that meets the requirements prescribed by the department.

(iv) ~~The~~ *Except as provided in subsections (4)(b) and (4)(c), the term of a license renewed by mail is 4 8 years, and a person may not renew by mail for consecutive license terms.*

(v) The department may not renew a license by mail if the records check conducted in accordance with 61-5-110(1) shows an ineligible license status for the applicant.

(e) The department shall mail a driver's license renewal notice no earlier than 60 days and no later than 30 days prior to the expiration date of a driver's license. The department shall mail the notice to the Montana mailing address shown on the driver's license unless the licensee has submitted a change of address as required by 61-5-115.

(4) (a) Except as provided in subsections (4)(b) and (4)(c), a license expires on the anniversary of the licensee's birthday 8 years or less after the date of issue or on the licensee's 75th birthday, whichever occurs first.

(b) A license issued to a person who is 75 years of age or older expires on the anniversary of the licensee's birthday 4 years or less after the date of issue.

(c) A license issued to a person who is under 21 years of age expires on the licensee's 21st birthday.

(3) (a) ~~Beginning with fiscal year 2002 and in each succeeding fiscal year, the~~ *The* base year entitlement share pool must be increased annually by a growth rate as provided for in this subsection (3). The amount determined through the application of annual growth rates is the entitlement share pool for each fiscal year. ~~For fiscal year 2002, the growth rate is 3%. For fiscal year 2003, the growth rate is 3% for incorporated cities and towns, 1.61% for counties, and 2.3% for consolidated local governments. Beginning with calendar year 2002, by~~ *By* October 1 of each even-numbered year, the department shall calculate the growth rate of the entitlement share pool for each year of the next biennium in the following manner:

~~(i) Before applying the growth rate for fiscal year 2004 to determine the fiscal year 2004 entitlement share pool, the department shall add to the fiscal year 2003 entitlement share pool the fiscal year 2003 amount of revenue actually distributed to the county from the 25-cent marriage license fee in 50-15-301 and the probation and parole fee in 46-23-1031(2)(b).~~

~~(ii)~~ *(i)* The department shall calculate the average annual growth rate of the Montana gross state product, as published by the bureau of economic analysis of the United States department of commerce, for the following periods:

(A) the last 4 calendar years for which the information has been published; and

(B) the 4 calendar years beginning with the year before the first year in the period referred to in subsection ~~(3)(a)(ii)(A)~~ *(3)(a)(i)(A)*.

~~(iii)~~ *(ii)* The department shall calculate the average annual growth rate of Montana personal income, as published by the bureau of economic analysis of the United States department of commerce, for the following periods:

(A) the last 4 calendar years for which the information has been published; and

(B) the 4 calendar years beginning with the year before the first year in the period referred to in subsection ~~(3)(a)(iii)(A)~~ *(3)(a)(ii)(A)*.

(b) ~~(i) For fiscal year 2004 and subsequent fiscal years, the~~ *The* entitlement share pool growth rate for the first year of the biennium must be the following percentage of the average of the growth rates calculated in subsections ~~(3)(a)(ii)(B)~~ *(3)(a)(i)(B)* and ~~(3)(a)(iii)(B)~~ *(3)(a)(ii)(B)*:

- (A) for counties, 54%;
- (B) for consolidated local governments, 62%; and
- (C) for incorporated cities and towns, 70%.

(ii) The entitlement share pool growth rate for the second year of the biennium must be the following percentage of the average of the growth rates calculated in subsections ~~(3)(a)(ii)(A)~~ (3)(a)(i)(A) and ~~(3)(a)(iii)(A)~~ (3)(a)(ii)(A):

- (A) for counties, 54%;
- (B) for consolidated local governments, 62%; and
- (C) for incorporated cities and towns, 70%.

(4) As used in this section, "local government" means a county, a consolidated local government, an incorporated city, and an incorporated town. A local government does not include a tax increment financing district provided for in subsection (6). For purposes of calculating the base year component for a county or consolidated local government, the department shall include the revenue listed in subsection (1) for all special districts within the county or consolidated local government. The county or consolidated local government is responsible for making an allocation from the county's or consolidated local government's share of the entitlement share pool to each special district within the county or consolidated local government in a manner that reasonably reflects each special district's loss of revenue sources listed in subsection (1).

(5) (a) The entitlement share pools calculated in this section and the block grants provided for in subsection (6) are statutorily appropriated, as provided in 17-7-502, from the general fund to the department for distribution to local governments. Each local government is entitled to a pro rata share of each year's entitlement share pool based on the local government's base component in relation to the base year entitlement share pool. The distributions must be made on a quarterly basis beginning September 15, 2001.

(b) (i) ~~For fiscal year 2002, the growth amount is the difference between the fiscal year 2002 entitlement share pool and the base year entitlement share pool. For fiscal year 2002, a county may have a negative base year component. For fiscal year 2003 and each succeeding fiscal year, the~~ The growth amount is the difference between the entitlement share pool in the current fiscal year and the entitlement share pool in the previous fiscal year. For the purposes of subsection (5)(b)(ii)(A), a county with a negative base year component has a base year component of zero. The growth factor in the entitlement share must be calculated separately for:

- (A) counties;
- (B) consolidated local governments; and
- (C) incorporated cities and towns.

(ii) In each fiscal year, the growth amount for counties must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each county's percentage of the base year entitlement share pool for all counties; and

(B) 50% of the growth amount must be allocated based upon the percentage that each county's population bears to the state population not residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iii) In each fiscal year, the growth amount for consolidated local governments must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each consolidated local government's percentage of the base year entitlement share pool for all consolidated local governments; and

(B) 50% of the growth amount must be allocated based upon the percentage that each consolidated local government's population bears to the state's total population residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iv) In each fiscal year, the growth amount for incorporated cities and towns must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each incorporated city's or town's percentage of the base year entitlement share pool for all incorporated cities and towns; and

(B) 50% of the growth amount must be allocated based upon the percentage that each city's or town's population bears to the state's total population residing within incorporated cities and towns as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(v) In each fiscal year, the amount of the entitlement share pool not represented by the growth amount is distributed to each local government in the same manner as the entitlement share pool was distributed in the prior fiscal year.

~~(vi) For fiscal year 2002, an amount equal to the district court costs identified in subsection (2) must be added to each county government's distribution from the entitlement share pool.~~

~~(vii) For fiscal year 2002, an amount equal to the district court fees identified in subsection (1)(d) must be subtracted from each county government's distribution from the entitlement share pool.~~

(6) (a) If a tax increment financing district was not in existence during the fiscal year ending June 30, 2000, then the tax increment financing district is not entitled to any block grant. If a tax increment financing district referred to in subsection (6)(b) terminates, then the block grant provided for in subsection (6)(b) terminates.

(b) One-half of the payments provided for in this subsection (6)(b) must be made by November 30 and the other half by May 31 of each year. Subject to subsection (6)(a), the entitlement share for tax increment financing districts is as follows:

Deer Lodge	TIF District 1	3,148

~~(iii) \$0 for all succeeding fiscal years.~~

~~(d) The entitlement share for industrial tax increment financing districts referred to in subsection (6)(c) may not be used to pay debt service on tax increment bonds to the extent that the bonds are secured by a guaranty, a letter of credit, or a similar arrangement provided by or on behalf of an owner of property within the tax increment financing industrial district.~~

~~(e) One half of the payments provided for in subsection (6)(c) must be made by July 30, and the other half must be made in December of each year.~~

(7) The estimated base year entitlement share pool and any subsequent entitlement share pool for local governments do not include revenue received from countywide transportation block grants or from countywide retirement block grants.

~~(8) The estimates for the base year entitlement share pool in subsection (1) must be calculated as if the fees in Chapter 515, Laws of 1999, were in effect for all of fiscal year 2001.~~

~~(9)~~(8) (a) If revenue that is included in the sources listed in subsections (1)(b) through (1)(p) is significantly reduced, except through legislative action, the department shall deduct the amount of revenue loss from the entitlement share pool beginning in the succeeding fiscal year and the department shall work with local governments to propose legislation to adjust the entitlement share pool to reflect an allocation of the loss of revenue.

(b) For the purposes of subsection ~~(9)(a)~~ (8)(a), a significant reduction is a loss that causes the amount of revenue received in the current year to be less than 95% of the amount of revenue received in the base year.

~~(10)~~(9) A three-fifths vote of each house is required to reduce the amount of the entitlement share calculated pursuant to subsections (1) through (3).

~~(11)~~(10) When there has been an underpayment of a local government's share of the entitlement share pool, the department shall distribute the difference between the underpayment and the correct amount of the entitlement share. When there has been an overpayment of a local government's entitlement share, the local government shall remit the overpaid amount to the department.

~~(12)~~(11) A local government may appeal the department's estimation of the base year component, the entitlement share pool growth rate, or a local government's allocation of the entitlement share pool, according to the uniform dispute review procedure in 15-1-211.

~~(13)~~(12) A payment required pursuant to this section may not be offset by a debt owed to a state agency by a local government in accordance with Title 17, chapter 4, part 1."

Section 3. Section 25-1-201, MCA, is amended to read:

- (b) The petition may be modified for different relief at any time within the discretion of the court.
- (c) A petition for temporary legal custody may be the initial petition filed in a case.
- (d) A petition for the termination of the parent-child legal relationship may be the initial petition filed in a case if a request for a determination that preservation or reunification services need not be provided is made in the petition.
- (2) The county attorney, attorney general, or an attorney hired by the county shall file all petitions under this chapter. A petition filed by the county attorney, attorney general, or an attorney hired by the county must be accompanied by:
- (a) an affidavit by the department alleging that the child appears to have been abused or neglected and stating the basis for the petition; and
 - (b) a separate notice to the court stating any statutory time deadline for a hearing.
- (3) Abuse and neglect petitions must be given highest preference by the court in setting hearing dates.
- (4) An abuse and neglect petition is a civil action brought in the name of the state of Montana. The Montana Rules of Civil Procedure and the Montana Rules of Evidence apply except as modified in this chapter. Proceedings under a petition are not a bar to criminal prosecution.
- (5) (a) Except as provided in subsection (5)(b), the person filing the abuse and neglect petition has the burden of presenting evidence required to justify the relief requested and establishing:
- (i) probable cause for the issuance of an order for immediate protection and emergency protective services or an order for temporary investigative authority;

legal custody of the child named in the petition, if residing in the state, must be served personally with a copy of the initial petition and a petition to terminate the parent-child legal relationship at least 5 days before the date set for hearing. (8) If a parent of the child is a minor, notice must be given to the minor parent's parents or guardian, and if there is no guardian, the court shall appoint one.

(9) (a) Any person interested in any cause under this chapter has the right to appear. Any foster parent, preadoptive parent, or relative caring for the child must be given legal notice by the attorney filing the petition of all judicial hearings for the child and must be given an opportunity to be heard. The right to appear or to be heard does not make that person a party to the action. Any foster parent, preadoptive parent, or relative caring for the child must be given notice of all reviews by the reviewing body.

(b) A foster parent, preadoptive parent, or relative of the child who is caring for or a relative of the child who has cared for a child who is the subject of the petition who appears at a hearing set pursuant to this section may be allowed by the court to intervene in the action if the court, after a hearing in which evidence is presented on those subjects provided for in 41-3-437(4), determines that the intervention of the person is in the best interests of the child. A person granted intervention pursuant to this subsection is entitled to participate in the adjudicatory hearing held pursuant to 41-3-437 and to notice and participation in subsequent proceedings held pursuant to this chapter involving the custody of the child.

(10) An abuse and neglect petition must:

(a) state the nature of the alleged abuse or neglect and of the relief requested;

(b) state the full name, age, and address of the child and the name and address of the child's parents or guardian or person having legal custody of the child;

(c) state the names, addresses, and relationship to the child of all persons who are necessary parties to the action.

(11) The court may at any time on its own motion or the motion of any party appoint counsel for any indigent party. If an indigent parent is not already represented by counsel, counsel must be appointed for an indigent parent at the time that a request is made for a determination that preservation or reunification services need not be provided.

(12) At any stage of the proceedings considered appropriate by the court, the court may order an alternative dispute resolution proceeding or the parties may voluntarily participate in an alternative dispute resolution proceeding. An alternative dispute resolution proceeding under this chapter may include a family group decisionmaking meeting, mediation, or a settlement conference. If a court orders an alternative dispute resolution proceeding, a party who does not wish to participate may file a motion objecting to the order. If the department is a party to the original proceeding, a representative of the department who has complete authority to settle the issue or issues in the original proceeding must be present at any alternative dispute resolution proceeding.

(13) Service of a petition under this section must be accompanied by a written notice advising the child's parent, guardian, or other person having physical or legal custody of the child of the:

(a) right to request the appointment of counsel if the person is indigent or if appointment of counsel is required under the federal Indian Child Welfare Act, if applicable;

(b) right to contest the allegations in the petition; and

(c) timelines for hearings and determinations required under this chapter.

(14) If appropriate, orders issued under this chapter must contain a notice provision advising a child's parent, guardian, or other person having physical or legal custody of the child that:

(a) the court is required by federal and state laws to hold a permanency hearing to determine the permanent placement of a child no later than 12 months after a judge determines that the child has been abused or neglected or 12 months after the first 60 days that the child has been removed from the child's home;

(b) if a child has been in foster care for 15 of the last 22 months, state law presumes that termination of parental rights is in the best interests of the child and the state is required to file a petition to terminate parental rights; and

(c) completion of a treatment plan does not guarantee the return of a child.

(15) A court may appoint a standing master to conduct hearings and propose decisions and orders to the court for court consideration and action. A standing master may not conduct a proceeding to terminate parental rights. A standing master must be a member of the state bar of Montana and must be knowledgeable in the area of child abuse and neglect laws."

Section 2. Section 41-3-428, MCA, is amended to read:

"41-3-428. Service of process — service by publication — effect. (1) Except as *otherwise* provided in ~~subsection (2) this chapter~~, service of process ~~under this chapter~~ must be made as provided in the Montana Rules of Civil Procedure.

(2) If a person cannot be served personally *or by certified mail*, the person may be served by publication as provided in 41-3-429. Publication constitutes conclusive evidence of service, and a hearing must then proceed at the time and date set, with or without the appearance of the person served by publication. At or after the hearing, the court may issue an order that will adjudicate the interests of the person served by publication.

(3) If a parent cannot be identified or found prior to the initial hearings allowed by part 4, the court may grant the following relief, pending service by

publication on the parent who cannot be identified or found and based upon service of process on only the parent, guardian, or other person having legal custody of the child:

- (a) immediate protection;
- (b) temporary investigative authority; and
- (c) temporary legal custody.”

Section 3. Section 41-3-429, MCA, is amended to read:

“41-3-429. Service by publication — summons — form. (1) Before service by publication is authorized in a proceeding under this chapter, the department shall file with the court an affidavit stating that, after due diligence, the person cannot be identified or found and stating the diligent efforts made to identify, locate, and serve the person. The affidavit is sufficient evidence of the diligence of any inquiry made by the department. The affidavit may be combined with any other affidavit filed by the department. Upon complying with this subsection, the department may obtain an order for the service to be made upon the party by publication. The order may be issued by either the judge or the clerk of the court.

(2) Service by publication must be made by publishing notice three times, once each week for 3 successive weeks:

(a) in a newspaper in a community in which the publication can reasonably be calculated to be seen by the person, based upon the last-known address or whereabouts, if known, of the person; ~~whether inside or outside this state if in the state of Montana;~~ or

(b) ~~if no last-known address exists, if the last-known address is outside Montana, or if the identity or location of the person is unknown,~~ in a newspaper in the county in which the action is pending, if a newspaper is published in the county, and, if a newspaper is not published in the county, in a newspaper published in an adjoining county and having a general circulation in the county.

(3) Service by publication is complete on the date of the last publication required by subsection (2).

(4) A summons required under this chapter must:

(a) be directed to the parent, legal guardian, other person having legal custody of the child, or any other person who is required to be served; and

(b) be signed by the clerk of court, be under the seal of the court, and contain:

- (i) the name of the court and the cause number;
- (ii) the initials of the child who is the subject of the proceedings;
- (iii) the name of the child’s parents, if known;
- (iv) the time within which an interested person shall appear;
- (v) the department’s address;

(vi) a statement in general terms of the nature of the proceedings, including the date and place of birth of the child, the date and place of the hearing, and the phone number of the clerk of the court in which the hearing is scheduled; and

(vii) notification apprising the person served by publication that failure to appear at the hearing will constitute a denial of interest in the child, which denial may result, without further notice of this proceeding or any subsequent

proceeding, in judgment by default being entered for the relief requested in the petition.”

Section 2. Section 32-5-103, MCA, is amended to read:

“32-5-103. Engaging in business of making consumer loans restricted. (1) Except as provided in subsection (5), a person may not engage in the business of making consumer loans in any amount and contract for, charge, or receive directly or indirectly on or in connection with any loan any charges, whether for interest, compensation, consideration, or expense, except as provided in and authorized by this chapter. The provisions of this chapter do not apply to any exempted person.

(2) A licensee may sell its business and assets to a bank, building and loan association, savings and loan association, trust company, credit union, credit association, development credit corporation, or bank holding company organized pursuant to state or federal statutory authority and subject to supervision, control, or regulation by an agency of the state of Montana or an agency of the federal government. All contracts for loans and all other contracts entered into by the licensee pursuant to the provisions of this chapter that are sold and transferred to an acquiring organization continue to be governed by the provisions of this chapter.

(3) The provisions of subsection (1) apply to any person who seeks to evade its applications by any device, subterfuge, or pretense.

(4) ~~Any act by a licensee in the making of a contract or in the collection of a loan made under the contract that violates the provisions of this chapter loan made or collected in violation of subsection (1) by a person other than a licensee or a lender exempt under subsection (5) is void. A title lender, as defined in 31-1-803, who complies with the provisions of Title 31, chapter 1, part 8, is not required to comply with this chapter.”

Section 3. Section 32-5-301, MCA, is amended to read:

“32-5-301. Charges, refunds, penalties, filing fees. (1) A licensee or holder of a supplementary license under this part may contract for and receive on any loan of money interest charges as provided under 31-1-112.

(2) Charges in subsection (1) must be computed at the applicable rates on the full, original principal amount of the loan from the date of the loan to the due date of the final scheduled installment irrespective of the fact that the loan is payable in installments. The charges must be added to the principal of the loan and may not be discounted or deducted from the principal or paid or received at the time the loan is made. For the purpose of computing charges for a fraction of a month, a day is considered one-thirtieth of a month.

(3) (a) When any loan contract, new loan, renewal, or otherwise for a period of not more than 61 months is paid in full by cash 1 month or more before the final installment date, the licensee shall refund or credit the borrower with that portion of the total charges that is due the borrower as determined by schedules prepared under the rule of 78ths or sum of the digits principle as follows: the amount of the refund or credit must be as great a proportion of the total charges originally contracted for as the sum of the consecutive monthly balances of the contract scheduled to follow the date of prepayment bears to the sum of all the consecutive monthly balances of the contract, both sums to be determined according to the payment schedule originally contracted for.

(b) When any loan contract, new loan, renewal, or otherwise for a period of more than 61 months is paid in full by cash 1 month or more before the final installment date, the licensee shall refund or credit the borrower with that portion of the total charges that is due the borrower that is applicable to all fully unexpired months in the contract as originally scheduled or, if deferred, as deferred, following the date of prepayment. For this purpose the applicable charge is the charge that would have been earned for that contract if charges had not been precomputed, by applying to the unpaid principal balance, by the actuarial method, the annual percentage rate disclosed pursuant to federal law, based on the assumption that all payments were made as originally scheduled. For all loans that may be subject to this section, charges are computed initially in the same manner used to determine the annual percentage rate.

(4) If the contract so provides, the additional charge for any amount past due according to the original terms of the contract, whether by reason of default or extension agreement, may be the greater of 5% of the amount past due or \$15, and that amount may be charged only once.

(5) (a) The licensee may include in the principal amount of any loan:

(i) the actual fees paid a public official or agency of the state for filing, recording, or releasing any instrument securing the loan; or

(ii) the premium for insurance in lieu of filing or recording any instrument securing the loan to the extent that the premium does not exceed the fees that would otherwise be payable for filing, recording, or releasing any instrument securing the loan.

(b) The licensee may include in the principal amount of any loan bona fide charges related to real estate security and paid to third parties, including:

- (i) fees or premiums for title examination, title insurance, or similar purposes, including survey;
- (ii) fees for preparation of a deed, settlement statement, or other documents;
- (iii) fees for notarizing deeds and other documents;
- (iv) appraisal fees;
- (v) fees for credit reports; and
- (vi) fees paid to a trustee for release of a trust deed.

(6) Further or other charges may not be directly or indirectly contracted for or received by any licensee except those specifically authorized by this chapter. A licensee may not divide into separate parts any contract made for the purpose of or with the effect of obtaining charges in excess of those authorized by this chapter. If any amount in excess of the charges permitted by this chapter is charged, contracted for, and received, except as the result of an accidental and bona fide error of computation, the licensee ~~may not collect or receive any charges~~ *shall forfeit to the borrower a sum that is double the amount that is in excess of the charges authorized by this chapter.*

Section 2. Section 82-4-223, MCA, is amended to read:

"82-4-223. Permit fee and surety Surety bond. ~~(1) An application fee of \$100 shall be paid before the permit required in this part shall be issued.~~

~~(2)(1)~~ Before a permit may be issued, the operator shall file with the department a bond payable to the state of Montana with surety satisfactory to the department in ~~the penal sum~~ *an amount* to be determined by the department of not less than \$200 for each acre or fraction thereof ~~thereof of an acre~~ of the area of land affected, with a minimum bond of \$10,000, conditioned upon the faithful performance of the requirements set forth in this part and of the rules of the board. The operator may elect to deposit cash, negotiable bonds, or negotiable certificates of deposit of any bank organized or transacting business in the United States. The cash deposit or market value of ~~such~~ *these* securities ~~shall must~~ be equal to or greater than the amount of the bond required for the bonded area. The level of bonding ~~shall must~~ be relative to the degree of disturbance projected by the original permit and the annual report. A political subdivision or agency of the state need not file a bond unless required to do so by the department. The department shall adjust the amount of bond required if the cost of reclamation changes.

~~(3)(2)~~ In determining the amount of the bond, the department shall take into consideration the character and nature of the overburden, the future suitable use of the land involved, and the cost of backfilling, grading, highwall reduction, subsidence stabilization, water control, topsoiling, and reclamation to be required, but ~~in no event shall~~ the bond *may not* be less than the total estimated cost to the state of completing the work described in the reclamation plan."

Section 3. Section 82-4-225, MCA, is amended to read:

"82-4-225. Application for increase or reduction in permit area. The department may increase or reduce the area of land affected by an operation under a permit on application by an operator, but an increase may not extend the period for which an original permit was issued. An operator may, at any time, apply to the department for an amendment of the permit so as to increase or reduce the acreage affected by it. The operator shall file an application and map in the same form and with the same content as required for an original application under this part and ~~shall pay an application fee of \$50 and~~ shall file with the department a supplemental bond in the amount to be determined

under 82-4-223 for each acre or fraction of an acre of the increase approved. All procedures of this part pertaining to original applications apply to applications for the increase of the area of land affected, except for incidental boundary revisions. If the department approves a reduction in the acreage covered by the original or supplemental permit, it shall release the bond for each acre reduced, but ~~in no case shall~~ the bond *may not* be reduced below \$10,000, except as provided in 82-4-223."

Section 4. Section 82-4-226, MCA, is amended to read:

"82-4-226. Prospecting permit. (1) Except as provided in subsection (8), prospecting by any person on land not included in a valid strip-mining or underground-mining permit is unlawful without possessing a valid prospecting permit issued by the department as provided in this section. A prospecting permit may not be issued until the person submits an application, the application is examined, amended if necessary, and approved by the department, and an adequate reclamation performance bond is posted, all of which prerequisites must be done in conformity with the requirements of this part.

(2) An application for a prospecting permit must be made in writing, notarized, and submitted to the department in duplicate upon forms prepared and furnished by it. The application must include among other things a prospecting map and a prospecting reclamation plan of substantially the same character as required for a surface-mining or underground-mining map and reclamation plan under this part. The department shall determine by rules the precise nature of the required prospecting map and reclamation plan. Any applicant who intends to prospect by means of core drilling shall specify the location and number of holes to be drilled, methods to be used in sealing aquifers, and other information that may be required by the department. The applicant shall state what types of prospecting and excavating techniques will be employed on the affected land. The application must also include any other or further information that the department may require.

~~(3) The application must be accompanied by a fee of \$100. This fee must be used as a credit toward the strip-mining or underground-mining permit fee provided by this part if the area covered by the prospecting permit becomes covered by a valid surface-mining or underground-mining permit obtained before or at the time the prospecting permit expires.~~

~~(4)~~(3) Before the department gives final approval to the prospecting permit application, the applicant shall file with the department a reclamation and revegetation bond in a form and in an amount as determined in the same manner for strip-mining or underground-mining reclamation and revegetation bonds under this part.

~~(5)~~(4) In the event that the holder of a prospecting permit desires to strip mine or underground mine the area covered by the prospecting permit and has fulfilled all the requirements for a strip-mining or underground-mining permit, the department may permit the postponement of the reclamation of the acreage prospected if that acreage is incorporated into the complete reclamation plan submitted with the application for a strip-mining or underground-mining permit. Any land actually affected by prospecting or excavating under a prospecting permit and not covered by the strip-mining or underground-mining reclamation plan must be promptly reclaimed.

~~(6)~~(5) The prospecting permit is valid for 1 year and is subject to renewal, suspension, and revocation in the same manner as strip-mining or underground-mining permits under this part.

~~(7)~~(6) The holder of the prospecting permit shall file with the department the same progress reports, maps, and revegetation progress reports as are required of strip-mining or underground-mining operators under this part.

~~(8)~~(7) Prospecting that is not conducted in an area designated unsuitable for coal mining pursuant to 82-4-227 or 82-4-228, that is not conducted for the purpose of determining the location, quality, or quantity of a mineral deposit, and that does not remove more than 250 tons of coal is not subject to subsections (1) through ~~(7)~~ (6). In addition, prospecting that is conducted to determine the location, quality, or quantity of a mineral deposit outside an area designated unsuitable, that does not remove more than 250 tons of coal, and that does not substantially disturb the natural land surface is not subject to subsections (1) through ~~(7)~~ (6). However, a person who conducts prospecting described in this subsection shall file with the department a notice of intent to prospect that contains the information required by the department before commencing prospecting operations. If this prospecting substantially disturbs the natural land surface, it must be conducted in accordance with the performance standards of the board's rules regulating the conduct and reclamation of prospecting operations that remove coal. The department may inspect these prospecting and reclamation operations at any reasonable time."

Section 5. Section 82-4-227, MCA, is amended to read:

"82-4-227. Refusal of permit. (1) An application for a prospecting, strip-mining, or underground-mining permit or major revision may not be approved by the department unless, on the basis of the information set forth in the application, in an onsite inspection, and in an evaluation of the operation by the department, the applicant has affirmatively demonstrated that the requirements of this part and rules will be observed and that the proposed method of operation, backfilling, grading, subsidence stabilization, water control, highwall reduction, topsoiling, revegetation, or reclamation of the affected area can be carried out consistently with the purpose of this part. The applicant for a permit or major revision has the burden of establishing that the application is in compliance with this part and the rules adopted under it.

(2) The department may not approve the application for a prospecting, strip-mining, or underground-mining permit when the area of land described in the application includes land that has special, exceptional, critical, or unique characteristics or when mining or prospecting on that area would adversely affect the use, enjoyment, or fundamental character of neighboring land that has special, exceptional, critical, or unique characteristics. For the purposes of this part, land is defined as having these characteristics if it possesses special, exceptional, critical, or unique:

(a) biological productivity, the loss of which would jeopardize certain species of wildlife or domestic stock;

(b) ecological fragility, in the sense that the land, once adversely affected, could not return to its former ecological role in the reasonably foreseeable future;

(c) ecological importance, in the sense that the particular land has such a strong influence on the total ecosystem of which it is a part that even temporary

effects felt by it could precipitate a systemwide reaction of unpredictable scope or dimensions; or

(d) scenic, historic, archaeologic, topographic, geologic, ethnologic, scientific, cultural, or recreational significance. In applying the provisions of this subsection (d), particular attention should be paid to the inadequate preservation previously accorded Plains Indian history and culture.

(3) The department may not approve an application for a strip- or underground-coal-mining permit or major revision unless the application affirmatively demonstrates that:

(a) the assessment of the probable cumulative impact of all anticipated mining in the area on the hydrologic balance has been made by the department and the proposed operation of the mining operation has been designed to prevent material damage to the hydrologic balance outside the permit area; and

(b) the proposed strip- or underground-coal-mining operation would not:

(i) interrupt, discontinue, or preclude farming on alluvial valley floors that are irrigated or naturally subirrigated, excluding undeveloped rangelands that are not significant to farming on alluvial valley floors and excluding land about which the department finds that if any farming will be interrupted, discontinued, or precluded, it is of such small acreage as to be of negligible impact on the farm's agricultural production; or

(ii) materially damage the quantity or quality of water in surface water or underground water systems that supply the valley floors described in subsection (3)(b)(i).

(4) Subsection (3)(b) does not affect those strip- or underground-coal-mining operations that in the year preceding the enactment of Public Law 95-87 produced coal in commercial quantities and were located within or adjacent to alluvial valley floors or had obtained specific permit approval by the department to conduct strip- or underground-coal-mining operations within alluvial valley floors. If coal deposits are precluded from being mined under this subsection, the director of the department shall certify to the secretary of interior that the mineral owner or lessee may be eligible for participation in coal exchange programs pursuant to section 510(5) of Public Law 95-87.

(5) (a) If the area proposed to be mined contains prime farmland, the department may not grant a permit to mine coal on the prime farmland unless it finds in writing that the applicant:

(i) has the technological capability to restore the mined area, within a reasonable time, to levels of yield equivalent to or higher than nonmined prime farmland in the surrounding area under equivalent levels of management; and

(ii) can meet the soil reconstruction standards of 82-4-232(3).

(b) Nothing in this subsection (5) applies to a permit issued prior to August 3, 1977, or to any revisions or renewals of the permit or to any existing strip- or underground-mining operations for which a permit was issued prior to August 3, 1977.

(6) If the department finds that the overburden on any part of the area of land described in the application for a prospecting, strip-mining, or underground-mining permit is such that experience in the state with a similar type of operation upon land with similar overburden shows that substantial deposition of sediment in streambeds, subsidence, landslides, or water pollution cannot feasibly be prevented, the department shall delete that part of the land

described in the application upon which the overburden exists. The burden is on the applicant to demonstrate that any area should not be deleted under this subsection.

(7) If the department finds that the operation will constitute a hazard to a dwelling, public building, school, church, cemetery, commercial or institutional building, public road, stream, lake, or other public property, the department shall delete those areas from the prospecting, strip-mining, or underground-mining permit application before it can be approved. Strip- or underground-coal-mining may not be allowed:

- (a) within 300 feet of an occupied dwelling, unless waived by the owner;
- (b) within 300 feet of any public building, school, church, community, or institutional building, or public park;
- (c) within 100 feet of a cemetery;
- (d) within 100 feet of the outside right-of-way line of any public road, except where mine access roads or haulage roads join the right-of-way line. The department may permit the roads to be relocated or the area affected to lie within 100 feet of the road if, after public notice and opportunity for public hearing in the locality, a written finding is made that the interests of the public and the landowners affected will be protected.

(8) Strip- or underground-mining may not be conducted within 500 feet of active or abandoned underground mines in order to prevent breakthroughs and to protect health or safety of miners. However, the department shall permit an operator to mine near, through, or partially through an abandoned underground mine or closer to an active underground mine if:

- (a) the nature, timing, and sequencing of specific strip-mine activities and specific underground-mine activities are jointly approved by the department and the regulatory authority concerned with the health and safety of underground miners; and
- (b) the operations will result in improved resource recovery, abatement of water pollution, or elimination of hazards to the health and safety of the public.

(9) The department may not approve an application for a strip- or underground-coal-mining operation if the area proposed to be mined is included:

- (a) within an area designated unsuitable for strip or underground coal mining; or
- (b) within an area under review for this designation under an administrative proceeding, unless in an area as to which an administrative proceeding has commenced pursuant to this part, the operator making the permit application demonstrates that prior to January 1, 1977, the operator made substantial legal and financial commitments in relation to the operation for which the operator is applying for a permit.

(10) A permit or major permit revision for a strip- or underground-coal-mining operation may not be issued unless the applicant has affirmatively demonstrated by its coal conservation plan that failure to conserve coal will not occur. The department may require the applicant to submit any information it considers necessary for review of the coal conservation plan.

(11) Whenever information available to the department indicates that a strip- or underground-coal-mining operation that is owned or controlled by the

applicant or by any person who owns or controls the applicant is currently in violation of Public Law 95-87, as amended, any state law required by Public Law 95-87, as amended, or any law, rule, or regulation of the United States or of any department or agency in the United States pertaining to air or water environmental protection, the department may not issue a strip- or underground-coal-mining permit or amendment, other than an incidental boundary revision, until the applicant submits proof that the violation has been corrected or is in the process of being corrected to the satisfaction of the administering agency.

(12) The department may not issue a strip- or underground-coal-mining permit or amendment, other than an incidental boundary revision, to any applicant that it finds, after an opportunity for hearing, owns or controls any strip- or underground-coal-mining operation that has demonstrated a pattern of willful violations of Public Law 95-87, as amended, or any state law required by Public Law 95-87, as amended, when the nature and duration of the violations and resulting irreparable damage to the environment indicate an intent not to comply with the provisions of this part.

(13) Subject to valid existing rights, no strip- or underground-coal-mining operations except those that existed as of August 3, 1977, may be conducted:

(a) on lands within the boundaries of units of the national park system, the national wildlife refuge ~~systems~~ *system*, the national wilderness preservation system, *the national system of trails*, the wild and scenic rivers system, including study rivers designated under section 5(a) of the Wild and Scenic Rivers Act *or study rivers or study river corridors established in any guidelines issued under that act*, or national recreation areas designated by *an* act of congress; or

(b) *on any federal lands within national forests, subject to the exceptions and limitations of 30 CFR 761.11(b) and the procedures of 30 CFR 761.13."*

Section 6. Section 82-4-231, MCA, is amended to read:

"82-4-231. Submission of and action on reclamation plan. (1) As rapidly, completely, and effectively as the most modern technology and the most advanced state of the art will allow, each operator granted a permit under this part shall reclaim and revegetate the land affected by the operation, except that underground tunnels, shafts, or other subsurface excavations need not be revegetated. Under the provisions of this part and rules adopted by the board, an operator shall prepare and carry out a method of operation, a plan of grading, backfilling, highwall reduction, subsidence stabilization, water control, and topsoiling and a reclamation plan for the area of land affected by the operation. In developing a method of operation and plans of grading, backfilling, highwall reduction, subsidence stabilization, water control, topsoiling, and reclamation, all measures must be taken to eliminate damages to landowners and members of the public, their real and personal property, public roads, streams, and all other public property from soil erosion, subsidence, landslides, water pollution, and hazards dangerous to life and property.

(2) The reclamation plan must set forth in detail the manner in which the applicant intends to comply with 82-4-232 through 82-4-234 and this section and the steps to be taken to comply with applicable air and water quality laws and rules and any applicable health and safety standards.

(3) The application for a permit or major revision of a permit, which must contain the reclamation plan, must be submitted to the department.

(4) The department shall determine whether the application is administratively complete. An application is administratively complete if it contains information addressing each application requirement in 82-4-222 and the rules implementing that section and all information necessary to initiate processing and public review. The department shall notify the applicant in writing of its determination no later than 90 days after submittal of the application. If the department determines that the application is not administratively complete, it shall specify in the notice those items that the application must address. The application is presumed administratively complete as to those requirements not specified in the notice.

(5) If the department determines that an environmental impact statement on the application is required, it shall notify the applicant in writing at the same time it gives the applicant notice pursuant to subsection (4).

(6) After the applicant receives notice that the application is administratively complete, the applicant shall publish notice of filing of the application once a week for 4 consecutive weeks in a newspaper of general circulation in the locality of the proposed operation. The department shall notify various local governmental bodies, planning agencies, sewage and water treatment authorities, and water companies in the locality in which the proposed mining will take place of the application and provide a reasonable time for them to submit written comments. Any person having an interest that is or may be adversely affected or the officer or head of any federal, state, or local governmental agency or authority may file written objections to the proposed initial or revised application for permit or major revision within 30 days of the applicant's published notice. If written objections are filed and an objector requests an informal conference, the department shall hold an informal conference in the locality of the proposed operation within 30 days of receipt of the request. The department shall notify the applicant and all parties to the informal conference of its decision and the reasons for its decision within 60 days of the informal conference. The department may arrange with the applicant upon request by any party to the administrative proceeding for access to the proposed mining area for the purpose of gathering information relevant to the proceeding.

(7) The filing of written objections or a request for an informal conference may not preclude the department from proceeding with its review of the application as specified in subsection (8).

(8) (a) The department shall review each administratively complete application and determine the acceptability of the application. During the review, the department may propose modifications to the application or delete areas from the application in accordance with the requirements of 82-4-227. A complete application is considered acceptable when the application is in compliance with all of the applicable requirements of this part and the regulatory program pursuant to this part.

(b) If the applicant significantly modifies the application after the application has been determined administratively complete in accordance with subsection (4), the department shall under this section either deny the application or conduct a new review, including an administrative completeness determination, public notice, and objection period.

(c) If an environmental impact statement is determined to be necessary prior to making a permit decision, the department shall complete and publish

the final environmental impact statement at least 15 days prior to the date of issuance of the written findings pursuant to subsection (8)(f).

(d) Except as provided in 75-1-208(4)(b), within 120 days after it determines that an application is administratively complete, the department shall notify the applicant in writing whether the application is or is not acceptable. If the application is not acceptable, the department shall set forth the reasons why it is not acceptable, and it may propose modifications, delete areas, or reject the entire application. All items not specified as unacceptable in the department's notification are presumed to be acceptable. Except as provided in 75-1-208(4)(b), if the applicant revises the application in response to a notice of unacceptability, the department shall review the revised application and notify the applicant in writing within 120 days of the date of receipt whether the revised application is acceptable. If the revision constitutes a significant modification under subsection (8)(b), the department shall conduct a new review, beginning with an administrative completeness determination.

(e) When the application is determined to be acceptable, the department shall publish notice of its determination once a week for 2 consecutive weeks in a newspaper of general circulation in the locality of the proposed operation. Any person having an interest that is or may be adversely affected may file a written objection to the determination within 10 days of the department's last published notice. If a written objection is filed and an objector requests an informal conference, the department shall hold an informal conference in the locality of the proposed operation within 20 days of receipt of the request. The department shall notify the applicant and all parties to the informal conference of its decision and the reasons for the decision within 10 days of the informal conference.

(f) Except as provided in 75-1-208(4)(b), the department shall prepare written findings granting or denying the permit or major revision application in whole or in part not later than 45 days from the date the application is determined acceptable. However, if lands subject to the federal lands program are included in the application for permit or major revision, the department shall prepare and submit written findings to the federal regulatory authority. If the department's decision is to grant the permit, the department shall issue the permit on the date of its written finding or, if any federal concurrence is necessary, on the date when the concurrence is obtained. If the application is denied, specific reasons for the denial must be set forth in the written notification to the applicant.

(g) If the department fails to act within the times specified in this subsection (8), it shall immediately notify the board in writing of its failure to comply and the reasons for the failure to comply.

(9) The applicant, a landowner, or any person with an interest that is or may be adversely affected by the department's permit decision may within 30 days of that decision submit a written notice requesting a hearing. The notice must contain the grounds upon which the requester contends that the decision is in error. The hearing must be held *started* within 30 days of the request. For purposes of a hearing, the ~~department board or its hearings officer~~ may order site inspections of the area pertinent to the application. The ~~department board~~ shall within 20 days of the hearing notify the person who requested the hearing, by certified mail, and all other persons, by regular mail, of the findings and decisions. A person who presided at the informal conference may not preside at the hearing or participate in the decision.

(10) In addition to the method of operation, grading, backfilling, highwall reduction, subsidence stabilization, water control, topsoiling, and reclamation requirements of this part and rules adopted under this part, the operator, consistent with the directives of subsection (1), shall:

(a) bury under adequate fill all toxic materials, shale, mineral, or any other material determined by the department to be acid-producing, toxic, undesirable, or creating a hazard;

(b) as directed by rules, seal off tunnels, shafts, or other openings or any breakthrough of water creating a hazard;

(c) impound, drain, or treat all runoff or underground mine waters so as to reduce soil erosion, damage to grazing and agricultural lands, and pollution of surface and subsurface waters;

(d) remove or bury all metal, lumber, and other refuse resulting from the operation;

(e) use explosives in connection with the operation only in accordance with department regulations designed to minimize noise, damage to adjacent lands, and water pollution and ensure public safety and for other purposes;

(f) adopt measures to prevent land subsidence unless the department approves a plan for inducing subsidence into an abandoned operation in a predictable and controlled manner, with measures for grading, topsoiling, and revegetating the subsided land surface. In order for a controlled subsidence plan to be approved, the applicant is required to show that subsidence will not cause a direct or indirect hazard to any public or private buildings, roads, facilities, or use areas, constitute a hazard to human life or health or to domestic livestock or a viable agricultural operation, or violate any other restrictions the department may consider necessary.

(g) stockpile and protect from erosion all mining and processing wastes until these wastes can be disposed of according to the provisions of this part;

(h) deposit as much stockpiled waste material as possible back into the mine voids upon abandonment in a manner that will prevent or minimize land subsidence. The remaining waste material must be disposed of as provided by this part and the rules of the board.

(i) seal all portals, entryways, drifts, shafts, or other openings between the surface and underground mine workings when no longer needed;

(j) to the extent possible using the best technology currently available, minimize disturbances and adverse impacts of the operation on fish, wildlife, and related environmental values and achieve enhancement of those resources when practicable;

(k) minimize the disturbances to the prevailing hydrologic balance at the mine site and in adjacent areas and to the quality and quantity of water in surface water and ground water systems both during and after strip- or underground-coal-mining operations and during reclamation as necessary to support postmining land uses and to prevent material damage to the hydrologic balance in the adjacent area by:

(i) avoiding acid or other toxic mine drainage by measures including but not limited to:

(A) preventing or removing water from contact with toxic-producing deposits;

(B) treating drainage to reduce toxic content that adversely affects downstream water upon being released to watercourses;

(C) casing, sealing, or otherwise managing boreholes, shafts, and wells and keeping acid or other toxic drainage from entering ground and surface waters;

(ii) (A) conducting strip- or underground-mining operations so as to prevent, to the extent possible using the best technology currently available, additional contributions of suspended solids to streamflow or runoff outside the permit area, but the contributions may not be in excess of requirements set by applicable state or federal law;

(B) constructing any siltation structures pursuant to subsection (10)(k)(ii)(A) prior to commencement of strip- or underground-mining operations, with the structures to be certified by a qualified registered engineer and to be constructed as designed and as approved in the reclamation plan;

(iii) cleaning out and removing temporary or large settling ponds or other siltation structures from drainways after disturbed areas are revegetated and stabilized and depositing the silt and debris at a site and in a manner approved by the department;

(iv) restoring recharge capacity of the mined area to approximate premining conditions;

(v) avoiding channel deepening or enlargement in operations that requires the discharge of water from mines;

(vi) preserving throughout the mining and reclamation process the essential hydrologic functions of alluvial valley floors in the arid and semiarid areas of the country;

(vii) designing and constructing reclaimed channels of intermittent streams and perennial streams to ensure long-term stability; and

(viii) any other actions that the department may prescribe to protect the hydrologic balance as necessary to support postmining land uses within the area affected and to prevent material damage to the hydrologic balance in adjacent areas;

(l) conduct strip- or underground-mine operations in accordance with the approved coal conservation plan;

(m) stabilize and protect all surface areas, including spoil piles, to effectively control air pollution;

(n) seal all auger holes with an impervious and noncombustible material in order to prevent drainage except when the department determines that the resulting impoundment of water in the auger holes may create a hazard to the environment or the public health and safety;

(o) develop contingency plans to prevent sustained combustion;

(p) refrain from construction of roads or other access ways up a streambed or drainage channel or in proximity to the channel so as to seriously alter the normal flow of water;

(q) meet other criteria that are necessary to achieve reclamation in accordance with the purposes of this part, taking into consideration the physical, climatological, and other characteristics of the site;

(r) with regard to underground mines, eliminate fire hazards and otherwise eliminate conditions that constitute a hazard to health and safety of the public;

(s) locate openings for all new drift mines working acid-producing or iron-producing coal seams in a manner that prevents a gravity discharge of water from the mine.

(11) An operator may not throw, dump, pile, or permit the throwing, dumping, or piling or otherwise placing of any overburden, stones, rocks, mineral, earth, soil, dirt, debris, trees, wood, logs, or any other materials or substances of any kind or nature beyond or outside of the area of land that is under permit and for which a bond has been posted under 82-4-223 or place the materials described in this section in a way that normal erosion or slides brought about by natural physical causes will permit the materials to go beyond or outside of that area of land. An operator shall conduct the strip- or underground-mining operation in a manner that protects areas outside the permit area. (Certain 2003 amendments void on occurrence of contingency—sec. 15, Ch. 204, L. 2003.)”

Section 7. Section 82-4-232, MCA, is amended to read:

“82-4-232. Area mining required — bond — alternative plan. (1) (a) Area strip mining, a method of operation that does not produce a bench or fill bench, is required where strip mining is proposed. The area of land affected must be backfilled and graded to the approximate original contour of the land. However:

(i) consistent with the adjacent unmined landscape elements, the operator may propose and the department may approve regraded topography gentler than premining topography in order to enhance the postmining land use and develop a postmining landscape that will provide greater moisture retention, greater stability, and reduced soil losses from runoff and erosion;

(ii) postmining slopes may not exceed the angle of repose or lesser slope as is necessary to achieve a long-term static safety factor of 1.3 or greater and to prevent slides;

(iii) permanent impoundments may be approved if they are suitable for the postmining land use and otherwise meet the requirements of this part, as provided by board rules; and

(iv) reclaimed topography must be suitable for the approved postmining land use.

(b) Spoil from the first cut is not required to be transported to the last cut if highwalls are eliminated, box cut spoils are graded to blend in with the surrounding terrain, and the approximate original contour of the land is achieved.

(c) When directed by the department, the operator shall construct in the final grading diversion ditches, depressions, or terraces that will accumulate or control the water runoff.

(2) In addition to the backfilling and grading requirements, the operator’s method of operation on steep slopes may be regulated and controlled according to rules adopted by the board. These rules may require any measure to accomplish the purpose of this part.

(3) For coal mining on prime farmlands, the board shall establish by rule specifications for soil removal, storage, replacement, and reconstruction, and the operator must as a minimum be required to:

(a) segregate the A horizon of the natural soil, except where it can be shown that other available soil materials will create a final soil having a greater

productive capacity; and if not used immediately, stockpile this material separately from other spoil and provide needed protection from wind and water erosion or contamination by other acid or toxic material;

(b) segregate the B horizon of the natural soil, or underlying C horizon or other strata, or a combination of such horizons or other strata that are shown to be both texturally and chemically suitable for plant growth and that can be shown to be equally or more favorable for plant growth than the B horizon in sufficient quantities to create in the regraded final soil a root zone of comparable depth and quality to that which existed in the natural soil; and if not used immediately, stockpile this material separately from other spoil and provide needed protection from wind and water erosion or contamination by acid or toxic material;

(c) replace and regrade the root zone material described in subsection (3)(b) with proper compaction and uniform depth over the regraded spoil material; and

(d) redistribute and grade in a uniform manner the surface soil horizon described in subsection (3)(a).

(4) All available topsoil must be removed in a separate layer, guarded from erosion and pollution, and kept in such a condition that it can sustain vegetation of at least the quality and variety it sustained prior to removal, provided that the operator shall accord substantially the same treatment to any subsurface deposit of material that is capable, as determined by the department, of supporting surface vegetation virtually as well as the present topsoil. After the operation has been backfilled and graded, the topsoil or the best available subsurface deposit of material that is best able to support vegetation must be returned as the top layer.

(5) As determined by rules of the board, time limits must be established requiring backfilling, grading, subsidence stabilization, water control, highwall reduction, topsoiling, planting, and revegetation to be kept current. All backfilling, subsidence stabilization, sealing, grading, and topsoiling must be completed before necessary equipment is moved from the operation.

(6) (a) ~~The permittee may file a request~~ *an application* with the department for the release of all or part of a performance bond or deposit. ~~Within 30 days after any application for bond or deposit release has been filed with the department, the permittee shall submit a copy of an advertisement notice placed at least once a week for 4 successive weeks in a newspaper of general circulation in the locality of the prospecting or mining operation. The notice is considered part of any bond release~~ *The application and must contain a notification proposed public notice* of the precise location of the land affected, the number of acres *for which bond release is sought*, the permit and the date approved, the amount of the bond filed and the portion sought to be released, the type and appropriate dates of reclamation work performed, and a description of the results achieved as they relate to the permittee's approved reclamation plan. In addition, as part of any bond release application, the permittee shall submit copies of letters that the permittee has sent to adjoining property owners, local governmental bodies, planning agencies, and sewage and water treatment authorities or water companies in the locality of the operation, notifying them of the permittee's intention to seek release from the bond.

(b) *The department shall determine whether the application is administratively complete. An application is administratively complete if it includes:*

- (i) *the location and acreage of the land for which bond release is sought;*
- (ii) *the amount of bond release sought;*
- (iii) *a description of the completed reclamation, including the date of performance;*

(iv) *a discussion of how the results of the completed reclamation satisfy the requirements of the approved reclamation plan; and*

- (v) *information required by rules implementing this part.*

(c) *The department shall notify the applicant in writing of its determination no later than 60 days after submittal of the application. If the department determines that the application is not administratively complete, it shall specify in the notice those items that the application must address. After an application for bond release has been determined to be administratively complete by the department, the permittee shall publish a public notice that has been approved as to form and content by the department at least once a week for 4 successive weeks in a newspaper of general circulation in the locality of the mining operation.*

(d) *Any person with a valid legal interest that might be adversely affected by the release of a bond or the responsible officer or head of any federal, state, or local governmental agency that has jurisdiction by law or special expertise with respect to any environmental, social, or economic impact involved in the operation or is authorized to develop and enforce environmental standards with respect to the operation may file written objections to the proposed release of bond to the department within 30 days after the last publication of the notice. If written objections are filed and a hearing is requested, the department shall hold a public hearing in the locality of the operation proposed for bond release or in Helena, at the option of the objector, within 30 days of the request for hearing. The department shall inform the interested parties of the time and place of the hearing. The date, time, and location of the public hearing must be advertised by the department in a newspaper of general circulation in the locality for 2 consecutive weeks. Within 30 days after the hearing, the department shall notify the permittee and the objector of its final decision.*

(e) *Without prejudice to the rights of the objector or the permittee or the responsibilities of the department pursuant to this section, the department may establish an informal conference to resolve written objections.*

(f) *For the purpose of the hearing under subsection (6)(d), the department may administer oaths, subpoena witnesses or written or printed materials, compel the attendance of witnesses or the production of materials, and take evidence, including but not limited to conducting inspections of the land affected and other operations carried on by the permittee in the general vicinity. A verbatim record of each public hearing required by this section must be made, and a transcript must be made available on the motion of any party or by order of the department.*

(g) *If the applicant significantly modifies the application after the application has been determined to be administratively complete, the department shall conduct a new review, including an administrative completeness determination. A significant modification includes, but is not limited to:*

- (i) *the notification of an additional property owner, local governmental body, planning agency, or sewage and water treatment authority of the permittee's intention to seek a bond release;*

(ii) a material increase in the acreage for which a bond release is sought or in the amount of bond release sought; or

(iii) a material change in the reclamation for which a bond release is sought or the information used to evaluate the results of that reclamation.

~~(b)(h) Upon receipt of the request and copies of the notification made under subsection (6)(a), the~~ The department shall, within 30 days of determining that the application is administratively complete or as soon as weather permits, conduct an inspection and evaluation of the reclamation work involved. In the evaluation, the department shall consider, among other things, the degree of difficulty in completing any remaining reclamation, whether pollution of surface and subsurface water is occurring, the probability of continuance or future occurrence of the pollution, and the estimated cost of abating the pollution. ~~The department shall notify the permittee in writing of its decision to release or not to release all or part of the performance bond within 60 days of the filing of the request if a public hearing is not held pursuant to subsection (6)(f) or, if a public hearing is held pursuant to that subsection, within 30 days after the hearing.~~

(i) The department shall review each administratively complete application to determine the acceptability of the application. A complete application is acceptable if the application is in compliance with all of the applicable requirements of this part, the rules adopted under this part, and the permit.

(j) (i) The department shall notify the applicant in writing regarding the acceptability of the application no later than 60 days from the date of the inspection.

(ii) If the department determines that the application is not acceptable, it shall specify in the notice those items that the application must address.

(iii) If the applicant revises the application in response to a notice of unacceptability, the department shall review the revised application and notify the applicant in writing within 60 days of the date of receipt as to whether the revised application is acceptable.

(iv) If the revision constitutes a significant modification, the department shall conduct a new review, beginning with an administrative completeness determination.

(v) A significant modification includes, but is not limited to:

(A) the notification of an additional property owner, local governmental body, planning agency, or sewage and water treatment authority of the permittee's intention to seek a bond release;

(B) a material increase in the acreage for which a bond release is sought or the amount of bond release sought; or

(C) a material change in the reclamation for which a bond release is sought or the information used to evaluate the results of that reclamation.

~~(e)(k)~~ The department may release the bond or deposit in whole or in part if it is satisfied the reclamation covered by the bond or deposit or portion of the bond or deposit has been accomplished as required by this part according to the following schedule:

(i) When the permittee completes the plugging, backfilling, regrading, and drainage control of a bonded area in accordance with the approved reclamation

plan, the department shall release 60% of the bond or collateral for the applicable permit area.

(ii) After revegetation has been established on the regraded lands in accordance with the approved reclamation plan, the department shall, for the period specified for operator responsibility of reestablishing revegetation, retain that amount of bond for the revegetated area that would be sufficient for a third party to cover the cost of reestablishing revegetation. Whenever a silt dam is to be retained as a permanent impoundment, the portion of bond may be released under this subsection ~~(6)(e)(ii)~~ (6)(k)(ii) if provisions for sound future maintenance by the operator or the landowner have been made with the department. Any part of the bond ~~or deposit~~ may not be released under this subsection ~~(6)(e)(ii)~~ (6)(k)(ii):

(A) as long as the lands to which the release would be applicable are contributing suspended solids to streamflow or runoff outside the permit area in excess of the requirements of 82-4-231(10)(k); or

(B) before soil productivity for prime farm lands to which the release would be applicable has returned to equivalent levels of yield as nonmined land of the same soil type in the surrounding area under equivalent management practices, as determined from the soil survey.

(iii) When the permittee has successfully completed all prospecting, mining, and reclamation activities, the department shall release the remaining portion of the bond, but not before the expiration of the period specified for responsibility and not until all reclamation requirements of this part are fully met.

~~(d)(l)~~ If the department disapproves the application for release of the bond or a portion of the bond, it shall notify the permittee, in writing, stating the reasons for disapproval and recommending corrective actions necessary to secure the release and allowing opportunity for a public hearing.

(e)(m) When an application for total or partial bond release is filed with the department, it shall notify the municipality *or county* in which a prospecting or mining operation is located by certified mail at least 30 days prior to the release of all or a portion of the bond.

~~(f) Any person with a valid legal interest that might be adversely affected by release of the bond or the responsible officer or head of any federal, state, or local governmental agency that has jurisdiction by law or special expertise with respect to any environmental, social, or economic impact involved in the operation or is authorized to develop and enforce environmental standards with respect to the operations has the right to file written objections to the proposed release from bond to the department within 30 days after the last publication of the notice provided for in subsection (6)(a). If written objections are filed and a hearing is requested, the department shall inform all the interested parties of the time and place of the hearing and, within 30 days of the request for the hearing, hold a public hearing in the locality of the operation proposed for bond release. The date, time, and location of the public hearing must be advertised by the department in a newspaper of general circulation in the locality for 2 consecutive weeks, and the hearing must be held in the locality of the operation proposed for bond release or at the state capital, at the option of the objector, within 30 days of the request for the hearing.~~

~~(g) Without prejudice to the rights of the objectors or the permittee or the responsibilities of the department pursuant to this section, the department may establish an informal conference to resolve written objections.~~

~~(h) For the purpose of the hearing under subsection (G)(f), the department may administer oaths; subpoena witnesses or written or printed materials; compel the attendance of witnesses or the production of materials; and take evidence, including but not limited to site inspections of the land affected and other operations carried on by the permittee in the general vicinity. A verbatim record of each public hearing required by this section must be made, and a transcript must be made available on the motion of any party or by order of the department.~~

(7) All disturbed areas must be reclaimed in a timely manner to conditions that are capable of supporting the land uses that they were capable of supporting prior to any mining or to higher or better uses as approved pursuant to subsection (8).

(8) (a) An operator may propose a higher or better use as an alternative postmining land use. If the landowner is not the operator, the operator shall submit written documentation of the concurrence of the landowner or the land management agency with jurisdiction over the land. The department may approve the proposed alternative postmining land use only if it meets all of the following criteria:

(i) There is a reasonable likelihood for achievement of the ~~alternate~~ *alternative* land use.

(ii) The ~~alternate~~ *alternative* land use does not present any actual or probable hazard to the public health or safety or any threat of water diminution or pollution.

(iii) The ~~alternate~~ *alternative* land use will not:

(A) be impractical or unreasonable;

(B) be inconsistent with applicable land use policies or plans;

(C) involve unreasonable delay in implementation; or

(D) cause or contribute to violation of federal, state, or local law.

(b) As used in this section, the term "landowner" includes a person who has sold the surface estate to the operator with an option to repurchase the surface estate after mining and reclamation are complete.

(9) The reclamation plan must incorporate appropriate wildlife habitat enhancement features that are integrated with cropland, grazing land, pastureland, land occasionally cut for hay, or other uses in order to enhance habitat diversity, with emphasis on big game animals, game birds, and threatened and endangered species that have been documented to live in the area of land affected, and to enhance wetlands and riparian areas along rivers and streams and bordering ponds and lakes. Incorporation of wildlife habitat enhancement features does not constitute a change in land use to fish and wildlife habitat and may not interfere with the designated land use.

(10) Facilities existing prior to mining, including but not limited to public roads, utility lines, railroads, or pipelines, may be replaced as part of the reclamation plan. (Certain 2003 amendments void on occurrence of contingency—sec. 15, Ch. 204, L. 2003.)"

Section 8. Section 82-4-233, MCA, is amended to read:

"82-4-233. Planting of vegetation following grading of disturbed area. (1) The operator shall establish on regraded areas and on all other disturbed areas, except water areas, surface areas of roads, and other

constructed features approved as part of the postmining land use, a vegetative cover that is in accordance with the approved permit and reclamation plan and that is:

- (a) diverse, effective, and permanent;
 - (b) composed of species native to the area or of introduced species when desirable and necessary to achieve the postmining land use and when approved by the department;
 - (c) at least equal in extent of cover to the natural vegetation of the area; and
 - (d) capable of stabilizing the soil surface in order to control erosion to the extent appropriate for the approved postmining land use.
- (2) The reestablished plant species must:
- (a) be compatible with the approved postmining land use;
 - (b) have the same seasonal growth characteristics as the original vegetation;
 - (c) be capable of self-regeneration and plant succession;
 - (d) be compatible with the plant and animal species of the area; and
 - (e) meet the requirements of applicable seed, poisonous and noxious plant, and introduced species laws or regulations.
- (3) Reestablished vegetation must be appropriate to the postmining land use so that when the postmining land use is:
- (a) cropland, the requirements of subsections (1)(a), (1)(c), (2)(b), and (2)(c) are not applicable;
 - (b) pastureland or grazing land, reestablished vegetation must have use for grazing by domestic livestock at least comparable to premining conditions or enhanced when practicable;
 - (c) fish and wildlife habitat, forestry, or recreation, trees and shrubs must be planted to achieve appropriate stocking rates.
- (4) All underground shafts, tunnels, or other excavations are excluded from the provisions of subsection (1).

~~(5) For land that was mined, disturbed, or redisturbed after May 2, 1978, and that was seeded prior to January 1, 1984, using a seed mix that was approved by the department and on which the reclaimed vegetation otherwise meets the requirements of subsections (1) and (2) and applicable state and federal seed and vegetation laws and rules, introduced species are considered desirable and necessary to achieve the postmining land use and may compose a major or dominant component of the reclaimed vegetation. (Certain 2003 amendments void on occurrence of contingency—sec. 15, Ch. 204, L. 2003.)~~

Section 9. Section 82-4-235, MCA, is amended to read:

“82-4-235. Determination of successful revegetation — final bond release. (1) Success of revegetation must be judged on the effectiveness of the vegetation for the approved postmining land use, the extent of cover compared to the cover occurring in the natural vegetation, and the requirements of 82-4-233. Standards for success are:

- (a) for areas reclaimed for use as cropland, crop production must be at least equal to that achieved prior to mining based on comparison with historical data, comparable reference areas, or United States department of agriculture

publications applicable to the area of the operation, as referenced in rules adopted by the board;

(b) for areas reclaimed for use as pastureland or grazing land, the ground cover and production of living plants on the revegetated area must be at least equal to that of a reference area or other standard approved by the department as appropriate for the postmining land use;

(c) for areas reclaimed for use as fish and wildlife habitat, forestry, or recreation, success of revegetation must be determined on the basis of approved tree density standards or shrub density standards, or both, and vegetative ground cover required to achieve the postmining land use;

(d) reestablished vegetation is diverse if multiple plant species meeting the requirements of 82-4-233(1)(b) are present. The department may approve a lesser diversity standard for postmining land uses other than grazing land.

(e) reestablished vegetation is considered effective if the postmining land use is achieved and erosion is controlled;

(f) reestablished vegetation is considered permanent if it is diverse and effective at the end of the 10-year responsibility period specified under subsection (2); and

(g) plant species composing the reestablished vegetation are considered to have the same seasonal characteristics of growth as the original vegetation, to be capable of regeneration and plant succession, and to be compatible with the plant and animal species of the area if those plant species are native to the area, are introduced species that have become naturalized, or are introduced species approved by the department as desirable and necessary to achieve the postmining land use.

(2) Inspection and evaluation of reclaimed vegetative cover must be made as soon as possible following an application for final bond release to determine if a satisfactory stand has been established. If the department determines that a satisfactory vegetative cover has been established, it shall release the remaining bond held on the area reclaimed after public notice and an opportunity for hearing as provided in 82-4-232(6). The remaining bond may not be released prior to a period of 10 years after the last year of augmented seeding, fertilizing, irrigation, or other work required under this part for those operations or portions of operations that were seeded after May 2, 1978, or prior to a period of 5 years after initial planting for all exploration activities and all other operations.

(3) (a) Notwithstanding the provision in subsection (2), on land from which coal was removed prior to May 3, 1978, and on land from which coal was not removed and that was not used, disturbed, or redisturbed in connection with this part after May 2, 1978, *pursuant to a permit issued by the department under this part*, the department may approve for release a bond on an area of reclaimed vegetation that meets the following criteria:

(i) it was seeded using a seed mixture that was approved by the department under the criteria established pursuant to 82-4-233 and that included introduced species; and

(ii) at least one of the following conditions exists:

(A) the standards of 82-4-233(1) are otherwise achieved;

(B) the operator has demonstrated substantial usefulness of the reclaimed vegetation for grazing of livestock;

(C) the operator demonstrates that the reclaimed vegetation has substantial value as a habitat component for wildlife present in the area; or

(D) the topography and soils are suitable for conversion to cropland or hayland consistent with the standards of 82-4-232 and the department approves and the operator completes that conversion.

(b) On lands that meet the criteria described in subsection (3)(a), interseeding or supplemental planting may be performed without reinitiating the liability period provided in subsection (2). (Certain 2003 amendments void on occurrence of contingency—sec. 15, Ch. 204, L. 2003.)”

Section 10. Section 82-4-251, MCA, is amended to read:

“82-4-251. Noncompliance — suspension of permits. (1) If it is determined on the basis of an inspection that the permittee is or that any condition or practice exists in violation of any requirement of this part or any permit condition required by this part that creates an imminent danger to the health or safety of the public or is causing or can reasonably be expected to cause significant and imminent environmental harm to land, air, or water resources, the director of the department or an authorized representative shall immediately order cessation of the operation or the portion of the operation relevant to the condition, practice, or violation. The cessation order remains in effect until the director or an authorized representative determines that the condition, practice, or violation has been abated or until modified, vacated, or terminated by the director or an authorized representative pursuant to subsection (5). If the director or an authorized representative finds that the ordered cessation of the operation or any portion of the operation will not completely abate the imminent danger to the health or safety of the public or the significant and imminent environmental harm to land, air, or water resources, the director or the authorized representative shall, in addition to the cessation order, impose affirmative obligations requiring any steps that the director or the authorized representative considers necessary to abate the imminent danger or the significant environmental harm.

(2) When, on the basis of an inspection, the department determines that any permittee is in violation of any requirement of this part or any permit condition required by this part that does not create an imminent danger to the health or safety of the public or cannot be reasonably expected to cause significant and imminent environmental harm to land, air, or water resources, the director or an authorized representative shall issue a notice to the permittee or the permittee’s agent fixing a reasonable time, not exceeding 90 days, for the abatement of the violation and providing opportunity for public hearing. If, upon expiration of the period of time as originally fixed or subsequently extended, for good cause shown and upon the written finding of the director or an authorized representative, the director or an authorized representative finds that the violation has not been abated, the director or an authorized representative shall immediately order a cessation of the operation or the portion of the operation relevant to the violation. The cessation order remains in effect until the director or an authorized representative determines that the violation has been abated or until modified, vacated, or terminated by the director or an authorized representative pursuant to subsection (5). In the order of cessation issued under this subsection, the director shall determine the steps necessary to abate the violation in the most expeditious manner possible and shall include the necessary measures in the order.

(3) When, on the basis of an inspection, the director or an authorized representative determines that a pattern of violations of any requirements of this part or any permit conditions required by this part exists or has existed and if the director or an authorized representative also finds that the violations are caused by the unwarranted failure of the permittee to comply with any requirements of this part or any permit conditions or that the violations are willfully caused by the permittee, the director or an authorized representative shall issue an order to the permittee to show cause as to why the permit should not be suspended or revoked and shall provide opportunity for a public hearing. If a hearing is requested, the director shall inform all interested parties of the time and place of the hearing. Upon the permittee's failure to show cause as to why the permit should not be suspended or revoked, the director or an authorized representative shall suspend or revoke the permit. *A permittee may request a contested case hearing on a permit suspension or revocation by filing a request for hearing, specifying the grounds for the request, within 30 days of receipt of the order of suspension or revocation. The order is effective upon expiration of the period for requesting a hearing or, if a hearing is requested, upon issuance of a final order by the board. The hearing must be conducted in accordance with the requirements of Title 2, chapter 4, part 6.* When a permit has been revoked, the department may order the performance bond forfeited.

(4) Any additional permits held by an operator whose mining permit has been revoked must be suspended, and the operator is not eligible to receive another permit or to have the suspended permits reinstated until the operator has complied with all the requirements of this part with respect to former permits issued to the operator. An operator who has forfeited a bond is not eligible to receive another permit unless the land for which the bond was forfeited has been reclaimed without cost to the state or the operator has paid into the reclamation account a sum together with the value of the bond the department finds adequate to reclaim the lands.

(5) Notices and orders issued pursuant to this section must set forth with reasonable specificity the nature of the violation and the remedial action required, the period of time established for abatement, and a reasonable description of the portion of the operation to which the notice or order applies. Each notice or order issued under this section must be given promptly to the permittee or the permittee's agent by the department, by the director, or by the authorized representative who issued the notice or order. All notices and orders must be in writing and be signed by the authorized representatives. Any notice or order issued pursuant to this section may be modified, vacated, or terminated by the director or an authorized representative. However, any notice or order issued pursuant to this section that requires cessation of mining by the operator expires within 30 days of actual notice to the operator unless ~~a~~ *an informal public hearing, if requested by the person to whom the notice or order was issued, is held at the site or within such reasonable proximity to the site that any viewings of the site can be conducted during the course of public the hearing. If the department receives a request for an informal public hearing 21 days after service of the notice or order, the period for holding the informal public hearing is extended by the number of days after the 21st day that the request was received.*

(6) A person who has been issued a notice or an order of cessation pursuant to ~~this section subsection (1) or (2)~~ or a person who has an interest that is or may be adversely affected by an order *issued pursuant to subsection (1) or (2)* or by modification, vacation, or termination of ~~an~~ *that* order may ~~apply to the department for review of request a hearing before the board on that order within~~

30 days of its issuance or within 30 days of its modification, vacation, or termination. ~~Upon receipt of the application, the department shall make an investigation. The investigation must provide an opportunity for public hearing at the request of the applicant or the person who has an interest who is or may be adversely affected to enable the applicant or the person to present information relating to the issuance and continuance of the notice or order or the modification, vacation, or termination of it.~~ The filing of an application for review under this subsection may not operate as a stay of any order or notice. The ~~department board~~ shall make findings of fact and issue a written decision incorporating an order vacating, affirming, modifying, or terminating the order.

(7) Whenever an order is issued under this section or as the result of any administrative proceeding under this part, at the request of any person, a sum equal to the aggregate amount of all costs, expenses, and attorney fees as determined by the department to have been reasonably incurred by the person for or in connection with the person's participation in the proceedings, including any judicial review of agency actions, may be assessed against either party as the court, resulting from judicial review, or the department, resulting from administrative proceedings, considers proper.

(8) In order to protect the stability of the land, the director or an authorized representative shall order cessation of underground coal mining under urbanized areas, cities, towns, and communities and adjacent to industrial or commercial buildings, major impoundments, or permanent streams if the director or the authorized agent finds imminent danger to inhabitants of the urbanized areas, cities, towns, and communities."

Section 11. Saving clause. [This act] does not affect rights and duties that matured, penalties that were incurred, or proceedings that were begun before [the effective date of this act].

Section 12. Effective date. [This act] is effective on passage and approval.

[HB 452]

AN ACT IMPLEMENTING CERTAIN RECOMMENDATIONS TO REDESIGN THE MEDICAID PROGRAM SPECIFICALLY INVOLVING INDIAN TRIBES, TRIBAL HEALTH CARE FACILITIES, AND INDIAN HEALTH SERVICE HEALTH CARE FACILITIES; REQUIRING THE DEPARTMENT OF PUBLIC HEALTH AND HUMAN SERVICES TO REQUEST A WAIVER OF FEDERAL MEDICAID LAW SO THAT ANY REDUCTIONS IN MEDICAID ELIGIBILITY DO NOT SHIFT COSTS TO TRIBAL OR INDIAN HEALTH SERVICE HEALTH CARE FACILITIES; REQUIRING THE DEPARTMENT TO WORK WITH TRIBAL GOVERNMENTS TO EXPLORE POSSIBILITIES FOR THE CHILDREN'S HEALTH INSURANCE PROGRAM TO LEVERAGE FEDERAL FINANCIAL PARTICIPATION; REQUIRING THE DEPARTMENT TO EXPLORE OPTIONS OR WAIVERS OF MEDICAID LAW FOR THE PURCHASE OF PRESCRIPTION DRUGS ON A RESERVATION AT TRIBAL OR INDIAN HEALTH SERVICE HEALTH CARE FACILITIES; REQUIRING THE DEVELOPMENT OF A POLICY AND PROCESS TO REVIEW INDIAN ELIGIBILITY ISSUES; REQUIRING THE DEPARTMENT TO WORK WITH

INDIAN TRIBES TO IMPROVE THE PROVISION OF MEDICAID SERVICES TO INDIANS; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Protection of tribal and Indian health service facilities from cost-shifting — seeking to leverage federal financial participation for state children's health insurance program and medicaid. (1) The department shall seek exemptions under federal medicaid law or regulations to protect Indian health services and tribal facilities from changes in eligibility categories, covered services, and reimbursement levels under the medicaid program that could potentially result in a direct shift of costs from the 100% federal medicaid matching available under medicaid to either Indian health services or tribally sponsored health care services.

(2) The department shall work with tribes or representatives from the federal Indian health service to seek mechanisms, including, if necessary, a waiver of federal law as permitted by section 1915 of Title XIX of the Social Security Act, 42 U.S.C. 1396n(b), to ensure that federal Indian health service-eligible medicaid participants who live on reservations may have any prescription filled at tribal or Indian health service health care facilities.

(3) The department shall work with tribes to explore the options for the state children's health insurance program to leverage 100% federal financial participation for health care services to Indian children.

(4) The department shall engage the federal centers for medicare and medicaid services and the United States congress to support efforts to have all services provided by and referred from an Indian health service included in the state medicaid plan eligible for the 100% federal financial participation match under medicaid regardless of the location where services are provided.

(5) (a) The department shall develop a policy and process to periodically review Indian-eligibility issues as they relate to medicaid and to include tribal government, urban Indian, and Indian health service representation in the development of a policy and process. Reviews conducted by the department in areas on or near reservations or in urban areas with significant Indian populations must include consultation with representatives of tribal governments and urban Indian programs.

(b) The department shall explore the issues and feasibility of applying for a federal waiver of medicaid law for a demonstration project to delegate authority to eligible tribes for determination and certification of medicaid eligibility.

(6) The department shall work with tribes to foster a spirit of cooperation, to identify and remove current institutional barriers that limit the participation of tribal members in the medicaid program, and to develop strategies, including education, to improve the mechanics of providing medicaid services to Indians by:

(a) ensuring that tribes have an adequate opportunity to review and verify data used to monitor medicaid services and eligibility status and to modify or promote changes in medicaid policy;

(b) consulting with tribal and urban Indian representatives on the effective use and appropriate sources of information on health care needs of Indians;

(c) at the request of a tribal representative, conducting technical assistance workshops to address issues specific to tribal needs regarding matters of

centralized billing procedures, sound health care business practices, and development of needed health care infrastructure; and

(d) in compliance with the requirements of 2-15-141 through 2-15-143, consulting with tribes on any policy changes that may impact services or programs operated by tribes.

Section 2. Notification to tribal governments. The secretary of state shall send a copy of [this act] to each tribal government located on the seven Montana reservations and to the Little Shell band of Chippewa.

Section 3. Codification instruction. [Section 1] is intended to be codified as an integral part of Title 53, chapter 6, part 1, and the provisions of Title 53, chapter 6, part 1, apply to [section 1].

Section 4. Effective date. [This act] is effective on passage and approval.

(3) (a) The amount of the credit that may be claimed under this section is ~~\$7~~ \$8 for each ton of postconsumer glass that was used as a substitute for nonrecycled material in the calendar year prior to the calendar year for which the applicant is paying fees for permits under 75-2-220.

(b) The maximum credit allowable in any calendar year for fees payable under 75-2-220 is ~~\$1,500~~ \$2,000 or the total amount of fees due, whichever is less. (Terminates December 31, 2005—see. 8, Ch. 516, L. 2001 2009.)”

(b) The amount estimated pursuant to subsections (1) and (2)(a) is each local government's base year component. The sum of all local governments' base year components is the base year entitlement share pool. For the purpose of calculating the sum of all local governments' base year components, the base year component for a local government may not be less than zero.

(3) (a) ~~Beginning with fiscal year 2002 and in each succeeding fiscal year, the~~ The base year entitlement share pool must be increased annually by a growth rate as provided for in this subsection (3). The amount determined through the application of annual growth rates is the entitlement share pool for each fiscal year. ~~For fiscal year 2002, the growth rate is 3%. For fiscal year 2003, the growth rate is 3% for incorporated cities and towns, 1.61% for counties, and 2.3% for consolidated local governments. Beginning with calendar year 2002, by~~ By October 1 of each even-numbered year, the department shall calculate the growth rate of the entitlement share pool for each year of the next biennium in the following manner:

(i) Before applying the growth rate for fiscal year 2004 to determine the fiscal year 2004 entitlement share pool, the department shall add to the fiscal year 2003 entitlement share pool the fiscal year 2003 amount of revenue actually distributed to the county from the 25-cent marriage license fee in 50-15-301 and the ~~probation and parole supervisory~~ fee in 46-23-1031(2)(b).

(ii) The department shall calculate the average annual growth rate of the Montana gross state product, as published by the bureau of economic analysis of the United States department of commerce, for the following periods:

(A) the last 4 calendar years for which the information has been published; and

(B) the 4 calendar years beginning with the year before the first year in the period referred to in subsection (3)(a)(ii)(A).

(iii) The department shall calculate the average annual growth rate of Montana personal income, as published by the bureau of economic analysis of the United States department of commerce, for the following periods:

(A) the last 4 calendar years for which the information has been published; and

(B) the 4 calendar years beginning with the year before the first year in the period referred to in subsection (3)(a)(iii)(A).

(b) (i) For fiscal year 2004 and subsequent fiscal years, the entitlement share pool growth rate for the first year of the biennium must be the following percentage of the average of the growth rates calculated in subsections (3)(a)(ii)(B) and (3)(a)(iii)(B):

(A) for counties, 54%;

(B) for consolidated local governments, 62%; and

(C) for incorporated cities and towns, 70%.

(ii) The entitlement share pool growth rate for the second year of the biennium must be the following percentage of the average of the growth rates calculated in subsections (3)(a)(ii)(A) and (3)(a)(iii)(A):

(A) for counties, 54%;

(B) for consolidated local governments, 62%; and

(C) for incorporated cities and towns, 70%.

(4) As used in this section, "local government" means a county, a consolidated local government, an incorporated city, and an incorporated town. A local government does not include a tax increment financing district provided for in subsection (6). For purposes of calculating the base year component for a county or consolidated local government, the department shall include the revenue listed in subsection (1) for all special districts within the county or consolidated local government. The county or consolidated local government is responsible for making an allocation from the county's or consolidated local government's share of the entitlement share pool to each special district within the county or consolidated local government in a manner that reasonably reflects each special district's loss of revenue sources listed in subsection (1).

(5) (a) The entitlement share pools calculated in this section and the block grants provided for in subsection (6) are statutorily appropriated, as provided in 17-7-502, from the general fund to the department for distribution to local governments. Each local government is entitled to a pro rata share of each year's entitlement share pool based on the local government's base component in relation to the base year entitlement share pool. The distributions must be made on a quarterly basis ~~beginning September 15, 2001.~~

(b) (i) ~~For fiscal year 2002, the growth amount is the difference between the fiscal year 2002 entitlement share pool and the base year entitlement share pool. For fiscal year 2002, a county may have a negative base year component. For each fiscal year 2003 and each succeeding fiscal year, the growth amount is the difference between the entitlement share pool in the current fiscal year and the entitlement share pool in the previous fiscal year. For the purposes of subsection (5)(b)(ii)(A), a county with a negative base year component has a base year component of zero. The growth factor in the entitlement share must be calculated separately for:~~

- (A) counties;
- (B) consolidated local governments; and
- (C) incorporated cities and towns.

(ii) In each fiscal year, the growth amount for counties must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each county's percentage of the base year entitlement share pool for all counties; and

(B) 50% of the growth amount must be allocated based upon the percentage that each county's population bears to the state population not residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iii) In each fiscal year, the growth amount for consolidated local governments must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each consolidated local government's percentage of the base year entitlement share pool for all consolidated local governments; and

(B) 50% of the growth amount must be allocated based upon the percentage that each consolidated local government's population bears to the state's total population residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iv) In each fiscal year, the growth amount for incorporated cities and towns must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each incorporated city's or town's percentage of the base year entitlement share pool for all incorporated cities and towns; and

(B) 50% of the growth amount must be allocated based upon the percentage that each city's or town's population bears to the state's total population residing within incorporated cities and towns as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(v) In each fiscal year, the amount of the entitlement share pool not represented by the growth amount is distributed to each local government in the same manner as the entitlement share pool was distributed in the prior fiscal year.

~~(vi) For fiscal year 2002, an amount equal to the district court costs identified in subsection (2) must be added to each county government's distribution from the entitlement share pool.~~

~~(vii) For fiscal year 2002, an amount equal to the district court fees identified in subsection (1)(d) must be subtracted from each county government's distribution from the entitlement share pool.~~

(6) (a) If a tax increment financing district was not in existence during the fiscal year ending June 30, 2000, then the tax increment financing district is not entitled to any block grant. If a tax increment financing district referred to in subsection (6)(b) terminates, then the block grant provided for in subsection (6)(b) terminates.

(b) One-half of the payments provided for in this subsection (6)(b) must be made by November 30 and the other half by May 31 of each year. Subject to subsection (6)(a), the entitlement share for tax increment financing districts is as follows:

Cascade	Great Falls - downtown	\$468,966

(c) The entitlement share for industrial tax increment financing districts is as follows:

Missoula County	Airport Industrial	\$2,406
Silver Bow	Ramsay Industrial	298,797; and
~~(iii)(ii)~~ \$0 for all succeeding fiscal years.		

(d) The entitlement share for industrial tax increment financing districts referred to in subsection (6)(c) may not be used to pay debt service on tax increment bonds to the extent that the bonds are secured by a guaranty, a letter of credit, or a similar arrangement provided by or on behalf of an owner of property within the tax increment financing industrial district.

(e) One-half of the payments provided for in subsection (6)(c) must be made by July 30, and the other half must be made in December of each year.

(7) The estimated base year entitlement share pool and any subsequent entitlement share pool for local governments do not include revenue received from countywide transportation block grants or from countywide retirement block grants.

(8) The estimates for the base year entitlement share pool in subsection (1) must be calculated as if the fees in Chapter 515, Laws of 1999, were in effect for all of fiscal year 2001.

(9) (a) If revenue that is included in the sources listed in subsections (1)(b) through ~~(1)(p)~~ (1)(o) is significantly reduced, except through legislative action, the department shall deduct the amount of revenue loss from the entitlement share pool beginning in the succeeding fiscal year and the department shall work with local governments to propose legislation to adjust the entitlement share pool to reflect an allocation of the loss of revenue.

(b) For the purposes of subsection (9)(a), a significant reduction is a loss that causes the amount of revenue received in the current year to be less than 95% of the amount of revenue received in the base year.

(10) A three-fifths vote of each house is required to reduce the amount of the entitlement share calculated pursuant to subsections (1) through (3).

(11) When there has been an underpayment of a local government's share of the entitlement share pool, the department shall distribute the difference between the underpayment and the correct amount of the entitlement share. When there has been an overpayment of a local government's entitlement share, the local government shall remit the overpaid amount to the department.

(12) A local government may appeal the department's estimation of the base year component, the entitlement share pool growth rate, or a local government's allocation of the entitlement share pool, according to the uniform dispute review procedure in 15-1-211.

(13) A payment required pursuant to this section may not be offset by a debt owed to a state agency by a local government in accordance with Title 17, chapter 4, part 1."

Section 15. Section 15-1-122, MCA, is amended to read:

The deduction must be made in the year that the wages and salaries were used to compute the credit. In the case of a partnership or small business corporation, the deduction must be made to determine the amount of income or loss of the partnership or small business corporation.

(5) Married taxpayers filing a joint federal return who are required to include part of their social security benefits or part of their tier 1 railroad retirement benefits in federal adjusted gross income may split the federal base used in calculation of federal taxable social security benefits or federal taxable tier 1 railroad retirement benefits when they file separate Montana income tax returns. If the adjusted gross income before this exclusion exceeds \$15,000, the excess reduces the exclusion by an equal amount. This limitation affects the amount of exclusion, but not the taxpayer's eligibility for the exclusion. If eligible, married individuals shall apply the exclusion separately, but the limitation for income exceeding \$15,000 is determined with respect to the spouses on their combined adjusted gross income. For the purpose of this subsection, "permanently and totally disabled" means unable to engage in any substantial gainful activity by reason of any medically determined physical or mental impairment lasting or expected to last at least 12 months.

(7) Married taxpayers who file a joint federal return and who make an election on the federal return to defer income ratably for 4 tax years because of a conversion from an IRA other than a Roth IRA to a Roth IRA, pursuant to section 408A(d)(3) of the Internal Revenue Code, 26 U.S.C. 408A(d)(3), may file separate Montana income tax returns to defer the full taxable conversion amount from Montana adjusted gross income for the same time period. The deferred amount must be attributed to the taxpayer making the conversion.

(8) An individual who contributes to one or more accounts established under the Montana family education savings program may reduce adjusted gross income by the lesser of \$3,000 or the amount of the contribution. In the case of married taxpayers, each spouse is entitled to a reduction, not in excess of \$3,000, for the spouses' contributions to the accounts. Spouses may jointly elect to treat half of the total contributions made by the spouses as being made by each spouse. The reduction in adjusted gross income under this subsection applies only with respect to contributions to an account of which the account owner, as defined in 15-62-103, is the taxpayer, the taxpayer's spouse, or the taxpayer's child or stepchild if the taxpayer's child or stepchild is a Montana resident. The

provisions of subsection (1)(e) do not apply with respect to withdrawals of contributions that reduced adjusted gross income.

(9) (a) A taxpayer may exclude ~~up to the amount of the loan payment received pursuant to subsection (9)(a)(iv), not to exceed \$5,000,~~ from the taxpayer's adjusted gross income if the taxpayer:

(b) For the purposes of subsection (9)(a), a loan repayment program includes a federal, state, or qualified private program. A qualified private loan repayment program includes a licensed health care facility, as defined in 50-5-101, that makes student loan payments on behalf of the person who is employed by the facility as a licensed health care professional. (Subsection (2)(f) terminates on occurrence of contingency—sec. 3, Ch. 634, L. 1983; subsection (2)(o) terminates on occurrence of contingency—sec. 9, Ch. 262, L. 2001.)”

Notwithstanding the provisions of any other law, the income from bonds or other obligations issued by any state or political subdivision of a state are included in gross and net income for purposes of the corporation license tax. ~~Further, such income has been included in gross and net income since the effective date of Chapter 634, Laws of 1979, which law repealed the exclusion of such income from the tax base of the corporation license tax.~~”

"41-3-302. Responsibility of providing protective services — voluntary protective services agreement. (1) The department of public health and human services has the primary responsibility to provide the protective services authorized by this chapter and has the authority pursuant to this chapter to take temporary or permanent custody of a child when ordered to do so by the court, including the right to give consent to adoption.

(2) The department shall respond to emergency reports of known or suspected child abuse or neglect 24 hours a day, 7 days a week.

(3) (a) The department may provide voluntary protective services by entering into a written voluntary protective services agreement with a parent or other person responsible for a child's welfare for the purpose of keeping the child safely in the home.

(b) The department shall inform a parent or other person responsible for a child's welfare who is considering entering into a voluntary protective services agreement that the parent or other person may have another person of the parent's or responsible person's choice present whenever the terms of the voluntary protective services agreement are under discussion by the parent or other person responsible for the child's welfare and the department. Reasonable accommodations must be made regarding the time and place of meetings at which a voluntary protective services agreement is discussed.

(4) A voluntary protective services agreement may include provisions for:

(a) a family group decisionmaking meeting and implementation of safety plans developed during the ~~conference~~ meeting;

(b) a professional evaluation and treatment of a parent or child, or both;

(c) a safety plan for the child;

(5) A voluntary protective services agreement is subject to termination by either party at any time. Termination of a voluntary protective services agreement does not preclude the department from filing a petition pursuant to 41-3-422 in any case in which the department determines that there is a risk of harm to a child.

(6) If a voluntary protective services agreement is terminated by a party to the agreement, a child who has been placed in a temporary out-of-home placement pursuant to the agreement must be returned to the parents within 2 working days of termination of the agreement unless an abuse and neglect petition is filed by the department.”

Section 55. Section 41-3-437, MCA, is amended to read:

“41-3-437. Adjudication — temporary disposition — findings — order. (1) Upon the filing of an appropriate petition, an adjudicatory hearing must be held within 90 days of a show cause hearing under 41-3-432. Adjudication may take place at the show cause hearing if the requirements of subsection (2) are met or may be made by prior stipulation of the parties pursuant to 41-3-434 and order of the court. Exceptions to the time limit may be allowed only in cases involving newly discovered evidence, unavoidable delays, stipulation by the parties pursuant to 41-3-434, and unforeseen personal emergencies.

(2) The court may make an adjudication on a petition under 41-3-422 if the court determines by a preponderance of the evidence, except as provided in the federal Indian Child Welfare Act, if applicable, that the child is a youth in need of care. Except as otherwise provided in this part, the Montana Rules of Civil Procedure and the Montana Rules of Evidence apply to adjudication and to an adjudicatory hearing. Adjudication must determine the nature of the abuse and neglect and establish facts that resulted in state intervention and upon which disposition, case work, court review, and possible termination are based.

(3) The court shall hear evidence regarding the residence of the child, paternity, if in question, the whereabouts of the parents, guardian, or nearest adult relative, and any other matters the court considers relevant in determining the status of the child. Hearsay evidence of statements made by the affected youth is admissible according to the Montana Rules of Evidence.

(4) In a case in which abandonment has been alleged by the county attorney, the attorney general, or an attorney hired by the county, the court shall hear offered evidence, including evidence offered by a person appearing pursuant to 41-3-422(9)(a) or (9)(b), regarding any of the following subjects:

(a) the extent to which the child has been cared for, nurtured, or supported by a person other than the child’s parents; and

(b) whether the child was placed or allowed to remain by the parents with another person for the care of the child, and, if so, then the court shall accept evidence regarding:

(i) the intent of the parents in placing the child or allowing the child to remain with that person; and

(ii) the circumstances under which the child was placed or allowed to remain with that other person, including:

(A) whether a parent requesting return of the child was previously prevented from doing so as a result of an order issued pursuant to Title 40, chapter 15, part 2, or of a conviction pursuant to 45-5-206; and

(B) whether the child was originally placed with the other person to allow the parent to seek employment or attend school.

(5) In all civil and criminal proceedings relating to abuse or neglect, the privileges related to the examination or treatment of the child do not apply, except the attorney-client privilege granted by 26-1-803 and the mediation privilege granted by 26-1-813.

(6) (a) If the court determines that the child is not an abused or neglected child, the petition must be dismissed and any order made pursuant to 41-3-427 or 41-3-432 must be vacated.

(b) If the child is adjudicated a youth in need of care, the court shall set a date for a dispositional hearing to be conducted within 20 days, as provided in ~~41-3-438(2)~~ 41-3-438(1), and order any necessary or required investigations. The court may issue a temporary dispositional order pending the dispositional hearing. The temporary dispositional order may provide for any of the forms of relief listed in 41-3-427(2).

(7) (a) Before making an adjudication, the court may make oral findings, and following the adjudicatory hearing, the court shall make written findings on issues, including but not limited to the following:

(i) which allegations of the petition have been proved or admitted, if any;

(ii) whether there is a legal basis for continued court and department intervention; and

(iii) whether the department has made reasonable efforts to avoid protective placement of the child or to make it possible to safely return the child to the child's home.

(b) The court may order:

(i) terms for visitation, support, and other intrafamily communication pending disposition if the child is to be placed or to remain in temporary out-of-home care prior to disposition;

(ii) examinations, evaluations, or counseling of the child or parents in preparation for the disposition hearing that does not require an expenditure of money by the department unless the court finds after notice and a hearing that the expenditure is reasonable and that resources are available for payment. The department is the payor of last resort after all family, insurance, and other resources have been examined.

(iii) the department to evaluate the noncustodial parent or relatives as possible caretakers, if not already done;

(iv) the perpetrator of the alleged child abuse or neglect to be removed from the home to allow the child to remain in the home; and

(v) the department to continue efforts to notify noncustodial parents."

Section 56. Section 41-3-445, MCA, is amended to read:

"41-3-445. Permanency plan hearing. (1) (a) (i) Subject to subsection (1)(b), a permanency plan hearing must be held by the court:

(A) within 30 days of a determination that reasonable efforts to provide preservation or reunification services are not necessary under 41-3-423, 41-3-438(6), or 41-3-442(1); and

(B) no later than 12 months after the initial court finding that the child has been subjected to abuse or neglect or 12 months after the child's first 60 days of removal from the home, whichever comes first.

(ii) Within 12 months of a hearing under subsection (1)(a)(i)(B) and every 12 months thereafter until the child is permanently placed in either an adoptive or a guardianship placement, the court shall conduct a hearing and make a finding *as to* whether the department has made reasonable efforts to finalize the permanency plan for the child.

(b) A permanency plan hearing is not required if the proceeding has been dismissed, the child was not removed from the home, or the child has been returned to the child's parent or guardian.

(c) The permanency plan hearing may be combined with a hearing that is required in other sections of this part if held within the time limits of that section. If a permanency plan hearing is combined with another hearing, the requirements of the court related to the disposition of the other hearing must be met in addition to the requirements of this section.

(2) At least 3 working days prior to the permanency plan hearing, the department and the guardian ad litem shall each submit a report regarding the child to the court for review. The report must address the department's efforts to effectuate the permanency plan for the child, address the options for the child's permanent placement, examine the reasons for excluding higher priority options, and set forth the proposed plan to carry out the placement decision, including specific times for achieving the plan.

(3) At least 3 working days prior to the permanency plan hearing, an attorney or advocate for a parent or guardian may submit an informational report to the court for review.

(4) The court's order must be issued within a reasonable time after the permanency plan hearing. The court shall make findings on whether the permanency plan is in the best interests of the child and whether the department has made reasonable efforts to finalize the plan. The court shall order the department to take whatever additional steps are necessary to effectuate the terms of the plan.

(5) In its discretion, the court may enter any other order that it determines to be in the best interests of the child that does not conflict with the options provided in subsection (6) and that does not require an expenditure of money by the department unless the court finds after notice and a hearing that the expenditures are reasonable and that resources are available for payment. The department is the payor of last resort after all family, insurance, and other resources have been examined.

(6) Permanency options include:

(a) reunification of the child with the child's parent or guardian;

(b) adoption;

(c) appointment of a guardian pursuant to 41-3-444; or

(d) long-term custody if the child is in a planned permanent living arrangement *and if it is* established by a preponderance of the evidence, which is reflected in specific findings by the court, that:

- (i) the child is being cared for by a fit and willing relative;
- (ii) the child has an emotional or mental handicap that is so severe that the child cannot function in a family setting and the best interests of the child are served by placement in a residential or group setting;
- (iii) the child is at least 16 years of age and is participating in an independent living program and that termination of parental rights is not in the best interests of the child;
- (iv) the child's parent is incarcerated and circumstances, including placement of the child and continued, frequent contact with the parent, indicate that it would not be in the best interests of the child to terminate parental rights of that parent; or
- (v) the child meets the following criteria:
 - (A) the child has been adjudicated a youth in need of care;
 - (B) the department has made reasonable efforts to reunite the parent and child, further efforts by the department would likely be unproductive, and reunification of the child with the parent or guardian would be contrary to the best interests of the child;
 - (C) there is a judicial finding that other more permanent placement options for the child have been considered and found to be inappropriate or not to be in the child's best interests *of the child*; and
 - (D) the child has been in a placement in which the foster parent or relative has committed to the long-term care and to a relationship with the child, and it is in the best interests of the child to remain in that placement.
- (7) The court may terminate a planned permanent living arrangement upon petition of the birth parents or the department if the court finds that the circumstances of the child or family have substantially changed and the best interests of the child are no longer being served."

Section 57. Section 44-1-1102, MCA, is amended to read:

"44-1-1102. Procedure when patrol officer accepts bail or driver's license in lieu of bail. (1) If the patrol officer accepts bail, the patrol officer shall give a signed receipt to the offender, setting forth the amount received. The patrol officer shall then deliver the bail money to the justice of the peace before whom the offender is to appear, and the justice of the peace shall give a receipt to the patrol officer for the amount of bail money delivered. After the filing of the complaint and the appearance of the defendant, the justice of the peace shall assume jurisdiction and may set and accept further bail bond.

(2) If the patrol officer accepts an unexpired driver's license in lieu of bail, the patrol officer shall give the offender a signed driving permit, in a form prescribed by the department. The permit must acknowledge the officer's acceptance of the offender's driver's license and serves as a valid temporary driving permit authorizing the operation of a motor vehicle by the offender. The permit is effective as of the date the permit is signed and remains in effect through the date of the appearance listed on the permit. The patrol officer shall deliver the driver's license to the justice of the peace before whom the offender is to appear, and the justice of the peace shall give a receipt to the patrol officer acknowledging delivery of the offender's driver's license to the court. After the filing of the complaint and the appearance of the defendant, the justice of the peace shall assume jurisdiction and may extend the date of the driving permit for a period up to 6 months from the defendant's initial appearance date.

(3) The ~~judge~~ *justice of the peace* shall return a driver's license that has been accepted in lieu of bail to a defendant:

(a) after the required bail has been posted or there has been a final determination of the charge; and

(b) if the defendant pleaded guilty or was convicted, after a \$25 administrative fee has been paid to the court."

Section 58. Section 46-14-221, MCA, is amended to read:

"46-14-221. Determination of fitness to proceed — effect of finding of unfitness — expenses. (1) The issue of the defendant's fitness to proceed may be raised by the court, by the defendant or the defendant's counsel, or by the prosecutor. When the issue is raised, it must be determined by the court. If neither the prosecutor nor the defendant's counsel contests the finding of the report filed under 46-14-206, the court may make the determination on the basis of the report. If the finding is contested, the court shall hold a hearing on the issue. If the report is received in evidence upon the hearing, the parties have the right to subpoena and cross-examine the psychiatrists or licensed clinical psychologists who joined in the report and to offer evidence upon the issue.

(2) (a) If the court determines that the defendant lacks fitness to proceed, the proceeding against the defendant must be suspended, except as provided in subsection (4), and the court shall commit the defendant to the custody of the director of the department of public health and human services to be placed in an appropriate mental health facility, as defined in 53-21-102, or residential facility, as defined in 53-20-102, of the department of public health and human services for so long as the unfitness endures or until disposition of the defendant is made pursuant to this section, whichever occurs first.

(b) The facility shall develop an individualized treatment plan to assist the defendant to gain fitness to proceed. The treatment plan may include a physician's prescription of reasonable and appropriate medication that is consistent with accepted medical standards. If the defendant refuses to comply with the treatment plan, the facility may petition the court for an order requiring compliance. The defendant has a right to a hearing on the petition. The court shall enter into the record a detailed statement of the facts upon which an order is made, and if compliance with the individualized treatment plan is ordered, the court shall also enter into the record specific findings that the state has proved an overriding justification for the order and that the treatment being ordered is medically appropriate.

(3) (a) The committing court shall, within 90 days of commitment, review the defendant's fitness to proceed. If the court finds that the defendant is still unfit to proceed and that it does not appear that the defendant will become fit to proceed within the reasonably foreseeable future, the proceeding against the defendant must be dismissed, except as provided in subsection (4).

(b) If the court determines that the defendant lacks fitness to proceed because the defendant has a mental disorder, the proceeding against the defendant must be dismissed and the prosecutor shall petition the court in the manner provided in Title 53, chapter 21, to determine the disposition of the defendant pursuant to those provisions.

(c) If the court determines that the defendant lacks fitness to proceed because the defendant has a developmental disability as defined in 53-20-102, the proceeding against the defendant must be dismissed and the prosecutor

shall petition the court in the manner provided in Title 53, chapter 20, to determine the disposition of the defendant pursuant to those provisions.

(4) The fact that the defendant is unfit to proceed does not preclude any legal objection to the prosecution that is susceptible to fair determination prior to trial and that is made without the personal participation of the defendant.

(5) The expenses of sending the defendant to the custody of the director of the department of public health and human services to be placed in an appropriate ~~institution~~ *facility* of the department of public health and human services, of keeping the defendant there, and of bringing the defendant back are payable by the state as a district court expense.”

Section 59. Section 46-14-222, MCA, is amended to read:

“46-14-222. Proceedings if fitness regained. When the court, on its own motion or upon the application of the director of the department of public health and human services, the prosecution, or the defendant or the defendant’s legal representative, determines, after a hearing if a hearing is requested, that the defendant has regained fitness to proceed, the proceeding must be resumed. If, however, the court is of the view that so much time has elapsed since the commitment of the defendant that it would be unjust to resume the criminal proceedings, the court may dismiss the charge and may order the defendant to be discharged or, subject to the law governing the civil commitment of persons suffering from serious mental illness, order the defendant committed to an appropriate ~~institution~~ *facility* of the department of public health and human services.”

Section 60. Section 46-19-202, MCA, is amended to read:

“46-19-202. Proceedings following determination regarding fitness.

(1) If it is found that defendant is mentally fit as provided in 46-19-201, the warden of the Montana state prison shall execute the judgment.

(2) If it is found that the defendant lacks fitness, the execution of judgment must be suspended and the court shall commit the defendant to the custody of the superintendent of the Montana state hospital to be placed in an appropriate ~~institution~~ *facility* of the department of public health and human services for as long as the lack of fitness endures.

(3) When the court, on its own motion or upon application of the superintendent of the Montana state hospital, the county prosecuting officer, or the defendant or the defendant’s legal representative, determines after a hearing, if a hearing is requested, that the defendant has regained fitness to proceed, the warden must be directed by the court to carry out the execution. If, however, the court is of the view that so much time has elapsed since the commitment of the defendant that it would be unjust to proceed with execution of the sentence, the court may suspend the execution of the sentence and may order the defendant to be discharged.”

Section 61. Section 50-20-101, MCA, is amended to read:

“50-20-101. Short title. ~~This chapter shall be known and~~ *part* may be cited as the “Montana Abortion Control Act”.”

(5) The department shall establish, cooperatively with representatives of the building industry, an industry and consumer information program, funded with 15% of the fees, to educate the building industry about the registration program and to educate the public regarding the hiring of building construction contractors.

(6) The fee for a joint application for a certificate of registration and an independent contractor exemption *certificate* may not exceed the *total* fee charged for a certificate of registration *and an independent contractor exemption certificate that are obtained separately. The fee paid for the independent contractor exemption certificate may be used by the department to offset the cost of administering independent contractor certification provided for in Title 39, chapter 71, part 4.*

Section 3. Section 39-71-201, MCA, is amended to read:

“39-71-201. Administration fund. (1) A workers’ compensation administration fund is established out of which *are to be paid upon lawful appropriation* all costs of administering the Workers’ Compensation and Occupational Disease Acts and the statutory occupational safety acts the department is required to administer, with the exception of ~~the certification of independent contractors provided for in Title 39, chapter 71, part 4, the subsequent injury fund, as provided for in 39-71-907, and the uninsured employers’ fund, are to be paid upon lawful appropriation provided for in 39-71-503.~~ The department shall collect and deposit in the state treasury to the credit of the workers’ compensation administration fund:

(a) all fees and penalties provided in 39-71-205, 39-71-223, 39-71-304, 39-71-307, 39-71-308, 39-71-315, 39-71-316, 39-71-401(6), 39-71-2204, 39-71-2205, and 39-71-2337; and

(b) all fees paid by an assessment of 3% of paid losses, plus administrative fines and interest provided by this section.

(2) For the purposes of this section, paid losses include the following benefits paid during the preceding calendar year for injuries covered by the Workers' Compensation Act and the Occupational Disease Act of Montana without regard to the application of any deductible whether the employer or the insurer pays the losses:

(a) total compensation benefits paid; and

(b) except for medical benefits in excess of \$200,000 for each occurrence that are exempt from assessment, total medical benefits paid for medical treatment rendered to an injured worker, including hospital treatment and prescription drugs.

(3) Each plan No. 1 employer, plan No. 2 insurer subject to the provisions of this section, and plan No. 3, the state fund, shall file annually on March 1 in the form and containing the information required by the department a report of paid losses pursuant to subsection (2).

(4) Each employer enrolled under compensation plan No. 1, compensation plan No. 2, or compensation plan No. 3, the state fund, shall pay a proportionate share of all costs of administering and regulating the Workers' Compensation Act and the Occupational Disease Act of Montana and the statutory occupational safety acts that the department is required to administer, with the exception of the *certification of independent contractors provided for in Title 39, chapter 71, part 4, the subsequent injury fund, as provided for in 39-71-907, and the uninsured employers' fund provided for in 39-71-503*. In addition, compensation plan No. 3, the state fund, shall pay a proportionate share of these costs based upon paid losses for claims arising before July 1, 1990.

(5) (a) Each employer enrolled under compensation plan No. 1 shall pay an assessment to fund administrative and regulatory costs. The assessment is equal to 3% of the paid losses paid in the preceding calendar year by or on behalf of the plan No. 1 employer or \$500, whichever is greater. Any entity, other than the department, that assumes the obligations of an employer enrolled under compensation plan No. 1 is considered to be the employer for the purposes of this section.

(b) An employer formerly enrolled under compensation plan No. 1 shall pay an assessment to fund administrative and regulatory costs. The assessment is equal to 3% of the paid losses paid in the preceding calendar year by or on behalf of the employer for claims arising out of the time when the employer was enrolled under compensation plan No. 1.

(c) Payment of the assessment provided for by this subsection (5) must be paid by the employer in:

(i) one installment due on July 1; or

(ii) two equal installments due on July 1 and December 31 of each year.

(d) If an employer fails to timely pay to the department the assessment under this section, the department may impose on the employer an administrative fine of \$500 plus interest on the delinquent amount at the annual interest rate of 12%. Administrative fines and interest must be deposited in the workers' compensation administration fund.

(6) (a) Compensation plan No. 3, the state fund, shall pay an assessment to fund administrative and regulatory costs attributable to claims arising before

July 1, 1990. The assessment is equal to 3% of the paid losses paid in the preceding calendar year for claims arising before July 1, 1990. As required by 39-71-2352, the state fund may not pass along to insured employers the cost of the assessment for administrative and regulatory costs that is attributable to claims arising before July 1, 1990.

(b) Payment of the assessment must be paid in:

(i) one installment due on July 1; or

(ii) two equal installments due on July 1 and December 31 of each year.

(c) If the state fund fails to timely pay to the department the assessment under this section, the department may impose on the state fund an administrative fine of \$500 plus interest on the delinquent amount at the annual interest rate of 12%. Administrative fines and interest must be deposited in the workers' compensation administration fund.

(7) (a) Each employer insured under compensation plan No. 2 or plan No. 3, the state fund, shall pay a premium surcharge to fund administrative and regulatory costs. The premium surcharge must be collected by each plan No. 2 insurer and by plan No. 3, the state fund, from each employer that it insures. The premium surcharge must be stated as a separate cost on an insured employer's policy or on a separate document submitted to the insured employer and must be identified as "workers' compensation regulatory assessment surcharge". The premium surcharge must be excluded from the definition of premiums for all purposes, including computation of insurance producers' commissions or premium taxes. However, an insurer may cancel a workers' compensation policy for nonpayment of the premium surcharge. When collected, assessments may not constitute an element of loss for the purpose of establishing rates for workers' compensation insurance but, for the purpose of collection, must be treated as a separate cost imposed upon insured employers.

(b) The amount to be funded by the premium surcharge is equal to 3% of the paid losses paid in the preceding calendar year by or on behalf of all plan No. 2 insurers and 3% of paid losses for claims arising on or after July 1, 1990, for plan No. 3, the state fund, plus or minus any adjustments as provided by subsection (7)(f). The amount to be funded must be divided by the total premium paid by all employers enrolled under compensation plan No. 2 or plan No. 3 during the preceding calendar year. A single premium surcharge rate, applicable to all employers enrolled in compensation plan No. 2 or plan No. 3, must be calculated annually by the department by not later than April 30. The resulting rate, expressed as a percentage, is levied against the premium paid by each employer enrolled under compensation plan No. 2 or plan No. 3 in the next fiscal year.

(c) On or before April 30, 2001, and on of each succeeding April 30 year, the department, in consultation with the advisory organization designated pursuant to 33-16-1023, shall notify plan No. 2 insurers and plan No. 3, the state fund, of the premium surcharge percentage to be effective for policies written or renewed annually on and after July 1 of that year.

(d) The premium surcharge must be paid whenever the employer pays a premium to the insurer. Each insurer shall collect the premium surcharge levied against every employer that it insures. Each insurer shall pay to the department all money collected as a premium surcharge within 20 days of the end of the calendar quarter in which the money was collected. If an insurer fails to timely pay to the department the premium surcharge collected under this section, the department may impose on the insurer an administrative fine of

\$500 plus interest on the delinquent amount at the annual interest rate of 12%. Administrative fines and interest must be deposited in the workers' compensation administration fund.

(e) If an employer fails to remit to an insurer the total amount due for the premium and premium surcharge, the amount received by the insurer must be applied to the premium surcharge first and the remaining amount applied to the premium due.

(f) The amount actually collected as a premium surcharge in a given year must be compared to the 3% of paid losses paid in the preceding year. Any amount collected in excess of the 3% must be deducted from the amount to be collected as a premium surcharge in the following year. The amount collected that is less than the 3% must be added to the amount to be collected as a premium surcharge in the following year.

(8) ~~On or before April 30, 2001, and on of each succeeding April 30 year,~~ upon a determination by the department, an insurer under compensation plan No. 2 that pays benefits in the preceding calendar year but that will not collect any premium for coverage in the following fiscal year shall pay an assessment equal to 3% of paid losses paid in the preceding calendar year, subject to a minimum assessment of \$500, that is due on July 1.

(9) An employer that makes a first-time application for permission to enroll under compensation plan No. 1 shall pay an assessment of \$500 within 15 days of being granted permission by the department to enroll under compensation plan No. 1.

(10) The department shall deposit all funds received pursuant to this section in the state treasury, as provided in this section.

(11) The administration fund must be debited with expenses incurred by the department in the general administration of the provisions of this chapter, including the salaries of its members, officers, and employees and the travel expenses of the members, officers, and employees, as provided for in 2-18-501 through 2-18-503, incurred while on the business of the department either within or without the state.

(12) Disbursements from the administration money must be made after being approved by the department upon claim for disbursement.

(13) The department may assess and collect the workers' compensation regulatory assessment surcharge from uninsured employers, as defined in 39-71-501, that fail to properly comply with the coverage requirements of the Workers' Compensation Act and the Occupational Disease Act of Montana. Any amounts collected by the department pursuant to this subsection must be deposited in the workers' compensation administration fund."

Section 4. Section 39-71-401, MCA, is amended to read:

(1) Except as provided in subsection (2), the Workers' Compensation Act applies to all employers, as defined in 39-71-117, and to all employees, as defined in 39-71-118. An employer who has any employee in service under any appointment or contract of hire, expressed or implied, oral or written, shall elect to be bound by the provisions of compensation plan No. 1, 2, or 3. Each employee whose employer is bound by the Workers' Compensation Act is subject to and bound by the compensation plan that has been elected by the employer.

(p) employment of an employer's spouse for whom an exemption based on marital status may be claimed by the employer under 26 U.S.C. 7703;

(q) a person who performs services as a petroleum land professional. As used in this subsection, a "petroleum land professional" is a person who:

(i) is engaged primarily in negotiating for the acquisition or divestiture of mineral rights or in negotiating a business agreement for the exploration or development of minerals;

(ii) is paid for services that are directly related to the completion of a contracted specific task rather than on an hourly wage basis; and

(r) an officer of a quasi-public or a private corporation or manager of a manager-managed limited liability company who qualifies under one or more of the following provisions:

(v) employment of a person who is not an employee or worker in this state as defined in 39-71-118(10).

(3) (a) A sole proprietor, a working member of a partnership, a working member of a limited liability partnership, or a working member of a member-managed limited liability company who represents to the public that the person is an independent contractor shall elect to be bound personally and individually by the provisions of compensation plan No. 1, 2, or 3 but may apply to the department for an exemption from the Workers' Compensation Act.

~~(b) The application must be made in accordance with the rules adopted by the department. There is a \$17 fee for the initial application. Any subsequent application renewal must be accompanied by a \$17 application fee. The application fee must be deposited in the administration fund established in 39-71-201 to offset the costs of administering the program.~~

(b) Application fees or renewal fees for independent contractor exemption certificates must be deposited in the state special revenue account established in 39-9-206 and must be used to offset the certification administration costs.

(c) When an application is approved by the department, it is conclusive as to the status of an independent contractor and precludes the applicant from obtaining benefits under this chapter.

(d) The exemption, if approved, remains in effect for 2 years following the date of the department's approval. To maintain the independent contractor status, an independent contractor shall submit a renewal application every 2 years. The renewal application and the \$17 renewal application fee must be received by the department at least 30 days before the anniversary date of the previously approved exemption.

(e) A person who makes a false statement or misrepresentation concerning that person's status as an exempt independent contractor is subject to a civil penalty of \$1,000. The department may impose the penalty for each false statement or misrepresentation. The penalty must be paid to the uninsured employers' fund. The lien provisions of 39-71-506 apply to the penalty imposed by this section.

(f) If the department denies the application for exemption, the applicant may, after mediation pursuant to department rules, contest the denial by petitioning the workers' compensation court.

(4) (a) A corporation or a manager-managed limited liability company shall provide coverage for its employees under the provisions of compensation plan No. 1, 2, or 3. A quasi-public corporation, a private corporation, or a manager-managed limited liability company may elect coverage for its corporate officers or managers, who are otherwise exempt under subsection (2), by giving a written notice in the following manner:

(i) if the employer has elected to be bound by the provisions of compensation plan No. 1, by delivering the notice to the board of directors of the corporation or to the management organization of the manager-managed limited liability company; or

(ii) if the employer has elected to be bound by the provisions of compensation plan No. 2 or 3, by delivering the notice to the board of directors of the corporation or to the management organization of the manager-managed limited liability company and to the insurer.

(b) If the employer changes plans or insurers, the employer's previous election is not effective and the employer shall again serve notice to its insurer and to its board of directors or the management organization of the manager-managed limited liability company if the employer elects to be bound.

(5) The appointment or election of an employee as an officer of a corporation, a partner in a partnership, a partner in a limited liability partnership, or a member in or a manager of a limited liability company for the purpose of exempting the employee from coverage under this chapter does not entitle the officer, partner, member, or manager to exemption from coverage.

(6) Each employer shall post a sign in the workplace at the locations where notices to employees are normally posted, informing employees about the employer's current provision of workers' compensation insurance. A workplace is any location where an employee performs any work-related act in the course of employment, regardless of whether the location is temporary or permanent, and includes the place of business or property of a third person while the employer has access to or control over the place of business or property for the purpose of carrying on the employer's usual trade, business, or occupation. The sign must be provided by the department, distributed through insurers or directly by the department, and posted by employers in accordance with rules adopted by the department. An employer who purposely or knowingly fails to post a sign as provided in this subsection is subject to a \$50 fine for each citation."

Be it enacted by the Legislature of the State of Montana:

Section 1. Property subject to forfeiture. (1) The following property is subject to forfeiture:

(a) gambling implements, apparatus, paraphernalia, slips, tickets, and devices kept, possessed, or used in violation of a provision of this chapter;

(b) personal property not listed in subsection (1)(a), including but not limited to motor vehicles and money or negotiable instruments, kept, possessed, derived from, or used in violation of a provision of this chapter.

(2) Personal property is not subject to forfeiture unless the owner of the property had actual or constructive knowledge of and was a consenting party to the illegal act.

Section 2. Petition — summons — service — answer. (1) A peace officer that seizes personal property under [section 1] shall within 45 days of the seizure file a petition to institute forfeiture proceedings with the clerk of the district court of the county in which the seizure occurred. The clerk shall issue a summons, which the petitioning party shall by one of the following methods serve upon each owner or claimant of the personal property:

(a) upon an owner or claimant whose name and address are known, by personal service of a copy of the petition and summons as provided in the Montana Rules of Civil Procedure;

(b) upon an owner or claimant whose address is unknown but who is believed to have an interest in the property, by publication of the summons in one issue of a newspaper of general circulation in the county where the seizure occurred or, if there is no such newspaper, by publication in one issue of a newspaper of general circulation in an adjoining county and by mailing a copy of the petition and summons to the most recent address of the owner or claimant, if any, shown in the records of the department.

(2) Within 20 days after service under subsection (1), the owner or claimant of the seized property may file a verified answer to the allegations concerning the use of the property described in the petition. An extension of time for filing the answer may not be granted. Failure to answer within 20 days bars the owner or claimant from presenting evidence at any subsequent evidentiary hearing unless extraordinary circumstances exist.

Section 3. Effect of failure to answer — hearing date following answer. (1) If a verified answer to the petition is not filed within 20 days after service under [section 2], the court, upon motion, shall order the property forfeited to the state.

(2) If a verified answer is filed within 20 days after service under [section 2], the forfeiture proceedings must be set for hearing without a jury, to be held no sooner than 60 days after the answer is filed. Notice of the hearing must be given in the manner provided for service under [section 2].

Section 4. Rebuttable presumption of forfeiture — rebuttal of presumption. (1) There is a rebuttable presumption of forfeiture.

(2) An owner of the personal property who has a verified answer on file may rebut the presumption by proving that the property was not used for the purpose charged or that the use of the property occurred without the owner's knowledge or consent.

(3) A claimant of a security interest in the personal property who has a verified answer on file may preserve the security interest by proving that the security interest:

(a) is bona fide; and

(b) was created after a reasonable investigation of the moral responsibility, character, and reputation of the purchaser of the personal property and without knowledge that the personal property was going to be or was used for the purpose charged.

(4) Subsection (3)(b) does not apply to:

(a) a person who has a lien for making repairs or performing labor upon, furnishing supplies or materials for, or providing storage for or safekeeping of the personal property;

(b) a person doing business under any law of this state or the United States relating to financial institutions, as defined in 32-6-103, loan companies, or licensed pawnbrokers; or

(c) a person regularly engaged in the business of selling or of purchasing conditional sales contracts for that type of personal property.

Section 5. Disposition of property. (1) If the court finds that the personal property was not used for the purpose charged or was used without the knowledge or consent of the owner, it shall order the property released to the owner.

(2) If the court finds that the personal property was used for the purpose charged and was used with the knowledge or consent of the owner, the personal property shall be disposed of as follows:

(a) If proper proof of a claim is presented at the hearing by the holder of a security interest, the court shall order the personal property released to the holder of the security interest if the amount due the holder is equal to or in excess of the value of the personal property as of the date of seizure. If the amount due the holder of the security interest is less than the value of the personal property, the personal property may be sold at public auction by the law enforcement agency that seized the personal property in the manner provided by law for the sale of property under execution. The proceeds of the sale must be first used to pay the amount due to the holder of the security interest, with the remainder deposited in the account provided for in subsection (3). Instead of sale at public auction, the law enforcement agency may turn the personal property over to the holder of the security interest. The personal property may not be sold to an officer or employee of the law enforcement agency that seized the property or to a person related to an officer or employee by blood or marriage.

(b) If there is no security interest claimant and the law enforcement agency that seized the personal property wishes to retain the property for its official use, it may do so. If the personal property is not retained, it must be sold at public auction by the law enforcement agency that seized the personal property in the manner provided by law for the sale of property under execution and the proceeds of the sale must be deposited in the account provided for in subsection (3).

AN ACT CLARIFYING THAT THE IMPAIRMENT MEDICAL EVALUATION PROCEDURES FOR WORKERS' COMPENSATION APPLY TO IMPAIRMENT RATING DISPUTES; AMENDING SECTIONS 39-71-605 AND 39-71-711, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE AND AN APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 39-71-605, MCA, is amended to read:

"39-71-605. Examination of employee by physician — effect of refusal to submit to examination — report and testimony of physician — cost. (1) (a) Whenever in case of injury the right to compensation under this chapter would exist in favor of any employee, the employee shall, upon the written request of the insurer, submit from time to time to examination by a physician, psychologist, or panel that must be provided and paid for by the insurer and shall likewise submit to examination from time to time by any physician, psychologist, or panel selected by the department or as ordered by the workers' compensation judge.

(b) The request or order for an examination must fix a time and place for the examination, with regard for the employee's convenience, physical condition, and ability to attend at the time and place that is as close to the employee's residence as is practical. An examination that is conducted by a physician, psychologist, or panel licensed in another state is not precluded under this section. The employee is entitled to have a physician present at any examination. If the employee, after written request, fails or refuses to submit to the examination or in any way obstructs the examination, the employee's right to compensation must be suspended and is subject to the provisions of 39-71-607. Any physician, psychologist, or panel employed by the insurer or the department who makes or is present at any examination may be required to testify as to the results of the examination.

(2) In the event of a dispute concerning the physical condition of a claimant or the cause or causes of the injury or disability, if any, the department or the workers' compensation judge, at the request of the claimant or insurer, as the case may be, shall require the claimant to submit to an examination as it considers desirable by a physician, psychologist, or panel within the state or elsewhere that has had adequate and substantial experience in the particular field of medicine concerned with the matters presented by the dispute. The physician, psychologist, or panel making the examination shall file a written report of findings with the claimant and insurer for their use in the

determination of the controversy involved. The requesting party shall pay the physician, psychologist, or panel for the examination.

(3) As used in this section, a panel includes a practitioner having substantial experience in the field of medicine concerned with the matters presented by the dispute and whose licensure would qualify the practitioner to act as a treating physician, as defined in 39-71-116, and may include a psychologist.

(4) A claimant is required, upon a written request of an insurer, to submit to a functional capacities evaluation conducted by a licensed physical or occupational therapist.

~~(5) This section does not apply to impairment evaluations provided for in 39-71-711."~~

Section 2. Section 39-71-711, MCA, is amended to read:

"39-71-711. Impairment evaluation — ratings. (1) An impairment rating:

(a) is a purely medical determination and must be determined by an impairment evaluator after a claimant has reached maximum healing;

(b) must be based on the current edition of the Guides to Evaluation of Permanent Impairment published by the American medical association;

(c) must be expressed as a percentage of the whole person; and

(d) must be established by objective medical findings.

(2) A claimant or insurer, or both, may obtain an impairment rating from an evaluator who is a medical doctor or from an evaluator who is a chiropractor if the injury falls within the scope of chiropractic practice. If the claimant and insurer cannot agree upon the rating, the mediation procedure in part 24 of this chapter must be followed.

(3) An evaluator must be a physician licensed under Title 37, chapter 3, except if the claimant's treating physician is a chiropractor, the evaluator may be a chiropractor who is certified as an evaluator under chapter 12.
